**Bow Legged Men.**

Do not revile the bow legged man, for he plays an important part in the world. It is estimated that 40 per cent of mankind are bow legged, so numerically this class is entitled to great respect. Bow legs invariably accompany a robust physique. We find them one of the conspicuous features of athletes. Comedians are almost always bow legged. Of the bow legged geniuses to which humanity points with pride the most illustrious examples are Caesar, Horace, Napoleon, Wellington, Schopenhauer and Cavour, the celebrated Italian statesman.—London Answers.

**The Bright Side.**

Words of cheer are words of help; words of gloom are words of harm. There is a bright side and a dark side to every phase of life and to every hour of time. If we speak of the bright side, we bring the brightness into prominence; if we speak of the dark side, we deepen its shadows. It is in our power to help or to hinder by a word any and every person with whom we come in contact.
