

THAW IS HELD SANE

ALIENISTS DECLARE SLAYER'S MIND NOT AFFECTED.

REFUSES TO BE EXAMINED

Speculation Regarding Gotham Tragedy—Letter from White Said to Have Been Cause of Murder.

New York.—That Harry K. Thaw, the slayer of Stanford White, is perfectly sane was the report made by the alienists retained by the district attorney's office to examine into the prisoner's mental condition. This report was made after the physicians had spent an hour with Thaw, who, in defiance of the advice of his counsel, former Judge Olcott, refused to answer any questions and declared that nothing short of actual force would compel him to submit to a physical examination.

It was announced at the office of the district attorney that Dr. Garvin, who is preparing the case against Thaw, had discovered a witness who alleged that he overheard White make derogatory remarks concerning Mrs. Thaw while in the Cafe Martin a few hours before he was shot.

With the police, coroner's and district attorney's office working practically day and night to learn all the circumstances which led up to the murder of Stanford White by Harry Thaw Monday night, and all sources silent as to their discoveries, there was much room for speculation Wednesday on all phases of the case. The motive for the murder, the police believe, was outlined by Thaw's brief statement that his home had been ruined, and with this as a basis of investigation detectives were sent in various directions looking up Thaw's habits in New York and investigating the many stories told concerning Stanford White's conduct.

Perhaps the most interesting development was the announcement that Mrs. Thaw told her husband's lawyers that she had received many letters from Mr. White since her marriage. One of these she threw on her dressing table a few days ago and her husband found it and vowed vengeance on the writer. While the finding of this letter may have been the direct cause of the tragedy, Thaw's jealousy of and hatred for White were of long standing, and the young man made frequent threats to kill his supposed rival.

Mr. White was astonished some months ago to find that detectives were following him wherever he went. At first he had some doubt whether the men were really dogging his footsteps or whether it was a mere accident that the same faces appeared when he left his office, his home or his club at morning, noon and night. When he had become convinced beyond a possible doubt that reports of his movements were being prepared for somebody, he took steps to have some detective work done on his own account, and to have his shadowers followed.

He employed a man to go after him wherever he went, so far as possible, and then he amused himself by giving the slip to the first detective. The person he employed discovered that the other detective reported to Thaw. In this way Mr. White was able to obtain ample warning that the wealthy young man from Pittsburg suspected him and was preparing some unpleasant surprises. Mr. White took occasion to mention this fact to some of his associates and commented that one reason, he assumed, that Thaw was angry with him because he was familiar with a document drawn by the present Mrs. Thaw before her marriage. The nature of this is not known.

There are many stories, too, of Thaw's first meeting with White, which is said to have taken place in Paris last spring, after Thaw and Miss Nesbit were married and in the course of which Thaw threatened White.

Agnes Palmer, a chorus girl, is noted in an interview as saying that White had told her that he knew Thaw was "gunning for him."

Funeral services over the body of Stanford White, the murdered man, will be held Thursday. The body will be taken to St. James, L. I., in a special train. The services will be held in the Episcopal church there, and the body will be buried at St. James.

Michigan Mine Strike Settled.

Bay City, Mich.—The differences which have existed between the coal operators and miners of the Michigan district since March last were formally settled Tuesday afternoon at a joint conference. The scale of 1903, carrying an advance of 5.55 per cent., was adopted. The initiation fee, which the union had placed at \$50, was reduced to \$25, \$10 to be paid down and the balance at the rate of \$2.50 each pay day. The mines will be reopened at once. The new agreement holds until April 1, 1908.

Philippine Rebels Quit.

Manila.—The Pulajane leaders, Quintin and Adva, have surrendered to Gov. Osmena and the island constabulary. These were the last of the men arrayed against the Americans on the island of Cebu.

Carnegie Pension for Teacher.

Beloit, Wis.—Prof. C. W. Pearson, a member of the faculty at Beloit college for the past 19 years, has resigned and will receive a Carnegie pension. Prof. Pearson has been teaching for 40 years.

NEW CHRISTIAN SCIENCE CHURCH RECENTLY DEDICATED IN BOSTON

Beautiful Edifice Has Cost Nearly Two Million Dollars—Higher Than Bunker Hill Monument.

Boston.—Rising above the roof tops of the church spires of the Black Bay district, and reaching a height loftier than Bunker Hill monument, looms the magnificent new cathedral of Christian Science, at once the largest, the costliest church edifice in this part of the country and one of the most remarkable church structures in the world. It was dedicated on Sunday, June 10.

It is two years since the corner stone was laid, and day and night since then more than 300 men have been employed to hurry the structure to completion.

It is 12 years since the first church of this new denomination was built, and 30 years ago in July the first Christian Science was formally organized.

The cathedral adjoins the "mother" church, as the one built 12 years ago is called. This is at the junction of Norway and Farnmouth streets and ex-

which form the four corners of the auditorium.

The dome is more than twice the size of the dome on the state house. Notwithstanding the greater elevation of the site of the capitol building the church dome rises to a greater height. The top of the state house dome is 110 feet from the street and the street is 100 feet from the level. The Christian Science dome is 224 feet above the street, and the street there is only 15 feet above the sea level. The state house dome has a diameter of 53 feet and a height of 35, while the church dome is 82 feet in diameter and 51 feet high.

The area occupied by the church is 42,000 square feet. The first course material in granite from Mrs. Eddy's home, Concord, N. H. Above that the material is Bedford stone. The semi-domes, the domes and the cupola are of gray semi-glazed terra cotta. The auditorium is up one flight. The first

tends back to St. Paul's. The builders planned for an auditorium which would be the largest in New England in its seating capacity. Space was provided for more than a mile of magnificent mahogany pews, which give a seating capacity of 5,000, which is more than five times the capacity of the old South church, more than three times that of Trinity and twice that of Tremont temple or the cathedral of the Holy Cross.

The auditorium contains seven galleries, two on each side and three at the back, all so arranged that not a pillar or post interrupts the view of the platform from any seat. The roof of the auditorium rises to a height of 108 feet from the floor, the entire weight being borne by four arches resting on four massive stone piers.

BLIND GIRL IS A LAWYER.

Leads Graduating Class in California School—Will Take Up Music as Livelihood.

New York.—Miss Christine La Barraque, now 28 years old, who has been blind since she was a baby, is a lawyer. She was graduated at the head of a law class in a California law school, and has been admitted to the bar in that state.

Miss La Barraque is a remarkable young woman. She is a graduate of the University of California, a finished linguist, an accomplished equestrienne and a musician. She is now in this city completing her musical education.

Getting her degree, she announced that her ambition was to become a lawyer. The professors told her it was absurd, but she insisted and became a night school teacher to earn enough money to carry her through the law school. There were 75 men in the class, and at the end only 39 remained.

MISS CHRISTINE LA BARRAQUE. (Blind Girl Who Has Been Admitted to the Bar in California.)

In the final examination Miss La Barraque led them all. "Of course, I realize that a blind woman could hardly practice law successfully, so I decided to take up music as my livelihood," she declared, "and I know I shall succeed."

floor contains two stone and marble columns. In the center is the Sunday school room, with a seating capacity of 700. As far as possible the building is fireproof. The interior finish is of marble and Bedford stone. The seven staircases are of bronze, marble, Bedford stone and steel.

The church cost nearly \$2,000,000. It was erected by popular subscription. A remarkable feature is that the building is entirely free from debt. Twice in the history of the Christian Science church in Boston it has been found necessary to invite the members to discontinue contributions to its building fund—once in 1895, when the original church was dedicated, and again now when it was found that more than enough money had been received to pay for the extension of the church.

MEMORIAL TO SOLDIERS.

Monument Being Erected by State of Wisconsin at Andersonville, Ga.—To Cost \$10,000.

Milwaukee.—The design of the soldiers' monument, now in progress of erection in Prison park, Andersonville, Ga., has been made public. Charles

MONUMENT BEING ERRECTED AT ANDERSONVILLE, GA.

A. Fink, a Milwaukee architect, was the successful designer of the monument, which will be erected at a cost of \$10,000, which has been appropriated by the state legislature of Wisconsin.

Georgia granite, which has been pronounced equal to Wisconsin granite by the state geologist, will be used in the construction of the monument. The inscription tablet, however, will be of Wisconsin granite. The monument is to be completed by fall.

Emperor's Latest Fad.

The kaiser's latest fad is photography in three colors. He has a studio erected at his palace of Mombjon, and either works there himself or poses to others. In the latter case he changes his costume up to 60 times—green coat, red coat, of the Order of the Garter, field marshal's uniform, with the baton in his hand, etc. These imperial photos are not private, and they will soon be exposed in the shop windows of Berlin.

Pineapple Seeds Scarce.

Only about one pineapple in every 20,000 has seeds in it, and it is from these seeds that new varieties are produced.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

TEETH THAT WERE USELESS

Puzzle to the Man Who Had Suddenly Sustained the Loss of Them.

Harry Leon Wilson, author of "The Spenders," was domiciled for a summer in Connecticut with a colony of artists and writers, all of whom had to go into the city every day, relates the Saturday Evening Post.

Wilson was doing nothing but loafing. He loafed artistically, and from time to time met and had fun with some of the natives of the place. One day he found two men in the road who seemed congenial, and he struck up an acquaintance with them. He proposed a drive and they got a surrey and two horses.

"Can you drive?" asked Wilson.

"Sure," one of his sudden friends replied, "I am a fine driver."

They got aboard and started down the road. Before they had gone half a mile the team was frightened by a passing automobile and ran away. The driver valiantly steered the horses into a telegraph pole and Wilson and his two friends were thrown helter-skelter into the road.

Wilson slowly gathered himself together. One of his friends was sitting in the ditch rubbing his bruises and the other stood in the middle of the road gazing in tearful misery at two front teeth which he held in the palm of his hand.

"Pretty lucky escape, wasn't it?" asked Wilson, for want of something better to say.

"Yes," replied the man with the teeth, weeping afresh, "but please, oh, please, tell me, what shall I do with these?"

There is always room at the top, of course, but sometimes it's a whole lot more sociable at the bottom.—Puck.

THE DOCTOR'S WIFE

Agrees with Him About Food.

A trained nurse says: "In the practice of my profession I have found so many points in favor of Grape-Nuts food that I unhesitatingly recommend it to all my patients."

"It is delicate and pleasing to the palate (an essential in food for the sick) and can be adapted to all ages, being softened with milk or cream for babies or the aged when deficiency of teeth renders mastication impossible. For fever patients or those on liquid diet I find Grape-Nuts and albumen water very nourishing and refreshing. This recipe is my own idea and is made as follows: Soak a teaspoonful of Grape-Nuts in a glass of water for an hour, strain and serve with the beaten white of an egg and a spoonful of fruit juice or flavoring. This affords a great deal of nourishment that even the weakest stomach can assimilate without any distress."

"My husband is a physician and he uses Grape-Nuts himself and orders it many times for his patients."

"Personally I regard a dish of Grape-Nuts with fresh or stewed fruit as the ideal breakfast for anyone—well or sick." Name given by Postum Co., Battle Creek, Mich.

In any case of stomach trouble, nervous prostration or brain fag, a 10 days' trial of Grape-Nuts will work wonders toward nourishing and rebuilding, and in this way ending the trouble. "There's a reason" and trial prove.

INVESTMENT IN MOTH BALLS

Manner of Using the Preventive That Proved to Be a Signal Failure.

A State street druggist, telling of the quaint characters whom he encounters in his business, recently said: "Late one afternoon one of the 'old sod' ambled up to the counter. 'Hov yez' anything good to kill moths?' he asked, relating the Chicago Record-Herald.

"'Yes,' said I, 'we have moth balls, the best reemdy known.'"

"'Give me tin cints' worth, thin,' says he."

"I made up the package, handed it to him, and he ambled out again. I had forgotten all about my customer until about four o'clock the next afternoon, when I was forcibly reminded of the transaction of the day before. After I had walked on my customers in their turn I was confronted with my moth-ball investor. Without giving me time to make an inquiry, he said:

"'Are yez the young man that sold me thim things yistiddy?' showing me the remains of about half a dozen of the white balls."

"I answered in the affirmative, and also inquired what the trouble was."

"'Av all the con games I've run up against in me toime, this bates thim all,' he said. 'To think of onyone running a decent down-town store selling the loikes of thim things to kill moths with, or anything else, for the matter of that. They might be all right for playing marbles, but for killin' moths, niver. I may not be as young as yez are, young man, but I'm just as stiddy, and I want to tell you wan thing. If yez can show me the man or woman that can throw wan of thim balls quick enough to kill a moth I'll not only ate ivry wan of thim yez have in stock, but I'll say nothing about the picture the old woman and meself broke in the foine little game yez would have us play.'"

A man finds it easier to boast of the glories of the past if there are not a few old-timers around who remember it even better than he does himself.

A man who speaks from experience says that it costs almost as much to keep a wife in clothes as it does to keep an automobile in repair.

SICK HEADACHE

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.
