CURRENT COMMENT.

Scranton Republican: A man's neighbor are the one's best able to judge as to his traits of character. That being the case, it is a strong point in favor of J. Lee Plummer that the people of his home speak so well of him.

Bloomsburg Republican: "The bitter attacks on J. Lee Plummer's private life and character have reacted and everywhere voters are lining up to give him a majority on the seventh of November that will make these character assassins run to their 'holes and pull their holes in after them.'"

Williamsport Gazette and Bulletin: As Mr. Berry is not paying any particular attention to the Prohibition part of his nomination, it is not likely that the followers of that party will pay any particular attention to him.

Mayor Berry, of Chester, is rattling around the State, but his boom has had several punctures and before election day he will discover that mere noise is not an evidence of popularity.—Harrisburg Telegraph.

That the taxpayers of this county have been robbed by boodling office holders there isn't the slightest doubt—robbed systematically, brazenly, outrageously—no sane man will deny, and that they have been aided in covering up their tracks by men in high standing will also be developed if the cases ever get into the courts.—Milton "Standard."

Mrs. Chas. G. Freck Dies.

A telegram was received yesterday morning from Chas. G. Freck, informing his daughter, Miss Laura T., one of the teachers in our schools, that her mother was dead. The young lady was directed to go to Coudersport, where no doubt the remains will be taken.

PATRONIZE HOME TRADERS AND BOOM YOUR TOWN.

Some Reasons Why Such Practice Should Obtain.

A small group of Meadville men were discussing the subject last evening of patronizing home industries, and although all were agreed that this is an important essential of the building up of a prosperous community, they were equally agreed that a great many people who preach that sort of thing do not always practice it. The Meadville merchant, who erects buildings, gives employment to home people, pays taxes here and in other ways helps to support the city, is entitled to the patronage of Meadville people, particularly when we have such stores as this city boasts. The same rules apply to every line of business, as well as to employment. Local business men are entitled to local patronage, and local workmen are entitled to first choice in the employment to be had here. The home dealer, manufacturer, or whatever his business may be, and the home toiler as well, is entitled to the home patronage, and people who send their money out of town or spend it with traveling concerns, hawkers and peddlers, who have no interest in the city, except to get what they can out of it, cannot claim the same loyalty to their neighbors that they expect and usually demand for themselves. If every man and woman in Meadville would patronize home enterprises whenever they can get as good goods at as fair prices, or as good work for as little money, a good many thousands of dollars that now go out of town every year, and never come back, would remain right here in Meadville and help to make times better in our own city.—Meadville Tribune Republican.

Too many sermons are aimed at the pocketbooks of the congregation.
