Enthusiasm sets the pace but common sense wins in a walk.

You cannot induce a lower animal to eat heartily when not feeling well. A sick dog starves himself and get well. The stomach once overworked, must have rest the same as your feet or eyes. You don't have to starve to rest your stomach. KODOL FOR DYSPEPSIA takes up the work for your stomach, digests what you eat and gives it a rest. Puts it back in condition again. You can't feel good with a disordered stomach. Try Kodol. Sold by R. C. Dodson.

Fair weather friends are the only ones that come in bunches.

There is no need worrying alone in discomfort because of a disordered digestion. Get a bottle of KODOL FOR DYSPEPSIA, and see what it will do for you. Kodol not only digests what you eat and gives that tired stomach a needed rest, but is a corrective of the greatest efficiency. Kodol relieves indigestion, dyspepsia, palpitation of the heart, flatulence, and sour stomach. Kodol will make your stomach young and healthy again. You will worry just in the proportion that your stomach worries you. Worry means the loss of ability to do your best. Worry is to be avoided at all times. Kodol will take the worry out of your stomach. Sold by R. C. Dodson.

The Story of an Invention.

The power loom was the invention of a farmer's boy, who had never seen or heard of such a thing. He fashioned one with his penknife, and when he got it all done he showed it with great enthusiasm to his father, who at once kicked it all to pieces, saying he would have no boy about him who would spend his time on such foolish things. The boy was sent to a blacksmith to learn a trade, and his master took a lively interest in him. He made a loom of what was left of the one his father had broken up and showed it to his master. The blacksmith saw he had no common boy as an apprentice, and that the invention was a valuable one. He had a loom constructed under the supervision of the boy. It worked to their perfect satisfaction, and the blacksmith furnished the means to manufacture the looms, and the boy received half the profits. In about a year the blacksmith wrote to the boy's father that he should bring with him a wealthy gentleman, who was the inventor of the celebrated power loom. You may be able to judge of the astonishment at the old home when his son was presented to him as the inventor, who told him that the loom was the same as the model that he had kicked to pieces the previous year.

The Pointer.

There is as much fallacy in attempting to prove the origin of pointing as in a like attempt to prove the origin of eating. As a matter of fact, the pointing act commonly exhibited by the pointer and setter is an incident of the capture or attempted capture of food by dogs, and also by wolves and foxes. Coyotes have been seen to draw and point on prairie dogs and grouse in precisely the same manner that the pointer and setter draw on game birds. There were the same rigidity and stealth, the pause to judge of distance and opportunity and the final rigid pause when all the energies are concentrated for the final spring to capture. All the phenomena displayed by the dog family indicate that the drawing and pointing in the pursuit of prey were ever natural traits. It may be reasonably believed that man could not breed the pointing instinct out of the dog if he attempted to do so.—Forest and Stream.

A Gentle Wish.

It was their honeymoon. They had moved into a pretty suburban house and were getting settled cozily at last. "I have something for you," she said when he came home from the office. "A present?" "Yes. You have no night key, so I had one made for you. Here it is." "That was very thoughtful of you. But how did you come to take so much trouble?" "I wanted it as a kind of barometer. You'll let me look at it now and then, won't you?" "Certainly." "I'm not going to say you mustn't go out evenings, and I'm not going to sit up until you come home when you are out late. I only hope," she said coaxingly, "that every time I look at the key will be a little bit rustier, and then I will know that home pleases you more than any other place."

The Fountain Pen.

The fountain pen is not an invention of recent years. In Samuel Taylor's "Universal System of Shorthand Writing," published in 1786, we find proof of the fountain pen's great age. "I have nothing more to add," wrote Samuel Taylor, "for the use or instruction of the practitioner, except a few words concerning the kind of pen proper to be used for writing shorthand. For expeditious writing some use what are called fountain pens, into which your ink is put, which gradually flows when writing, from thence into a smaller pen cut short to fit the smaller end of this instrument, but it is a hard matter to meet with a good one of this kind."

The Fork.

It is about 1,900 years ago since the fork made its appearance in Europe. In 99 A. D. a son of the doge Pietro Orsola had wedded in Venice the Brizantine Princess Argila, who produced at the wedding breakfast a silver fork and gold spoon. Then the high Venetian families followed suit, and these martyrs to fashion pricked their lips with the new instrument. The fork prospered, however, and spread over Italy. In 1370 it had traveled as far as France, and in 1508 a traveler brought it direct to England.

Both Hate Him.

"Funny thing," remarked Wilson musingly. "Tom Wilkins and Edith Brown used to be great friends of mine. I introduced them to each other. They got married, and now neither of them will speak to me. Wonder what the reason can be?"

Cross Purposes.

Mrs. Klubbs (severely)—I've been lying awake these three hours waiting for you to come home. Mr. Klubbs (ruefully)—Gee! And I've been staying away for three hours waiting for you to go to sleep.

A Lady Beautiful.

Tramp—Kin you give a poor feller a cold bite, mum? Housewife—Yes. On your way out you'll find some leetles on the gate.—Woman's Home Companion.

The Clever Ones.

Griggs—Some men are born great, others achieve greatness. Briggs—Yes; and others simply have the trick of making other people think they're great.

I have lived to know that the great secret of human happiness is this: Never suffer your energies to stagnate.—Adam Clark.

CATARRH FROM CHILDHOOD.

Cured by Hyomei, the Only Medicine for Catarrh That L. Taggart is Willing to Guarantee.

The popularity and growth of Hyomei are unique in the annals of medicine. The demand for the Hyomei outfit and the extra bottles in Emporium has been something phenomenal, and L. Taggart says that he has never sold any other remedy which gave such universal satisfaction and made so many remarkable cures.

The fact that Hyomei cures catarrh in the only natural and sensible way, that is through breathing medicated air, not by taking drugs into the stomach, no doubt has helped in the introduction of the treatment. There is certainly no other remedy for catarrhal diseases that is so effectual as Hyomei and its discovery has realized in part Pasteur's prophecy. "We shall one day rid the world of all diseases that are caused by germs."

The worst and most chronic cases of catarrh readily yield to the use of Hyomei. People who have suffered from childhood have been cured by this remedy. J. S. Nugens, treasurer of the American Union Insurance Co., New York City, writes: "Hyomei has completely cured my daughter of catarrh, from which she had been suffering for years."

So many remarkable results have attended the use of Hyomei amongst the customers of L. Taggart, that he feels justified in using the strongest possible language in speaking of its virtues, and when you read that he sells it under an absolute guarantee to refund the money if it does not cure, you will see that he fully believes in its curative powers. A complete outfit costs only one dollar, extra bottles 50 cents.

Thunders of applause give no promise of showers of blessings.

Letter to T. B. Lloyd,
Emporium, Pa.

Dear Sir: Mr. H. H. Stephenson, Cashier of Oil City (Pa.) Savings Bank writes: "Nine years ago I painted my house with your paint. It wore so well, I want to use it again."

That's nothing wonderful except for the fact that the soft coal region of Pennsylvania is pretty hard on paint with its oil, smoke and grime. All we see in it is that Devco is good for nine years sometimes. There are thousands of people that know it, and millions that don't.

There's the rub! We advertise for the millions; we want to make paint for the millions.

Mr. Cashier, do you know that Devco lead-and-zinc is twice as cheap as lead-and-oil or mixed paints? Is 100 per cent a fair profit in your business?

Three-quarters of the people paint lead-and-oil mixed by hand; while the U. S. Government use lead, zinc and oil ground together by machinery—same as Devco lead-and-zinc. The majority never is right about anything.

Yours truly,
F. W. DEVOE & Co.,
New York.
