"Make Hay While the Sun Shines." There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day when he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for three diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by L. Taggart; J. E. Smith, Sterling Run; Crum Bros., Sinnamahoning.

You can get all kinds of good cedar shingles at C. B. Howard & Co.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol for Dyspepsia. It digests what you eat. Sold by R. C. Dodson.

The people of our community are highly pleased over the unanimous nomination of Judge Green. They consider it a signal honor that so distinguished a gentleman should be nominated from our midst and they eagerly await the opportunity of showing their appreciation at the polls in November. This may be a Democratic year in some localities, but it surely will not be around here. With such excellent men as the Republican nominees in the field, there can be no doubt as to the result of the next election.

Of Interest to Tax-Payers.

Editor Press:—

A person passing along the public roads of Gibson township about this time last year, might have noticed that planks had been distributed in the neighborhood of sewers and ditches.

He would perhaps have thought they were intended by the supervisor to be used in covering the sluices and so putting the roads in better condition. Very few of them were used for that purpose but the planks gradually and mysteriously disappeared.

This year there are more planks dumped here and there along the same stretches of road. On inquiring what became of last year's planks we were told that one man fixed his stable floor, another put stalls in his stable, another made a new slicker to smooth his harrowed ground, while still others had carefully stored away their share of town planks to season against the time they should need to use them.

Well, fellow citizens, if these are the uses for which our township furnishes lumber, you will not think it unreasonable if we make this modest request. Won't you who helped yourselves to the planks last year, kindly step to the rear and be seated while the rest of us have a chance at the new ones? If it is a good thing pass it around. Don't be selfish. We need new stable floors, slickers and stoneboats as much as those who built them of town planks last year. Of course, if the lumber is used in repairing the road, we withdraw any personal claim but if not please let us have our share.

DIAGENES.

Our Crop Reporter.

E. L. Mason just returned from Wellsville, N. Y., and reports to the Press as follows: "I have just returned from a trip to Wellsville, N. Y., and the surrounding vicinity. From Emporium to Olean the crops look good but from Olean east they are still better. I have never seen better crops than this year averages, more especially, corn, potatoes, and buckwheat, these are fine. Potatoes promise an exceptional crop unless the blight strikes them, but I only saw one small piece that showed any signs of blight, all the rest were growing fine."

At Wellsville there is no market for early apples, the supply being more than double the demand. Hay is a good crop, but must be light somewhere else, as the market is crowding close to \$8.00 or \$9.00 per ton delivered.

While returning on the P. R. R., I passed through the village of Scio, N. Y., where the burglars blew up the bank building Sunday night. The building caught fire from the explosion and burned the residence next to it and the large store building on the opposite corner from the bank building. Up to Monday night they could not tell whether any money was missing or not, or whether any of the burglars were in the wreck, on Monday the ruins were so hot to investigate even what remained of the vault. The sides of the vault stood intact, but the top looked too badly damaged."

We are unable to learn the particulars. McGee was a member of Emporium Maceabees and carried \$2,000 insurance in favor of his brother Jas., who resides in Prince Edward Island.

Truthful Words.

It is an outrageous thing to despoil a woman's character, yet that evil grows from century to century, and it is all done by whispering says a writer in an exchange. A suspicion is started. The next whisperer who gets hold of it states the suspicion as a proven fact, and many a good woman, as honorable as your wife or mother has been whispered out of all kindly association, and whispered into the grave. Some people say there is no hell, but if there is no hell for such a despoiler of womanly character, it is high time that some philanthropist built one! But there is such a place established, and what a time they will have when all the whisperers get down there together rehearsing things. Everlasting carnival of mud.

As Viewed in Clinton.

Lock Haven Daily Express.

S. D. Furst, Esq., of Lock Haven, in a few well timed remarks, placed the name of Hon. B. W. Green before the conference. In doing so, Mr. Furst said that they were assembled to nominate a representative who shall stand as a candidate of the Republican party of the 25th judicial district. The Republican party of this district has not been represented by a Republican president judge on the bench, but the indications now are that we shall elect a Republican to occupy this position. It is most important of all that he shall be an honest man, one who will administer the duties of the office in an unbiased and non-partisan spirit—a man who will enforce justice. If we put on the bench a man who is upright and honest, one who will administer the office in an non-partisan spirit, it will reduce litigation. Law administered judicially will have a tendency to increase real estate values and inspire confidence in the judiciary. I present said Mr. Furst, to this conference a gentleman possessing the requirements I have indicated. A judge occupies a position of high honor and he should be a man of high ideals, for his influence and example is of wide extent. Mr. Furst, in closing his remarks, said that he had the honor of presenting the name of Hon. B. W. Green, of Cameron county as a candidate for president judge of the 25th district.

Mr. Younger made a dignified and capable presiding officer and struck a key note when he suggested that all should go home to take off their coats in the interest of Judge Green's election.

Hon. Josiah Howard, the Cameron county representative in the Legislature, did his full share in helping to entertain the visitors. In the morning a delightful carriage ride was provided by Mr. Howard and this served to whet the appetites of the participants. The party returned to the Warner house in time to partake of an excellent dinner.

Cameron county is enthusiastic for Judge Green and will roll up a big vote for him at the polls in November. Elk county also expects to do her part for him and with Clinton county in line the Republicans of the 25th district have bright prospects of electing their nominee for president judge.
