A well known Scotch horse couper, who was considered a respectable member of a congregation, was frequently pressed by the minister to allow himself to be nominated for the eldership. He always put the matter off with evasive answers, but at length the minister demanded the reason for his refusal. Thus driven into a corner the worthy replied: "Man, I wonder to hear you, Mr. McNab! Hoo can a man be an elder and sell a horse?"—Scottish American.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

**Causes of Cancer.**  
"I could see no reason for the prevalence of cancer among the backwoods men of North America," says an English writer. "The other day, however, I happened to read in an account of the backwoods of Canada that the lumbermen maintain their remarkable powers on buckwheat cakes served with molasses, potato pies, baked beans, white bread, pork and bacon. So far good, but that tea, black as ink, sweetened with molasses or sugar house sirup, is always near the fire by day and by night and is used in vast quantities. Here we have the rich nutriment and the great excess of stewed tea and the excess of sugar, corresponding to the excessive beer and excessive coffee of parts of Holland, Scandinavia, Switzerland, Baden and varia, in all of which cancer is exceedingly prevalent."
