THE REALM OF SCIENCE

Prof. Wilhelm Wundt, the creator of experimental psychology, now in his seventy-fourth year, recently celebrated the fiftieth anniversary of his graduation with the doctor's degree.

A faintly luminous mist in the bulb and on the fingers has been noted by Prof. Sommers on rubbing electric light bulbs that have been not long in use. No satisfactory explanation has been

Palladium, a rare substance little used, is the active agent in automatic gas lighting devices. Flame is produced as soon as the illuminating gas strikes a pellet of asbestos covered with a mixture of palladium and finely divided platinum, known as plat-irum black.

If odors were solid particles, they would tend to form nuclei of cloudy condensation in supersaturated air. Dr. John Aitken has tested musk and 23 other odorous substances without finding such nuclei, and he concludes that ours are gaseous and that smell

has gas as its fundamental basis. Carrying out experiments in psychic phenomena, some scientists of Ruvo produced some striking results. A 14year-old boy was put in a trance, and in this condition answered questions put to him in Greek, Latin, Arabic, French, English, German, and conversed in those languages, his voice being that of a man.

In an attempt to liquefy helium, Prof. Olszewski recently produced the remarkably low temperature of 455 degrees below zero, Fahrenheit. It was done by suddenly expanding a mass of gas helium which had been subjected to a pressure of about 2,700 pounds to the square inch, in a temperature so low that it nearly solidified hydrogen. The helium showed

no sign of liquefying.

"The More Postum the More Food-The More Coffee the More Poison."

The Pres. of the W. C. T. U. in a young giant state in the Northwest

says: "I did not realize that I was a slave to coffee till I left off drinking it. For three or four years I was obliged to take a nerve tonic every day. Now am free, thanks to Postum Food Coffee.

"After finding out what coffee will do to its victims, I could hardly stand to have my husband drink it; but he was not willing to quit. I studied for months to find a way to induce him

"I got Postum Food Coffee, and made it strong boiled it the required time, and had him read the little book, The Road to Wellville,' that comes in every pkg.

"To-day Postum has no stronger advocate than my husband! He tells our friends how to make it, and that he got through the winter without a spell of the grip and has not had a heads for months-he used to be subject to frequent nervous headaches

PROBERS REPORT.

The Armstrong Committee Suggests Remedial Legislation to Protect the Policy Holders.

New York, Feb. 23.—The committee appointed at the last session of the New York legislature to investigate life insurance made its report Thursday. The report embraces a long review of the testimony taken by the committee and its recommendations and conclusions as to remedial legislation. In addition there is a chapter devoted to the state insurance de-partment in which the committee declares that the superintendent of the department has had ample power to ascertain the transactions of insurance companies, but the supervision by the department has not proved a sufficient protection against extrava-gance and maladministration.

No substantial amplification of the powers of the department seems necessary according to the committee, which holds that most of the evils which have been disclosed by the investigation would have been impossible had there been a vigorous per-formance of the duties already laid upon the insurance department.

The remedial legislation recom-mended by the company provides for

the safeguarding of the rights of polthe sateguarding of the rights of pol-icyholders in mutual companies in the election of directors; recommends that stock companies be given authority to retire their stock and become mutual companies, but that such mutualization shall not be compulsory; various regulations are urged to prevent unregulations are urged to prevent unwise investments and improper syndicate operations; the sale of prohibited
securities within five years is advocated. A recommendation for the limiting of new business to \$250,000,000 a
year is made; the committee condemns the contributions by insurance
companies for political purposes, lobbying is condemned and the wisdom
of economical management is urged

of economical management is urged. The committee says the accounts of the Mutual Life Insurance Co. should be thoroughly examined in order that the extent to which moneys have been misapplied and the responsibility for any misapplication which may be

shown may be determined.

Concerning the New York Life insurance Co., the committee found that its transactions with Andrew Hamilton showed extraordinary abuses, and that the statement sent from Paris by Hamilton was without suitable specifi-

In taking up the Equitable Life As-

In taking up the Equitable Life Assurance Society, the committee tells of the dissensions last February which resulted in the reorganization of that society and in the disclosures which brought about the legislative inquiry. The payment of \$20,000 a year to Senator Depew by the Equitable, the committee holds, was not warranted, the testimony as to the services rendered by Senator Depew not appearing to be sufficient for such payment. The committee also sets forth that it does not appear what services were render. not appear what services were rendered by ex-Senator Hill, who was paid \$5,000 a year. In justice to Mr. Hill, the committee says it was not able to get his testimony upon this subject because he was too ill to appear.

The committee finds that in spite of the irregularities shown there is no reason to question the solvency of the Mutual Life Insurance Co., the New York Life Insurance Co. nor the Equitable Life Assurance Society.

SHOVEL STRUCK DYNAMITE.

Thirty Men in the Carnegie Steel Plant at Duquesne, Pa. Are Injured by an Explosion.

Pittsburg, Feb. 23.—Thirty persons were hurt, three of whom will die, by the explosion Thursday of a 200-pound charge of dynamite, which was struck by a steam shovel at the Carnegie Steel Co.'s plant at Duquesne. The steam shovel was removing a slag pile that had been previously broken up with the explosive. During the break-ing up process one of the charges of dynamite was lost, and it is this one that was exploded vesterday.

The steam shovel was plowing its way into the slag when there was a mighty roar, the ground trembled and the shovel structure was lifted into the air, parting and breaking up and falling to the ground a mass of splintered timber. Sharp flinty pieces of the slag were scattered in every direction and added to these were pieces of splint-ered timber from the shattered shovel which were hurled among a hundred Hungarian laborers, by the bursting of the boiler.

When the rain of timber and slag

THE LAND OF SUNSHINE AND PLENT

OWN A FARM AND BE INDEPENDENT We have a tract of the finest land in Southern Alabama to be sold in 40 to 160 acre tracts. CASH OR EASY PAYMENTS.

LOCATED IN WASHINGTON COUNTY - MOST HEALTHFUL SPOT IN THE SOUTE

No cold weather, no coal to buy, less clothing, and, in fact, living is one-half the cost as in the north. A man with very little capital can own a forty-acre tract and become independent in a few short years by raising vegetables and fruits for the northern and eastern markets. We have the best shipping facilities, both by water and rail, making our lands the best garden spot in the country. This section offers more advantages for the wage earner or the man with a small capital than any spot on this green earth. This land will yield larger profits than you can realize out of northern land worth \$150 per acre. The land is a rich sandy loam, with a clay subsoil, and grows peaches, pears, grapes, figand all kinds of small fruits and vegetables in great abundance. Also corn, oats, sweed and Irish potatoes and cotton. This location is famous for its salubrious climate and curative powers. Plenty of creeks and pure spring drinking water. We are erecting a hotel, church, schoolhouse and store building in our new town,

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package. he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices
