If monarchs have often permitted themselves the indulgence of making puns the fact has not been recorded in the pages of history. One pun, however, is assigned to King Frederick William IV. of Prussia. It is said that on the occasion of a court ball he was standing near the middle of the dance hall in conversation with an exceedingly thin ambassador. In the haste and excitement of a fiery gallop a lieutenant of the Hussars danced, with his partner, between the monarch and the person whom he was addressing, and then, seeing what he had done, he began to stammer abject apologies and explanations. "Oh, that was nothing," replied the king, with a hearty laugh. "A Hussar must go without fear through thick and thin." A whimsical glance from his own portly figure to that of the slender ambassador accompanied this answer, and the Hussar felt himself not only pardoned, but invited to share in the king's laugh. Serving Fish. Fish is dainty food. Practice is needed in serving it. Lightness of touch and dexterity of management are necessary to keep the delicate flakes intact. It requires some skill to rip the skin and lay it back and sever the head and tail with neatness and dispatch. These three articles must never leave the platter. They belong to the eat. The choicest morsel of any white fish is the cheek. It is not good form to cut through a fish. Begin at the tail and throw aside the skin. Begin at the head to serve, cutting to the backbone. When the meat on that side is helped turn the fish and help the other side in the same way. If there is roe a part should be served each person. Boiling is the nicest way to cook and the easiest way to serve fish. Dress the edge of the platter with hard egg and sliced lemon, tomato and beets. An Ivory Mat. Many people have never even heard of such a thing, and it is not to be wondered at, for these mats are exceedingly rare, and it is said by those who know that only three of these beautiful curiosities exist in the whole world. The one we now write about is the largest one made. It measures 8 by 4 feet and, though made in a small hill state in the north of India, has an almost Greek design for its border. It was only used on state occasions, when the rajah sat on it to sign important documents. The original cost of the mat is fabulous, for 6,400 pounds of ivory were used in its manufacture. The finest strips of ivory must have been taken off the tusks, as the mat is as flexible as a woven stuff and beautifully fine.—London Graphic. FIRE SALE every evening at Murry & Coppersmith's.

Deafness Cannot be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & Co., Toledo, O. Taggart offers a means of escape in Mi-o-na that is simple and practical. These simple tablets are composed of such valuable medicinal agents as bismuth subgallate, which is superior to all other remedies for stomach troubles, cerium oxalate, and tonics and correctives which promote the actions of the digestive organs, strengthen the whole digestive tract, and make it possible to eat what you like and when you like. If you suffer with head aches, indigestion, flatulency, heart burn, dizziness, sleeplessness, back ache, or debility and weakness, begin the use of Mi-o-na at once.
