

RHEUMATISM CURED

The Disease Yielded Readily to Dr. Williams' Pink Pills After Other Treatment Failed.

Dr. Williams' Pink Pills cure rheumatism because they supply the necessary elements to the vitiated blood and enable nature to cast out the impurities and effect a cure. Mrs. A. Baker, of No. 119 Fitch street, Syracuse, N. Y., will furnish living evidence of the truth of this statement. "There has been rheumatism in my family ever since I can remember," she says. "My grandmother was a great sufferer from muscular rheumatism and my mother also had the disease in a mild form. About a year ago I had a hard cold and rheumatism caught me in my left knee. There were sharp pains, confined to the neighborhood of the knee and they seemed to go right into the bone. The pain I suffered was intense and I also had dizzy spells. "The doctors called my trouble uricatic and sciatic rheumatism. When I didn't get better under their treatment my brother-in-law suggested that I try Dr. Williams' Pink Pills. I bought three boxes, and, by the time I had taken them, the pain and dizziness had entirely left me. I wanted to make sure of a cure so I bought three more boxes, but I didn't take quite all of them as I found that I was entirely cured. "Before I took the pills the pain was so severe that I had to cry at times and when I was cured I was so thankful and grateful and I am glad to recommend them to every one who suffers with rheumatism."

Dr. Williams' Pink Pills have cured severe cases of anemia, sciatica, nervousness, partial paralysis, locomotor ataxia and St. Vitus' dance that have not responded to other modes of treatment. All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

OVER THE OCEAN.

A new prize of \$10,000 is offered in France for the invention of a dirigible balloon.

Sir Patrick Keith Murray has presented to the British nation an old cushion on which the crown of Scotland rested, and it has been placed in the jewel room at Edinburgh castle.

The Institute of Archaeology of the University of Liverpool has dispatched an expedition to make explorations and excavations in the vicinity of Esna, in upper Egypt. The funds have been privately subscribed by Liverpool citizens.

The British committee on naval designs has recommended that no more small protected cruisers be built. The war fleet of the future is to consist of battleships and armored cruisers, the torpedo flotillas and submarines forming separate self-contained forces.

BOYS SHOULD NOT—

Laugh at the suggestions made by the man over you.

Attempt to put a wrong construction on a girl's words.

Imagine assurance will supply the place of knowledge.

Sneer at those who are trying to give you good advice.

Refuse to try an experiment because you think it has no merit.

Refuse to explain honestly why you fail to keep your appointment.

Think it makes you appear large to belittle the ability of others.

Speak slightly of the man who wants to curb your enthusiasm.

Write a letter in a way that an expert is required to decipher it.

Spend your cash recklessly with the idea of deceiving those around you.

DECAYED STARCH.

A Food Problem.

An Asheville man tells how right food did that which medicines had failed to accomplish:

"For more than 15 years," he says, "I was afflicted with stomach trouble and intestinal indigestion, gas forming in stomach and bowels and giving me great distress. These conditions were undoubtedly due to the starchy food I ate, white bread, potatoes, etc., and didn't digest. I grew worse with time, till, 2 years ago, I had an attack which the doctor diagnosed as appendicitis. When the surgeon operated on me, however, it was found that my trouble was ulcer of the pancreas, instead of appendicitis.

"Since that time I have had several such attacks, suffering death, almost. The last attack was about 3 months ago, and I endured untold agonies.

"The doctor then said that I would have to eat less starchy stuff, so I began the use of Grape-Nuts food, for I knew it to be pre-digested, and have continued same with most gratifying results. It has built me up wonderfully. I gained 10 pounds in the first 8 weeks that I used Grape-Nuts, my general health is better than ever before, my brain is clearer and my nerves stronger.

"For breakfast and dinner, each, I take 4 teaspoonfuls of Grape-Nuts with cream, a small slice of dry toast, an egg soft boiled and a cup of Postum; and I make the evening meal on Grape-Nuts and cream alone—this gives me a good night's rest and I am well again." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pkgs.

A SELF-SPACING FRAME.

Plan in Use by a Cuban Beekeeper—Not Favored by Editor of Bee Journal.

In the accompanying illustration is shown a new end-bar for the Hoffman frame. I have used them in my apiary for the last three years, writes C. E. Woodward, of Matanzas, Cuba, and they have given the best of satisfaction. I have never yet broken one of them, and they space just as accurately at the bottom as at the top, and no one can fail to nail them correctly. I made my end-bars one-half inch thick; thus the wire never sags and buckles the foundation.

In speaking of the frame the editor

PLAN OF THE SELF-SPACING FRAME. of Gleanings in Bee Culture frankly declares he does not like it, saying: I believe it is always a mistake to have the spacing in the hive-rabbit. The free lateral movement back and forth, of frames, where the spacers are on the frames themselves, is a feature we can not afford to sacrifice. Your frame would be far better, in my opinion, if you would use the spacing-button (same as you have at the bottom) at the top also. Such a frame would not be a bad one to handle. This exact form of a frame was made the subject of a patent a number of years ago, but I believe the patent has run out.

There is another objection to your notched rabbit that occurs to me; and that is, in moving bees your frames would be liable to hop out of the notches, making very unequal spacing at the top. When the spacers are on the end-bars or top-bars the frames always have to be just so far apart.

HAND CORN CRUSHER.

Economical Device Which Will Prove Serviceable in Preparing Corn for Feeding.

Select a plank three feet by six inches. Notch each side two inches deep near one end in which bolt on each side two uprights 2x3x6 inches. Between these is bolted a lever made from a 2x4, 2 1/2 feet long. Raise this lever, place an ear of corn at A, on

THE CORN CRUSHER.

the notched pieces of hard wood, press the lever down and the crushed corn drops into the corn box or store box. Any young farmer who must necessarily earn his dollars before they are spent, will find this a practical crusher. This device, says the Ohio Farmer, is practical for feeders of cattle, poultry, swine or sheep. One hundred and fifty pounds on a lever three feet long, fulcrum six inches from the opposite end, gives 750 pounds pressure, and will crush corn nearly as fast as one man can husk it.

BELIEVER IN DEEP PLOWING

What a Missouri Farmer Thinks Are the Benefits to Be Derived by the Method.

I believe in deep plowing, writes a Missouri farmer, because it will deepen the soil and soil reservoir which holds the moisture. In the country where the soil is shallow I like to plow a little deeper each year, and in so doing I will gradually increase the depth of the soil. The furrow slice should be turned so that the harrow or the implement which follows can do the work after plowing. The surface of the field should be left in a corrugated form so that harrow or sifter can get hold to do the work. The furrow slice must not stand on the end or be turned flat. Another important point is to not plow when too wet, for it will greatly injure the soil and the ground will be harder to work afterwards. Don't get in too much of a hurry for it never pays to plow ground when it is too wet.

Keep a Record.

We find it a help to keep a brief record of our work. It takes but a few moments to jot down some of the things we learn as we go along. Some folks say that they have no time for such things; but there are some matters we must take time to look after, if we would avoid failure and stop the leaks.—Farm Journal.

Don't Feed Too Much.

My experience has been that steers do better on just enough feed and not too much. The value of a good feeder depends upon his ability to detect this balancing point. The amount of by-products used should depend upon the price. Bran at a low price is very helpful and is essential at any time for a high finish.

Alfalfa hay and corn give the greatest gains in feeding for baby beef. Next come alfalfa hay and kafir corn grain.

A LIVING DEATH.

Vividly Described by a Citizen of Sioux Falls, South Dakota.

Andrew Johnson, 411 West Twelfth St., Sioux Falls, S. D., says: "Doan's Kidney Pills saved my life. My doctor, from a careful analysis of the urine and a diagnosis of my case, had told me I could not live six weeks. I was struck down in the street with kidney trouble, and for a whole year could not leave the house. I lost flesh, my eyes failed me, I bloated at times, my back hurt and I suffered a living

death. There seemed no hope until I began using Doan's Kidney Pills. Then I began to improve. The pain left gradually, the swellings subsided, I gained appetite and weight, and, to make a long story short, I got well!" Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

SAVED BABY LYON'S LIFE.

Awful Slight from That Dreadful Complaint, Infantile Eczema—Mother Praises Cuticura Remedies.

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery, in fact, there was nothing we would not have done to have given him relief. We finally procured a full set of the Cuticura Remedies, and in about three or four days he began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered. Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awful sight that I ever beheld, prior to the treatment of the Cuticura Remedies. Mrs. Mabelle Lyon, 1826 Appleton Ave., Parsons, Kan., July 18, 1905."

Foot in It Again.

"So she's engaged, eh? That merely goes to prove the truth of what I have always contended—that, no matter how plain-looking a girl may be, there is a mate for her somewhere in the wide world. Whom is she to marry?" "Me!"—Chicago Journal.

Red Cross Ball Blue should be in every home. Ask your grocer for it. Large 2 oz. package only 5 cents.

INDIAN PROVERBS.

The coward shoots with shut eyes. Small things talk loud to the Indian's eye.

No Indian ever sold his daughter for a name. When a fox walks lame old rabbit jumps. The paleface's arm is longer than his word.

A squaw's tongue runs faster than the wind's legs.

There is nothing so eloquent as a rattlesnake's tail.

The Indian scalps his enemy; the paleface skins his friends.

There will be hungry palefaces so long as there is any Indian land to swallow.

When a man prays one day and steals six, the Great Spirit thunders and the evil one laughs.

There are three things it takes a strong man to hold: A young warrior, a wild horse and a handsome squaw.

HIGH CLASS DRUGGISTS AND - OTHERS.
The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.
Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup" and of some practical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
