

# IN ALABAMA

THE LAND OF SUNSHINE AND PLENTY—OWN A FARM AND BE INDEPENDENT.

We Have a Tract of the Finest Land in Southern Alabama to be Sold in 40 to 160 Acre Tracts—Cash or Easy Payments—Located in Washington County—Most Healthful Spot in the South.

No cold weather, no coal to buy, less clothing, and, in fact, living is one half the cost as in the north. A man with very little capital can own a forty-acre tract and become independent in a few short years by raising vegetables and fruits for the northern and eastern markets. We have the best shipping facilities, both by water and rail, making our lands the best garden spot in the country. This section offers more advantages for the wage earner or the man with a small capital than any spot on this green earth. This land will yield larger profits than you can realize out of northern land worth \$150 per acre. The land is a rich sandy loam, with a clay subsoil, and grows peaches, pears, grapes, figs and all kinds of small fruits and vegetables in great abundance. Also corn, oats, sweet and Irish potatoes and cotton. This location is famous for its salubrious climate and curative powers. Plenty of creeks and pure spring drinking water. We are erecting a hotel, church, schoolhouse and store building in our new town.

### FIGDALE, ALABAMA.

The Company's excursion will leave Chicago on March 20th. The fare for the round trip will be \$16.50 and furnishes a delightful excursion to the south. No expense to the purchaser.

### LIVE AGENTS WANTED IN EVERY TOWN.

Write for full particulars and illustrated booklet. Address

**TOMBIGBEE VALLEY LAND CO.,**  
Dept. D, Suite 829-831, 110 La Salle St., Chicago, Ill. Branch Office: Suite 610 City Bank & Trust Co. Bldg., Mobile, Ala.

### FROM FOREIGN FIELDS.

The sum of 720,000 marks has been raised by the German army for the Molke monument in Berlin.

There were 11,885 fewer deaths in London in 1905, ending with the Saturday before Christmas, than for the average of the last ten years.

An amateur society has been formed for the "diffusion of the cult of the bagpipe," not only in Scotland, but in England. A set of pipes costs from \$25 to \$250, according to finish and embellishments.

### Harmonious.

The Caller—Your art gallery is a treat. This picture especially is delightful; the values are so well balanced.

Mr. Porkham—That's right. Frame, \$200, picture same price.—Puck.

### RESTORE STRENGTH

Dr. Williams' Pink Pills Actually Make New Blood and Good Health Follows.

The evil effects that follow many diseases—particularly the grip and the wasting fevers, such as typhoid and malaria, are caused by the bad condition in which these diseases leave the blood. As a result, the flesh continues to fall away, the sufferer grows nervous and irritable, and even slight exertion causes shortness of breath. These are dangerous symptoms and indicate that the system is in a state that invites pneumonia, bronchitis or even consumption. What is needed is a new supply of rich, red blood to carry health and strength to every part of the body.

"I was all run down from the effects of the grip," says Mrs. Amelia Hall, of No. 5 High street, Norwich, Conn., "and could not seem to get strength to walk; could not eat a full meal, my stomach was so weak, and I was so nervous that I could not sleep. I could only stay in bed a few minutes at a time, either night or day. The least little thing would startle me. I had difficulty in breathing and had frequent fainting spells."

"My general health was completely wrecked and I had neuralgic and rheumatic pains, dyspepsia, constipation, and female weakness. My physician attended me for the grip and again for the condition that it left me in, but I got no strength from the tonics he prescribed. In fact, nothing helped me until I tried Dr. Williams' Pink Pills and they cured me."

"I grew stronger and gained flesh from the time I began taking them. I am satisfied that the pills are all that is claimed for them and I shall do all I can to make their good qualities known."

Dr. Williams' Pink Pills cure nervous disorders of every kind, check wasting diseases and build up strength. For booklet, address the Dr. Williams Medicine Co., Schenectady, N. Y.

### That Delightful Aid to Health

### NEST WITH RUNS.

Movable Box Which Simplifies the Handling of the Sitting Hen.

For several reasons it is best to keep a brooding hen within the range of her nest instead of being allowed to wander off and perhaps return to some other nest. For the small raiser of poultry a very good form of nests with runs is shown in the drawing. Any

QUARTERS FOR BROODY HENS.

number can be constructed side by side. Each nest run is 15 inches wide and high and the boards should be not less than four feet long. Lath or thin slats can be used as a covering at the top and front, and at the lower edge of the front a board six inches wide is to be made fast. At the back the end is closed solid with boards and a canopy is constructed with boards, having a lid on hinges so the hens and nests can be gotten at.

Boards are fastened two or three inches from the ground and faced at the front with a narrow strip to hold straw in place and prevent the eggs from rolling out. This keeps the nest dry also, and when the whole crate is moved about for sanitary reasons, the nest is not disturbed, says the Orange Judd Farmer. The lid should be covered with tarred paper so as to make it water proof, for the lid, being constructed of several boards, would have cracks large enough in it to let considerable water in during a storm. When it rains it would be well to have an old piece of canvas ready to throw over that part of the run next to the nest so as to shed the water, for a driving rain would sometimes wet a hen and nest.

### THE BEES AND CHICKS.

Stimulate with pure foods. Corner-loading hens are unprofitable. Where farming can be pursued with profit, bees may be successfully kept.

Kindness works wonders among poultry. It means more eggs and better health.

Store the honey product in a cool, dry place.

Nothing irritates bees so much as a sudden jar.

No incubator can think. The thinking apparatus must be supplied by the operator.

Continually outcrossing with the wild turkeys keeps our domestic turkeys up to the standard in vitality, but it also keeps up their inherited tendency to roam about.

When picking out eggs for hatching purposes choose only perfectly smooth ones of uniform size, neither too large nor too small. Be careful not to let them get chilled.

### EASILY MADE NEST.

How Orange Boxes Can Be Made Into a Very Serviceable Nest for Fowls.

Orange boxes can be had for the asking in almost every country and village grocery store in the land. Such a box, empty, is shown in Fig. 1. A lot of these boxes can be made useful in many ways about the farm—one way being shown in Fig. 2. The boxes are placed upon their sides, a narrow strip of the cover being nailed back at one side of the top, as shown. Arranged in tiers upon a board shelf, they form excellent hens' nests for the poultry house. A lot of nests can be made in a few minutes and all can be taken out of doors and cleaned whenever necessary. —Successful Farming.

### Farm Accounts.

It is my experience as to the general practice of farmers that very few keep any accounts. I might say that when accounts are kept they generally comprise only the wife's bonnet bills. Just now I am not engaged individually in farming, but if I were I would keep book record of everything. I believe that a man should keep an account of every crop grown as well as the general transactions of the farm. I believe that our systems of farm book-keeping should be very much improved. I would suggest a rendering of a regular expense account and keeping a record of all receipts.

### Arid America to Be Productive.

In times the arid sections of the United States will be among the most productive sections, as in those localities the sunshine is about eternal and the soil is rich in mineral food. It needs but water and humus to make it bloom and blossom. Great quantities of water are now going to waste that will ultimately be turned back for the irrigation of the land. Tablelands that are now above the reach of the irrigator will ultimately be reached by the flume and the lateral. That land is capable of enormous productivity.

## SHOULD A HORSE BE CLIPPED?

CLIPPING IN THE EARLY SPRING RECOMMENDED BY LEADING VETERINARIANS.

All Thinking Men Readily Recognize Its Advantages.

"A horse is a valuable asset, and should receive the best care possible. He should be well fed, comfortably stabled, carefully groomed and clipped in the early spring. If he receives these attentions he will work well and improve in value. A horse lives under artificial conditions. In his wild state he required none of these attentions, for he was able to look out for himself. The domesticated animal, being worked under conditions that are in themselves artificial, must be kept in condition for such work."

The clipping of a horse in the early spring is now conceded by all the leading veterinarians to be as essential to a horse's well being as shoeing him or giving him a comfortable bed to lie on. Farmers in England and France have been clipping their horses for many years, and American farmers are not slow to realize its advantages. A clipped horse dries out rapidly after a hard day's work, and will rest comfortably and be refreshed for the work the following day. An unclipped horse is liable to catch the heaves, pneumonia and all sorts of colds, rheumatism, etc. More especially is this so in the early spring, when his hair is long and he is "soft." If worked hard he will perspire freely and the moisture will be held by his long hair, and the food that should go to nourish him will be used to replenish the heat that is being constantly taken from his body by the mass of cold wet hair. If clipped, the perspiration will evaporate almost as soon as secreted, and when put in the stable he rests comfortably and his food does him good.

Some years ago a Buffalo street car company tested the value of clipping in the following manner: They owned 500 horses, and 250 of these were clipped early in the spring and 250 were not clipped. A careful record was kept of results, and it was found that of the 250 unclipped horses 153 were afflicted with coughs and pneumonia, while of the 250 clipped not one case of sickness was reported.

A man would not expect to enjoy very good health if he did hard manual work clothed with heavy underwear, a heavy suit and a fur overcoat, and after perspiring freely, as he naturally would, go to sleep without removing same. It is just as ridiculous to expect a horse to be in perfect health if worked under the same conditions.

If you would get the best returns from your investment in your horse, treat him right, and be sure and clip him in the early spring. A first-class horse-clipping machine can be bought at almost any hardware store for less than \$7.00.—Horse Review, Dec. 5th, 1905.

A pretty girl never will get lonesome if she is given a chance to show off.

## BABY'S TORTURING HUMOR.

Ears Looked as If They Would Drop Off—Face Mass of Sores—Cured by Cuticura in Two Weeks for 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 701 Coburn St., Akron, Ohio."

"Whenever there is an impending crisis," said the professor, who was in a retrospective mood, "there are always plenty of helpers to push it along."—Chicago Tribune.

## HERITAGE OF CIVIL WAR.

Thousands of Soldiers Contracted Kidney Trouble While in the Service.

The experience of Capt. John L. Ely, of Co. E, 17th Ohio, now living at 508 East Second Street, Newton, Kansas, will interest the thousands of veterans who came back from the Civil War suffering tortures with kidney complaint. Capt. Ely says: "I contracted kidney trouble during the Civil War, and the occasional attacks finally developed into a chronic case. At one time I had to use a crutch and came to get about. My back was lame and weak, and besides the aching, there was a distressing retention of the kidney secretions. I was in a bad way when I began using Doan's Kidney Pills in 1901, but the remedy cured me, and I have been well ever since."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## A Positive CATARRH CURE

Ely's Cream Balm is quickly absorbed. Gives Relief at Once.
