Letter to C. S. Larrabee.
Emporium, Pa.

Dear Sir: Have you found this out? You need less of Devco lead-and-zinc for a job than of anything else; less gallons; less money.

M. A. Thomas, painter, Lynchburg, Va., has found it out; he writes: "The first job I did with your paint I estimated 37 gallons; had 12 gallons left over. Since then I have not used any other kind of paint but Devco lead-and-zinc; I recommend it to all my customers. When I commence a job, I tack up a card reading as follows: M. A. Thomas, contractor; Devco Paint."

Putting it on costs two or three times as much as the paint. Have you found this out? You can paint Devco in less time; less money.

Have you found this out? Devco wears longer than anything else.

You don't object to long time between jobs. Your customer likes it. And you like what he likes. It keeps your customers.

Yours truly
F. W. DEVOE & CO.,
New York.
