### CHURCH PERSONALS

A large portion of the library of the ate Bishop McLaren has been donated by his family to the Western Theological seminary library.

Rev. T. G. Harper, of Wibsey, the newly elected president of the Wes-leyan Reform union, was originally a Bedfordshire tinker, reared at Elstow, where John Bunyan was born.

Ian Maclaren, who is just leaving the Liverpool church where he has been minister for a quarter of a cen-tury, has been making a collection of his sermons as a sort of farewell volume.

Dr. Julius Goebel, who was dismissed as head of the German department of Stanford university without a hearing, has been appointed by President Eliot as the head of a similar department at

Rev H. Olin Cady now of Evanston. Ill., who has been connected with Methodist missions in west China for the last 19 years, has been retired with a pension by the board of managers of the Missionary society.

Mr. E, Vickery, a leading member of the Methodist church in New Wales, has bought the Lyceum theater and hotel in Pitt street, Sydney, and some adjoining property, for about \$170,000, and intends to hand the whole over to the Sydney Central Methodist mission.

O. C. Barber, of Akron, O., known as "the match king," will build in the city named one of the most beautiful churches in the country. It is to be an exact duplicate of the Madeleine in Paris and will cost \$500,000. As in tho original, there will be no windows light being obtained through a system of skylights.

Rev. Charles Stelzle, who is labor representative for the Presbyterian church, is planning to have the Protestant churches of each large city select a fraternal delegate to the labor unions, and in turn a member of the unions it to be given the freedom of the ministers' meetings. In this way Mr. Stelzle hopes to bridge the chasm between labor organizations and the church.

## TERSE TRUTHS.

Only those who have suffered can truly sympathize.

A friend in need is a friend in deed, not alone in words.

Some men who are quick to propose reforms are the last to accept and were healthy throughout. them. It is better to be known as a good

man than to be known as a good fel-Some men think they are popular

merely because people impose on them. The world has very little confidence in a man who is too proud to remem-

ber his origin. Some men would never know they had a good time yesterday if they

had no headache to-day. Instead of complaining that they do not get what they deserve, most

men should be rejoicing because of it If the possession of money were only reason for happiness, world would lose most of its cheer-

A mother is always ready to trust her daughter's happiness to a young man who is courteous and polite to

## SO IT IS SAID.

A shoemaker is the whole-soler man and generally well heeled.

A baker can always raise the dough. A butcher can usually contrive to make both ends meet.

A hatter is sure to be a block ahead of all other men. A huckster has no trouble with the

police in making a good living out of green goods. A baby carriage manufacturer never

fails to push his business. A hairdresser, as a rule, does a

thriving business in combination locks. A newspaper man rarely fails to get his paper on the street.

An electrician is always posted on

## FROM TEXAS.

Some Coffee Facts from the Lone Star State.

From a beautiful farm down in Texas, where gushing springs unite form babbling brooks that wind their sparkling way through flowery meads, omes a note of gratitude for delivery from the coffee habit.

"When my baby boy came to me five years ago, I began to drink Postum Food Coffee, having a feeling that it would be better for him and me than the old kind of drug-laden coffee. I was not disappointed in it, for it enabled me, a small delicate woman, to nurse a bouncing healthy baby 14 months

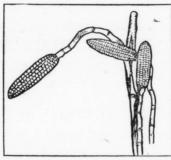

"I have since continued the use of Postum, for I have grown fond of it, and have discovered to my joy that it has entirely relieved me of a bilious habit which used to prostrate me two or three times a year, causing much discomfort to my family and suffering o myself.

"My brother-in-law was cured of chronic constipation by leaving off the old kind of coffee and using Postum. He has become even more fond of it than he was of the old coffee.

"In fact the entire family, from the latest arrival (a 2-year-old who always calls for his 'potie' first thing in the morning), up to the head of the house, think there is no drink so good or so wholesome as Postum." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pkgs.

UNIQUE SPECIMEN OF CORN.

from the parent stalk, this particular specimen developed two "suckers" near its roots, each of which grew into a perfect stalk and each of which bore a fine ear of corn.

The stalk is in three pieces and each section bears a fine ear of corn. Those who have studied agriculture and who have examined the specimen, say that it was perfectly healthy and was allowed to ripen and is now be ing preserved by Prof. Dyer as a singular example of agricultural freaks

The ears are large, heavy, well grained and perfectly formed in every particular. Although the stalks are so thin that they hardly seemed capable of bearing the heavy ears, they sprouted to a height of more than five feet

On the longest stalk of all, which geems so slender that it hardly appears as if it could bear a heavy weight, is the largest ear of the trio It is close to one foot in length and is of unusual thickness.

One stalk, in the same field, bore four ears of corn. The field was cultivated by an old North Carolina man, who has made a study of the raising of corn, and who has turned out as fine a field of the grain as could be located anywhere in the new ... nood. Prof. Dyer intends to keep the specimen as a curiosity.

## THE TIME TO PLAN.

The Work of the Farmer Should Be Planned Months Ahead-Time to Buy Seed.

The time to plan farm work is several months ahead of each crop that is to be grown. The lack of planning is responsible for many of the failures is to be grown. The lack of planning in farming. If the planning is done too near the time of planting a crop, it will be found that something is in the way, that something has been over looked. Thus, in the purchase of seed for the corn, wheat, oats and other grain crops of next year it will not do to wait till midwinter before laying all plans. If seed is to be purchased from a distance it is not always easy to get it, when the seedsman must send it out in company with a great multitude of other orders. It is necessary to send in the orders early, so that the farmer may have time to make germination tests to ascertain if the seed is up to the required standard in germinability. If it is not, the farm er may have to send to another place for seed, which will in turn have to be tested.

In the sowing of clover seed, plans should be laid early. It will not be safe to wait till the middle of the winter before ordering the seed. In some localities the practice is general of sowing on the snow, and in that case March will be the month in some locali-ties and February in other localities farther south. If the seed is ordered late it may not arrive till after the desirable conditions have gone. It must in addition be tested before being sown and this requires some time.

The more skillful a man is in plan ning his work, says the Farmers' Review, the more likely is he to be successful in the work of the farm. In large establishments in the city, plans are often made years in advance and worked as carefully as one would work to a certain pattern in weaving a car-pet or other fabric. This is absolutely necessary in some enterprises. Business should go like clockwork and the farm is a business place. There should be on it more bookkeeping and more planning of all work in advance.

## Head Work Needed.

The sunshiniest day the farmers of our country have ever seen will be the day when they awaken to the fac that it is not all of farming to dig in the earth. With our digging there must be mixed a lot of the good, sharp and of thought and common sense.

Lime in Potato Bin. A little lime scattered through po-

tates as they are put away for winter will absorb dampness, keep them from sprouting early and assist in keeping them from rotting. It will not in-

## DISAGREEABLY AGREEABLE.

Young Man Was There with the Oily Approval to a Nauseating Extent.

UNIQUE SPECIMEN OF CORN

Slender Stalks Grow Ears of Unusual
Size on Rich Ground Near
Webster, Mo.

Although cultivated upon upland ground, a stalk of field corn owned by Prof. William C. Dyer, principal of the Madison school, has developed characteristics which are usually found only in exceptional cases of corn grown in extremely rich and low-lying land.

The corn was grown on a farm near Webster, Mo., and is a particularly fine specimen of the "ninety-day" yellow field variety. Instead of sprouting in proposed to the model of the wind of sprouting in the late James F. Joy is at least characteristic. He was never weak in his likes or dislikes, and among things that he dearly liked were honesty and naturalness. The attempt to appear what one were not was to antagonize him, says the Cincinnati Commercial Tribune.

Mr. Joy had many positions at his disposal, and an applicant for one of them we with gilt-deged credentials. The young man presenting them was of good to even whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for one whom the financier had respected for years. Wise as to his tongue the youth to one whom the financier had respected for years. Wise as to his tongue the youth of the sum on the sum of the

wondered how far it would go, and put the test:
"Don't you think that this is a much warmer summer than last?"
"Unquestionably."
"But on second thought I think it con-iderably cooler."
"You are certainly right, sir."
"Young man, you are so persistently agreeable as to be disagreeable."

Get at the Cause.

Get at the Cause.

Sacramento, Ky., Nov. 13th (Special)—A typical illustration of the way Dodd's Kidney Pills Cure Rheumatism is well told by Catherine Devine, who is very well known here. She says:—

"For over four years I was greatly troubled with Rheumatism. It used to take me worst in my legs and feet. At times I would be so bad I could not put my feet to the ground. As I am over seventy-three years of age I began to think I was too old to get cured and should have to bear my Rhuematism the best way I could. But I heard about Dodd's Kidney Pills and thought I would give them a trial. So I got a box and began taking them. Well, I must say Dodd's Kidney Pills did me a wonderful lot of good. They eased the pain from the first, and to-day I am in better health than I have been for many years."

Running Account. "The cashier has skipped out and his books are in an awful muddle," announced the bookkeeper. "What shall we do?" "Open a running account with him at once," said the president, promptly.—Cleveland Leader.

## SKIN-TORTURED BABIES.

Instant Relief in Warm Baths with Cuticura Soap and Gentle Anointings with Cuticura Ointment.

The suffering which Cuticura Remedies have alleviated among the young, and the comfort they have afforded wern-out and worried parents, have led to their adoption in countless homes as priceless curatives for the skin and blood. Infantile and birth humors, milk crust, scalled head, eczema, rashes, and every form of itching, scaly, pimply skin, and scalp humors, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies suitable for children, and even the best physicians, fail.

"Do you think a politician is worse than other men?" "No," answered Senator Serghum. "He has more temptations."— Serghum. Washington Star.
