Emperor William's Character.

As the German emperor is the person with whom the world's peace is most bound up, light on his character has more than personal interest.

Washington, Feb. 1.—Discussion of the railroad rate bill continued in the house yesterday. Incident to it two speeches, the efforts of Mr. Campbell (Kansas) and Mr. Martin (S. D.) took a wider range and swept the horizon of "trust evils" generally.

Washington, Feb. 2.—The house yesterday called for the estimate of cotton yet to be ginned, which the director of the census has compiled, but which he has no authority to make public until March.

Washington, Feb. 3.—Oratory on the railway rate bill held the attention of the house for six hours yesterday.

Will End a Reign of Terror.

New York, Feb. 3.—The treaty of Chinatown—"an agreement between the societies known as On Leong Tong and the Hip Sing Tong to insure peace and good will among the Chinese of Greater New York"—was drawn up and formally agreed to Friday before Justice Warren W. Foster.

Woman's Inventive Genius.

It is not true that woman lacks creative genius. In fact, the inventive talent is marked in woman. There is usually something original in her makeup, asserts the Washington Star.

Court Fines a Union \$1,000.

Chicago, Jan. 30.—President Edwin R. Wright, of Typographical Union No. 16, was yesterday fined by Judge Holden, of the superior court, \$100 and sentenced to 30 days in jail for contempt of court.

An Expensive Examination.

New York, Feb. 3.—Examiners representing the insurance departments of Wisconsin, Minnesota, Kentucky, Tennessee and Nebraska, who four months ago began a joint investigation into the affairs of the New York Life Insurance Co., completed their task yesterday.

Insects and Disease.

The science of medicine seems to be on the verge of a vast change. If the reputed discoveries are reliable, physicians will have to abandon their medicine chests and turn themselves into entomologists.

Found Dead.

Pittsburg, Jan. 31.—A young man who had given his name as C. W. Butterfield, of Chicago, was yesterday found dead in a furnished room he had rented at 1217 Federal street, Allegheny.

Was Proclaimed King of Denmark.

Copenhagen, Jan. 31.—Frederick VIII, was proclaimed king of Denmark yesterday in Amalienborg square in front of the palace.

CONGRESSIONAL.

Proceedings of the Senate and House of Representatives.

Washington, Jan. 30.—What is considered a strike at the railroads was taken by the house Monday in the adoption of a resolution calling on the president to furnish information as to the existence of an alleged agreement in violation of the inter-state commerce law between the Pennsylvania, Baltimore & Ohio, Norfolk & Western, Chesapeake & Ohio, Northern Central and Philadelphia, Baltimore & Washington railroad companies.

Washington, Jan. 31.—Members of the house evidenced a more general interest in the discussion of the railway rate bill yesterday than on any topic of legislation for some time.

INDUSTRIAL ITEMS.

The old style sharp-pointed shoe of Spanish origin has nearly disappeared in Mexico, having been replaced by the American lasts.

The cabinet makers of France are artists, but they keep reproducing, year after year, the styles which their forefathers have made for centuries.

The cut of lumber in the Canadian province of Ontario will exceed that of last year by 100,000,000 feet. The cut will total about 450,000,000 feet.

Germany pig iron production in October passed, for the first time, the million-ton mark. The month's output reached 1,096,943 tons, a gain of 16 per cent. over October last year.

This country ranks first in the paper-making industry, Germany is second, and Great Britain comes third. The production in America is two or three times greater than in Great Britain.

The United States consumes all of its annual iron output of 35,000,000 tons. England consumes 6,000 tons more than its 14,000,000 ton output, and Germany 3,000,000 more than its 21,000,000 ton output.

One brick-making company put out \$1,200,000 bricks, with an average to the machine of nearly 3,750,000. This is the largest average, and the greatest total of brick ever made in New York state by any brick manufacturing plant.

According to recent statistical statements published in the Bulletin of the Commercial Geographical society of Paris, the world's production of petroleum was divided as follows: United States, 15,000,000 tons; Russia, 10,000,000; Sumatra, Java and Borneo, 1,000,000; Roumania, 496,000; the East Indies, 404,000; all others, 250,000.

BUSINESS PRECEPTS.

Be original—if you are "different" the market for your talent is wider. If you do things the same as everybody else—somebody will cut the price and you will have to work cheap.

Are you deaf to the knock of opportunity? Probably so, most of the time; and it is the same with every other man. Men of business are usually "over ears" in the rumble of routine thought, and it is small wonder that opportunity's timid raps are unperceived amid the sense-dulling din of the machinery of habit.

The habit of doing things, of viewing them in a certain way, once firmly fixed becomes a tyrant of the mind. It suppresses effort at reform and denies liberty of action to the faculties. Originality and progress are chained to the dungeon walls of custom.

Why does a young firm grow? Because its members have not yet become slaves of time-worn methods. Why does an old house cease to grow? Because, in a measure, its members have their eyes blinded by the veil of custom and their ears have been stopped with the cotton of habit.

SWIPED SQUIDS.

It may be that it is "football" rather than football to which the public objects.

What the average man needs more than anything else is a supply of evening reception conversation.

Cold weather makes ice. Ice makes the water wagon slippery. A slippery water wagon is hard to hold on to. Hence, therefore, etc., etc.

The president of a bachelors' club at Nevada, Mo., has resigned to get married. The presumption is that he grew tired of being at the head of things.

FACIAL PARALYSIS

Nervous Distortion of Face Cured by Dr. Williams' Pink Pills.

What appears to be a slight nervous attack may be the forerunner of a severe disorder. No nervous sufferer should neglect the warning symptoms, but should see that the starved nerves are nourished before the injury to the delicate organism has gone to an extent that renders a cure a difficult matter.

"I had been feeling badly for a long time," said Mr. Bonis, "and in the early part of September, 1902, I was compelled to quit work on account of my ill health. My trouble was at first extreme nervousness, then my sight became affected and I consulted an oculist who said I was suffering from paralysis. He treated me for some time, but I got no benefit. I tried another doctor and again failed to obtain any relief. My nervousness increased. Slight noises would almost make me wild. My mouth was drawn so I could scarcely eat and one eye was affected so I could hardly see. I had very little use of my limbs, in fact I was almost a complete wreck."

"I am all right now and am at work. That is because I followed my wife's advice and took Dr. Williams' Pink Pills. She had used the same remedy herself with the most gratifying results and she persuaded me to try them when it appeared that the doctors were unable to help me. They acted very surely in my case; my face came back into shape and in time I was entirely well."

Dr. Williams' Pink Pills are sold by all druggists or by mail by the Dr. Williams Medicine Co., Schenectady, N. Y. A booklet on Nervous Disorders sent free on request.
