

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, she has been advising sick women free of charge.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician.

PEOPLE IN PASSING.

Miss Caroline Marcial of Seville, Spain, who is one of the best known women in that country, is in America in the interest of the International Institute League.

Mrs. Nansen, the wife of the explorer, is a singer of note. Her father was a zoologist, her mother a sister of the Norwegian poet Welhaven, and her brother, Ernest Save, is a professor of history in the University of Christiania.

William Weldman Landis, A. M., professor of mathematics in Dickinson college, Carlisle, Pa., has been admitted to membership in the mathematical circle of Palermo, Italy, in recognition of his attainments in the science of mathematics.

The smallest and among the most efficient constable in Indiana is James H. Vincent of Boonville, who on a pinch can stretch himself to four feet six inches, his weight being 98 pounds and his age 41 years.

FOOD HELPS

In Management of a R. R. Speaking of food a railroad man says: "My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food."

"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are most accessible to men in my business. Generally each meal or lunch was followed by distressing pains and burning sensations in my stomach, which destroyed my sleep and almost unfitted me for work."

"This lasted till about a year ago, when my attention was called to Grape-Nuts food by a newspaper ad, and I concluded to try it. Since then I have used Grape-Nuts at nearly every meal and sometimes between meals. We railroad men have little chance to prepare our food in our cabs and I find Grape-Nuts mighty handy, for it is ready cooked."

"To make a long story short, Grape-Nuts has made a new man of me. I have no more burning distress in my stomach, nor any other symptom of indigestion. I can digest anything so long as I eat Grape-Nuts, and my brain works as clearly and accurately as an engineer's watch, and my old nervous troubles have disappeared entirely." Name given by Postum Co., Battle Creek, Mich.

THE MINERS.

The Indianapolis Convention Adjourns.

NO ARBITRATION.

Authorized the District Officers to Sign Wage Agreements at the Scale of 1902.

Indianapolis, Ind. — Amelioration of the threatened strike of bituminous coal miners on April 1 was secured Friday by the United Mine Workers, who before adjourning without day, authorized national and district officers to sign wage agreements with any coal operator who would agree to pay the scale of 1902 or its equivalent for a period of two years.

The convention declined an offer made by the operators of Illinois, Indiana and Ohio to submit the wage differences to arbitration. Where a coal operator owns mines in different districts the scale must be signed for all the properties at the same time before any of his mines will be allowed to run.

The action of the convention probably will bring out of the mines on April 1 some 500,000 miners in the anthracite and the bituminous fields. These will remain on strike, it is said, until settlements have been signed by districts or with individual operators. President Mitchell said Friday that he believed one-half of the tonnage of Ohio, Indiana, Illinois and western Pennsylvania would sign soon. The miners expect few operators in the southwest will sign at once.

BUSINESS BULLETIN.

R. G. Dun & Co. Report Trade Conditions Favorable.

New York.—R. G. Dun & Co.'s Weekly Review of Trade says: Trade reports are still somewhat irregular, owing to widely different weather conditions and uncertainty regarding the labor situation. Manufacturing plants are not reducing output, statistics for March promising to establish new maximum records in many industries, but the future contains an element of disturbance in the numerous demands for higher wages.

Our door work is rapidly increasing and preparations are being made for a record breaking year in building and agriculture. Soft roads retard the movement of grain to market and impede the return traffic in merchandise at many interior points, but this is a seasonal condition, just as it is customary for dry goods jobbing sales to diminish at this time.

Less complaint is heard regarding the procrastination of consumers of pig iron, numerous contracts having been placed during the past week, and many others are now under negotiations. Confidence in all departments is sustained by the forward business in rails and structural shapes that precludes and idleness for many months at least.

Failures this week numbered 191 in the United States, against 244 last year, and 17 in Canada, compared with 33 a year ago.

Congressional.

Washington.—On the 30th ult. the house passed the legislative, executive and judicial appropriation bill carrying \$30,900,000, after considering the measure two weeks. The feature of the day's proceedings was the elimination of the age limit of clerks, a provision which created much discussion and which incited the fight against the bill. The bill as passed carries nearly \$700,000 less than the last appropriation bill for similar purposes.

Hurt in a Wreck.

Fort Wayne, Ind.—Twenty-three persons were injured on Friday at South Whitney, Ind., by the overturning of the smoking car of a day coach and five sleeping cars of an eastbound train on the New York, Chicago & St. Louis railroad while running 45 miles an hour. Only the baggage car and the rear trucks of the dining car remained on the track, the other cars rolling into a ditch. It is thought that the rails spread.

Largest on the Lake.

Laporte, Ind.—The Indiana Transportation Co.'s steamer Theodore Roosevelt, built by the Toledo Shipbuilding Co., will be launched Saturday at Toledo. The Roosevelt will be the largest passenger boat on Lake Michigan.

Davis is in the Lead.

Little Rock, Ark.—With almost complete returns from 62 out of 75 counties, Gov. Jeff Davis has a plurality of 2,972 over Senator James H. Berry for the democratic nomination for United States senator.

GET RID OF THE GAS

Dr. Williams' Pink Pills Strengthen the Stomach and Enable it to Do its Work.

When the stomach is feeble the food lies in it undigested, decays and throws off poisonous gases that distend the walls of the stomach and cause interference with other organs, especially with the action of the heart and lungs. These gases have other ill effects. The nerves and the brain are disturbed and discomfited such as dizziness, hot flashes, sleeplessness, irritableness and despondency originate from this source.

Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will rouse it to do the work of changing the food into nourishment. Miss Minerva C. Ladd, of Ipswich, Mass., says: "I had a weak stomach from the time I was a little child. Whenever I took hearty food it would cause terrible faintness, and I would finally vomit what I had eaten. At times there would be the most intense pains through the upper part of my body. For days in succession, I would have to lie down most of the time. The distress was often so great that I could hardly bear it, and the frequent and violent belching spells were very disagreeable, too."

"My doctor's medicines gave me little relief and it was not until I tried Dr. Williams' Pink Pills that I found a cure. Within three weeks a decided improvement was noticeable. The belching spells were less frequent, the pains through my body were not so intense, my food was retained and after taking the pills for a few weeks longer I found that I was altogether free from the miseries I had so long suffered."

Every dyspeptic should read "What to Eat and How to Eat." Write the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

IN ALABAMA

THE LAND OF SUNSHINE AND PLENTY—OWN A FARM AND BE INDEPENDENT.

We have a Tract of the Finest Land in Southern Alabama to be Sold in 40 to 160 Acre Tracts—Cash or Easy Payments—Located in Washington County—Most Healthful Spot in the South.

No cold weather, no coal to buy, less clothing, and, in fact, living is one-half the cost as in the north. A man with very little capital can own a forty-acre tract and become independent in a few short years by raising vegetables and fruits for the northern and eastern markets. We have the best shipping facilities, both by water and rail, making our lands the best garden spot in the country. This section offers more advantages for the wage earner or the man with a small capital than any spot on this green earth. This land will yield larger profits than you can realize out of northern land worth \$150 per acre. The land is a rich sandy loam, with a clay subsoil, and grows peaches, pears, grapes, figs and all kinds of small fruits and vegetables in great abundance. Also corn, oats, sweet and Irish potatoes and cotton. This location is famous for its salubrious climate and curative powers. Plenty of creeks and pure spring drinking water. We are erecting a hotel, church, schoolhouse and store building in our new town, FIGDALE, ALABAMA.

The Company's excursion will leave Chicago on April 3. Very low rates for the round trip, furnishing a delightful excursion to the South. No expense to the purchaser.

LIVE AGENTS WANTED IN EVERY TOWN.
