

CAMERON COUNTY PRESS.

B. H. MULLIN, Editor.

Published Every Thursday.

TERMS OF SUBSCRIPTION.

ADVERTISING RATES:

Advertisements are published at the rate of one dollar per square for one insertion and fifty cents per square for each subsequent insertion.

Legal and Official Advertising per square, three times or less, 12 cents; each subsequent insertion, 10 cents per square.

Local notices 5 cents per line for one insertion; 3 cents per line for each subsequent consecutive insertion.

Obituary notices over five lines, 10 cents per line. Simple announcements of births, marriages and deaths will be inserted free.

Business cards, five lines or less, 15 per cent. over five lines, at the regular rates of advertising.

No local inserted for less than 75 cents per issue.

JOB PRINTING.

The Job department of the Press is complete and affords facilities for doing the best class of work.

No paper will be discontinued until arrears are paid, except at the option of the publisher.

Papers sent out of the county must be paid for in advance.

Old-World Influences.

The Japanese in the Hawaiian Islands celebrated in many picturesque ways the victories of their fellow countrymen over Russia, notably the fall of Port Arthur.

The police are convinced that robbery was not the cause of all the murders, as considerable money was found on the bodies.

Four of the bodies, horribly cut and slashed with knives, were found in a room on the second floor, while in the cellar were two others with their throats cut.

The two bodies in the basement, according to Coroner Kistler, had been dead nearly two days.

The police say that the men found in the basement may have been murdered for their money and that a fight followed upstairs over a division of the spoils.

The bodies found upstairs were slashed all over, especially about the faces and the throats.

When a detective went to serve the warrant upon Mr. Perkins he found that a writ of habeas corpus had already been obtained from Justice Greenbaum.

Probably no other part of the United States except in East Liverpool, O., is there a baseball diamond from which it is possible to bat a ball into any one of three states.

SIX KILLED.

Horrible Find in a Minneapolis House.

BODIES MUTILATED

No Clue as to the Cause of the Deed—Other Occupants of House Have Disappeared.

Minneapolis, Minn.—Six murdered Bulgarian laborers were found Wednesday in an old house in this city, and the police are uncertain how or when the murders were committed.

The police are convinced that robbery was not the cause of all the murders, as considerable money was found on the bodies.

Four of the bodies, horribly cut and slashed with knives, were found in a room on the second floor, while in the cellar were two others with their throats cut.

The two bodies in the basement, according to Coroner Kistler, had been dead nearly two days.

The police say that the men found in the basement may have been murdered for their money and that a fight followed upstairs over a division of the spoils.

The bodies found upstairs were slashed all over, especially about the faces and the throats.

COAL AFFAIRS

Joint Scal Committee Adjourns Sine Die.

COULD NOT AGREE.

Anthracite Miners' Scale Committee Orders a Suspension of Work, Beginning April 2.

Indianapolis, Ind.—Without agreement on a wage scale, the conferences of bituminous coal operators and miners of the central competitive district adjourned sine die Thursday, leaving affairs in such a condition that a strike of 275,000 miners seems probable at the expiration of the present scale Saturday, March 31.

The disagreement came after a struggle lasting ten days and disrupts the inter-state agreement which has existed since 1898 between operators and miners, through which wage scales and other differences have been adjusted.

The final vote in the central conference competitive field, on which other districts base their settlement, was on a motion offered by President Mitchell of the United Mine Workers, to restore for two years the wage scale of 1903, which would have been an increase in wages of 5.55 per cent.

The operators of Illinois, Indiana and Ohio voted against the proposal and defeated it. The disruption of the conference followed. Operators of western Pennsylvania and the miners of four states voted for the proposal.

F. L. Robbins and other operators, representing about one-third of the coal production of western Pennsylvania, Ohio, Indiana and Illinois, offered to pay the advance and urged the miners to accept this advance and continue work in their mines, even though the other mines in the four states should be idle.

The convention of miners Friday will decide whether to permit this or not, or demand that all miners suspend work until all have been paid the advance.

The anthracite miners' scale committee Thursday night issued orders for a total suspension of mining in the three anthracite districts beginning Monday morning, April 2.

The committee informed President Baer that the miners' scale committee will meet the operators' scale committee in New York City on Tuesday, April 3.

The coal operators of Illinois, Indiana and Ohio and those of western Pennsylvania who have opposed the payment of an increase in wages to the bituminous coal miners, adopted the following resolutions in executive session:

"Resolved, that we, coal operators of the states of Illinois, Indiana, Ohio and western Pennsylvania, representing 80 per cent. of the tonnage in the territory involved, who have felt and still feel unable to pay any advance in wages at this time, do hereby propose that the president of the United States appoint a committee to investigate all matters which, in the judgment of such commission, have an important bearing upon or relation to the scale of wages which should be paid all classes of labor in and about the coal mines of the territory herein involved, and other conditions now imposed and insisted on by the United Mine Workers of America, such commission to report to the president of the United States its findings of facts, together with its recommendations.

"Be it further resolved that such commission have power to administer oaths and compel attendance of witnesses."

The resolutions in full were telegraphed to President Roosevelt.

Successors are Chosen.

Washington, D. C.—At a meeting of the republican members of the Wisconsin delegation in congress Thursday Representative J. H. Davidson, of the Eighth district, was chosen to represent the state on the republican congressional campaign committee as successor of Representative Babcock.

Representative Landis has been selected by the Indiana delegation to succeed Representative Overstreet on the committee.

Congressional.

Washington.—Mr. Knox, of Pennsylvania, addressed the senate on the railroad rate question on the 28th. He expressed the opinion that Mr. Bailey's amendment depriving the United States circuit courts of the power to grant injunctions would not stand the test of the courts.

The remainder of the day was devoted to the bill regulating the affairs of the five civilized tribes of Indians.

The house passed a rule prohibiting limitless points of order in discussion of the legislative, executive and judicial appropriation bill. Some progress was made on the bill.

Dam Washed Away.

Casper, Wyo.—The great dam at Alceva, erected at a cost of \$100,000 by the government reclamation service, was washed away Tuesday by flood water in the North Platte river. The steel bridge built by the government six miles below the dam at Pathfinder was also carried away.

Cabins, barns and property of all descriptions are floating down on the swollen stream.

Death of a Scientist.

Philadelphia, Pa.—J. Vaughn Merriam, an engineering expert and scientist, died Wednesday at his home in this city, aged 78 years.

Struck a Floating Mine.

Tokio, Japan.—A fishing boat struck a floating mine on March 26, off the coast of the province of Echizen, Japan, and was blown up.

CURES CONSTIPATION

Relief that comes from the use of pills or other cathartics is better than suffering from the results of constipation, but relief and cure combined may be had at the same price and more promptly, for

Lane's Family Medicine

is a cure for constipation, and the headache, backache, sideache and general debility that come from constipation stop when the bowels do their proper work.

SICK HEADACHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Heartily Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

CARTER'S LITTLE LIVER PILLS.

SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine Must Bear Fac-Simile Signature. REFUSE SUBSTITUTES.

\$250 Prize Puzzle "DRESS PARADE."

OLD-WORLD ODDITIES.

Mathew Faulds, a weaver of Kilmarnock, Scotland, has been at his loom 80 years, and he is more than 90 years of age.

At the recent funeral of King Norodom of Cambodia the official mourners at the funeral gave voice to their grief through megaphones, with much effect.

William Reitz, of Duesseldorf, Germany, has lost the sight of his eye from injuries caused by a grain of rice which was thrown into it on the day he was married.

An Edgbaston (England) woman, who was summoned for annoying neighbors by blowing a whistle, said she had been hypnotized, and blew it to call attention to the fact.

Says a Tokio newspaper: "On an account of advanced age, Count Takayuki Sasaki (79) and Viscount Tomoyuki Hayashi (84) have obtained the privilege of carrying sticks in the imperial palace."

A Bristol (England) police sergeant the other day proved the serving of a summons on himself for allowing a chimney at Stoke Bishop to be on fire. He was witness and defendant, and was fined 2s 6d.

A London druggist had to pay \$18, including cost of litigation, for selling water that was dirty and full of moldy growths to a man who had asked for distilled water.

The published statements of a number of coffee importers and roasters indicate a "waspy" feeling towards us, for daring to say that coffee is harmful to a percentage of the people.

A frank public discussion of the subject is quite agreeable to us and can certainly do no harm; on the contrary, when all the facts on both sides of any question are spread before the people they can thereupon decide and act intelligently.

Give the people plain facts and they will take care of themselves.

We demand facts in this coffee discussion and propose to see that the facts are brought clearly before the people.

A number of coffee importers and roasters have joined a movement to boom coffee and stop the use of Postum Food Coffee and in their newspaper statements undertake to deceive by false assertions.

Their first is that coffee is not harmful. We assert that one in every three coffee users has some form of incipient or chronic disease; realize for one moment what a terrible menace to a nation of civilized people when one kind of beverage cripples the energies and health of one-third the people who use it.

We make the assertion advisedly and suggest that the reader secure his own proof by personal inquiry among coffee users.

Ask your coffee drinking friends if they keep free from any sort of aches and ails. You will be startled at the percentage and will very naturally seek to place the cause of disorder on something aside from coffee, whether food, inherited tendencies or something else.

Go deeper in your search for facts. If your friend admits occasional neuralgia, rheumatism, heart weakness, stomach or bowel trouble, kidney complaint, weak eyes, or approaching nervous prostration induce him or her to make the experiment of leaving off coffee for 10 days and using Postum Food Coffee, and observe the result. It will startle you and give your friend something to

\$16.00 an Acre

of WESTERN CANADA is the amount many farmers will realize from their wheat crop this year.

WESTERN CANADA FREE

The land that this was grown on cost many of the farmers absolutely nothing, while those who wished to add to the 100 acres the Government grants, can buy land adjoining at from \$6 to \$10 an acre.

Climate splendid, school convenient, railways close at hand, taxes low.

Send for pamphlet "20th Century Canada" and full particulars regarding rate, etc., to SUPERINTENDENT OF IMMIGRATION, Ottawa, Canada, or to the following authorized Canadian Government Agents:

H. M. WILLIAMS, Law Building, Toledo, O. Mention the paper.

THE SIGN OF THE FISH

has stood for the BEST during seventy years of increasing sales.

Remember this when you want waterproof oiled coats, suits, hats, or horse goods for all kinds of wet work.

WE GUARANTEE EVERY GARMENT. 415

INVENTIVE INGENUITY.

A steel of special hardness, patented in Germany by F. Munster, results from subjecting the molten metal to a blast of nitrogen.

The human taffy puller has at last succumbed to inventive genius and his work can now be done by automatic machinery.

In the Wisconsin zinc field there are 13 magnetic separation plants in operation and it is said that this use of electro-magnetism is greatly increasing the yield of zinc in that district.

A new steel for tools is being placed on the market; it can be hardened by simply heating to a high temperature and allowing it to cool in the air.

A novel means of propelling boats has been devised in Europe by A. Farcot of the Buchet factory. It consists of a framework of steel tubing, supporting a Buchet vertical motor of 3 1/2-horse power, with electric ignition, the motor driving two paddle wheels with vertical blades. The paddle wheels and motor are fixed at the stern of the boat. They are mounted on a pivot, making it practicable to steer the boat in any direction and giving facilities for getting at the machinery for oiling and repairs.

"If you were in my shoes what is the first thing you would do?" "Get a shine."—Houston Post.

The Coffee Debate.

think of. Of course, if the person is one of the weak ones and says "I can't quit" you will have discovered one of the slaves of the coffee importer.

Nature has a way of destroying a part of the people to make room for the stronger. It is the old law of "the survival of the fittest" at work, and the victims are many.

We repeat the assertion that coffee does harm many people, not all, but an army large enough to appal the investigator and searcher for facts.

The next prevarication of the coffee importers and roasters is their statement that Postum Food Coffee is made of roasted peas, beans or corn, and mixed with a low grade of coffee and that it contains no nourishment.

We have previously offered to wager \$100,000.00 with them that their statements are absolutely false.

They have not accepted our wager and they will not.

We will gladly make a present of \$25,000.00 to any roaster or importer of old-fashioned coffee who will accept that wager.

Free inspection of our factories and methods is made by thousands of people each month and the coffee importers themselves are cordially invited.

The formula of Postum and the analysis made by one of the foremost chemists of Boston has been printed on every package for many years and is absolutely accurate.

Now as to the food value of Postum. It contains the parts of the wheat berry which carry the elemental salts such as lime, iron, potash, silica, etc., etc., used by the life forces to rebuild the cellular tissue, and this is particularly true of the phosphate of potash, also found in Grape-Nuts, which combines in the human body with albumen and this combination, together with water, rebuilds the worn out gray matter in the delicate nerve centers all over the body, and throughout the brain and solar plexus.

Ordinary coffee stimulates in an unnatural way, but with many people it slowly and surely destroys and does not rebuild this gray substance so vitally important to the well-being of every human being.

These are eternal facts, proven, well authenticated and known to every prop-
