SPRING CATARRH.

L. Taggart Sells Hyomei Under Guarantee of Cure.

The changeable weather of Spring is directly responsible for the prevalence of catarrhal troubles in Emporium at the present time.

As a result, L. Taggart has had a larger sale for Hyomei the past week than ever before in the years that he has handled this reliable treatment for the cure of catarrh.

Unlike the ordinary remedies that have been used in catarrhal troubles, there is no stomach dosing with Hyomei. It is breathed through a neat pocket inhaler that comes with every outfit, and its balsamic, antiseptic healing penetrates to the most remote cells of the nose, throat and lungs killing all catarrhal germs, healing the irritated mucous membrane, and effectcomplete and permanent cure.

If there is a single catarrhal germ in the system, Hyomei will search it out and absolutely destroy it, completely eradicating the trouble. The remedy has made so many cures among L. Taggart's customers that he offers to pay for it himself if it does not benefit even the worst case of catarrh.

The complete outfit costs only \$1 consisting of an inhaler, medicine dropper, and bottle of Hyomei, while extra bottles of Hyomei, can be obtained for 50 cents. There will not be even this small expense if Hyomei does not cure, as L. Taggart
