Cant. C. F. Barelay for Congress.

Honors are coming thick and fast to Cameron county, the Republican party of this congressional and judicial district, having conceeded the nomination in both districts to Little Cameron. At Du Bois, last Thursday, our worthy citizen, Chas. F. Barclay was accorded the nomination on 10th ballot. While our citizens are deeply indebted to the honorable gentiemen who recognized the eminent fitness of our candidate, all feel that the compliment thus bestowed upon Cameron county should be accepted by our people, of all parties, in its true light. Cameron county has never before been accorded a district nomination at the hands of the majority party, therefore let Mr. Barclay receive the solid vote of our citizens, regardless of party. Our candidate is very popular throughout this district and was selected on account of his nomination being satisfactory to the entire party, regardless of faction. Our candidate is free from all entanglements, is no man's man, but the representative of the people. Mr. Barclay's election will follow by an immense majority. Little Cameron will be practically unanimous for Capt. C. F. Barclay for Congress, as well as Judge Green for president judge,

"Not a Presidential Year." As I walk along a dark, lonely road my ears are on the alert. I glance to "This is not a Presidential year," remarks Mr. Emery. "It will be right and left. I look over my shoulder. Where did I learn this habit? May it not be the memory disk giving time enough to discuss national issues two years hence." off learned by long years of experience to

It is true that the vote will not be taken for two years, but with that single exception this is very much of a Presidential year.

In the first place, no State can get away from National issues when the President himself sets the pace and members of his Cabinet go upon the platform and deliver ad-dresses. The majority in the House of Representatives is at stake. We are to determine in November next whether the policies of Theodore Roosevelt are to be supported or are to be frustrated by turning Congress over to the Democrats.

Pennsylvania must take a most important hand. Republican disaffection here, resulting in the loss of several districts, as would inevitably be the case, might alone block the good work of the President.

Again, how can Mr. Emery ig-nore the fact that this is the year when the Democratic Party is actually picking out its candidate for President?

Not a Presidential year, indeed! What! with Pennsylvania Demoerats hailing Bryan as the leader, with State after State declaring for Bryan through Democratic conventions, we should not discuss national questions now? Absurd!

Mr. Emery nor no other man can separate State and National issues. neither in Pennsplvania nor in any other Commonwealth, this year. The issues are inextricably interwoven.

Unfortunately for Mr. Emery, he is on the wrong side of the fence. HE IS THE CANDIDATE OF THE DEMOCRATIC PARTYof the opponents of President Roosevelt-NOT OF THE PRESI-DENT'S FRIENDS. He may express regard for the President. Yes, but he looks to

the support of the Bryanites and cannot succeed without them, and the Bryanites are using his name to defeat the Roosevelt policies.

What are these State issues that he wishes to discuss? Corruption in politics? But the Republican Party has already made corruption almost impossible by the passage of the most drastic legislation that any State possesses, and Edwin S. Stuart stands squarely upon these splendid reforms. Mr. Emery represents nothing whatever in the way of honest politics that Mr. Stuart does not represent.

Corporation greed? The control of corporations by the people? Does he wish to discuss that subject? Very well, but what does he propose to do that Mr. Stuart is not pledged to? His own conventions -the Lincoln Party's, which he owned, and the Democratic Party's, which he controlled-have made a few promises, but, as Secretary Taft advises all voters to do, "compare Democratic promises with Republican performances." In the light of the Republican performances in the special session of the Legislature, the pledges of the Republican conven-tion to extend the policies of President Roosevelt into Pennsylvania. to force corporations to do the people exact justice, cannot be lightly

cast aside by Mr. Emery. Besides, this whole corporation subject is one that concerns the National administration as well as the policy of a State. Pennsylva-nia, through her Republican convention, is placed squarely upon party lines having been obliterated. the platform with President Roose what he urges for the Nation.

A French Verdict.

All juries have a way of tempering justice with mercy and strict logic with good or bad sease. French juries excel in these practices. A Mme. Canaby of Bordeaux was accused of hav forged two prescriptions and of having thereby obtained large quanti ties of poison, some of which she ministered to her husband, why nearly died and was only save by his doctor who suspected something wrong and took him away. The evidence was overwhelming, for the prisoner completely failed to give any plausible ex-planation as to why she wanted the poison-enough, as the chemist said, to kill two regiments. Nevertheless the jury found Mme. Canaby guilty of forging the prescriptions, but not guilty attempting to poison her husband Perhaps the jury thought the husband unpoisoned was punishment enough in himself for one crime.

Inchriety and the Eating of Fruit. There is but one sure cure for the drinking disease or habit, and that is the simplest of all. The cure consists in eating fruits. That will cure the worst case of inebriety that ever afflicted a person. It will entirely de stroy the taste for intoxicants and will make the drunkard return to the thoughts and tastes of his childhood. No person ever saw a man or woman who liked fruit and who had an appetite for drink. No person ever saw a man or woman with an appetite for drink who liked fruit. The two tastes are at deadly enmity with each other, and there is no room for both of them in the same human constitution. One will surely destroy the other.-What to
