

**THE LIVER QUARANTINE**

Hurried eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness.

In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

It is said that there has been a case of scarlet fever at Canoe Run very recently. From what we hear, it would appear that the house in which this case is, was quarantined, and the quarantine was very ineffective, the occupants going in and out about as usual. This is a serious matter, and requires investigation by the proper authorities, for fear the infection may be spread.

Painting is practical work. Skill wins. It's the same with paint making.

You know 4 gallons L. & M., mixed with 3 gallons Linseed Oil makes enough paint for moderate sized house—the best paint money can buy—because the L. & M., Zinc hardens the L. & M., White Lead and makes the L. & M. Point wear like iron.

**Stale Brains.**

Of course there is no future for stale brains or for a man who stands still and ceases to grow. He is old who thinks he is old and useless who thinks he is useless. When a man has ceased to grow he begins to die, and many people are half dead at fifty, not because of their age, but because of their mental attitude, because of the way they face life.—Success Magazine.
