Francisco and Baltimore has resulted in the adoption of extreme measures to apprehend these men. While many have arrived in Baltimore and are making that city their headquar-ters, a number have gone to other places and the police have been noti-fied to be on the lookout for them. It was said Wednesday at the de-partment of commerce and labor that the Italian government, through its consul at Baltimore, had furnished the name of one man whom it regard-ed as particularly dangerous, and the immigration officials are bending every effort to capture him. It is be-lieved here that he is the ringleader of the band that has come to this of the band that has come to this country through the port of Baltimore and his apprehension is regarded as

sof especial importance. Some idea of the character of the men with whom the department is dealing may be gathered from a re-cent incident in San Francisco. Within the past month an Italian was re-leased from prison in that city and upon being questioned by the immigration authorities openly declared that if he was allowed to pursue his course he would kill the president of the United .States. The man was taken in charge, conveyed across the country to New York and deported to Italy. He would not disclose, how-ever, that he was a member of the organizations whose presence here has become known.

While there is still hope that a

peaceful solution of the controversy will be found, the meeting Thursday did not bring the contending parties closer together; in fact, they appear to have almost reached the limit of their negotiations. If the operators should decline to entertain either of the propositions submitted by the miners, it is probable a convention of miners will be called at which the delegates will declare that a strike evicts exists
