FIRST FORK.

Mrs. Bert Hicks has been on the sick list for the past week.

Mr. H. A. Smith, proprietor of the Brooks Run Hotel, and son Earnie made a business trip to Sinnamonahoning, Friday.

Mr. Jack Miller and Prof. Ezra Smith helped Frank Miller with his threshing last week, we think the boys are familiar with the job, Mr. Smith in particular.

The committee on "bear stories" are as follows: Clark Miller, Arthur Miller, John Wykoff and Alven Smith, but as the berry season is nearly over we can hardly expect to hear any more good stories.

We have one man in our town who is a "business" he hardly ever has time for any business which is of little or no account. We wonder if the school directors know who he is.

Just ask Will Logue, Geo. Goss, or Wm. Swank what was so intensely interesting at the last school meeting.

All the voters of Grove township have their pockets filled with matches, to be ready for the candidates, one man, Jimmie Haynes, didn't have enough so he borrowed a few from F. L. Miller.

Joe Bowers is still anxiously looking for a "school marm".

It is hoped that the good candidates do not fail to help us get the R. F. D., or we will likely fail to vote "that way", next election.

UNCLE JOSH.

Why does the sun burn? Why does a mosquito sting? Why do we feel unhappy in the Good Old Summer Time? Answer: We don't. We use DeWitt's Witch Hazel Salve, and these little pills don't bother us. Learn to look for the name on the box to get the genuine.

Sold by R. C. Dodson.

Unnecessary Expense.

Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by L. Taggart; J. E. Smith, Sterling Run; Crum Bros., Sinnamonahoning.

Williams' Kidney Pills.

Have you neglected your kidneys? Have you overworked your nervous system and caused trouble with your Kidneys and Bladder? Have you pains in the loins, side, back, groins and bladder? Have you a flabby appearance of the face, especially under the eyes? Too frequent desire to pass urine? If so William's Kidney Pills will cure you. Sample free. By mail 50 cents. Sold by R. C. Dodson. Williams Mfg. Co., Prop's, Cleveland, O. 9-ly.

"Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day when he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for three diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by L. Taggart; J. E. Smith, Sterling Run; Crum Bros., Sinnamonahoning.

You can get all kinds of good cedar shingles at C. B. Howard & Co.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol for Dyspepsia. It digests what you eat. Sold by R. C. Dodson.

There is nothing so pleasant as that bright cheerful, at-peace-with-the-world feeling when you sit down to your breakfast. There is nothing so conclusive to good work and good results. The healthy man with a healthy mind and body is a better fellow, a better workman, a better citizen than the man or woman who is handicapped by some disability, however slight. A slight disorder of the stomach will derange your body, your thoughts and your disposition. Get away from the morbidness and the blues. Keep your stomach in tone and both your brain and body will respond. Little indiscretions of overeating can be easily corrected and you will be surprised to see how much better man you are. Try a little Kodol for Dyspepsia after your meals. Sold by R. C. Dodson.

The intense itching characteristic of salt rheum and eczema is instantly allayed by applying Chamberlain's Salve. As a cure for skin disease this salve is unequalled. For sale by L. Taggart; J. E. Smith, Sterling Run; Crum Bros., Sinnamonahoning.

The Art of Idling.

Cultivate the art of idling. There is no doubt that to be able to idle at will is a most valuable gift and one which is becoming rarer every day. The art of loafing is not properly understood by the majority of people. Much has been written on the subject. Stevenson dealt with it in an essay; Mr. Kenneth Grahame touched on it in "Pagan Papers," and Mr. Barry Pain has some illuminating remarks on the subject in his Canadian canoe book. There is a subtle difference between the views of these experts. Mr. Grahame advocated absolute idleness. Mr. Pain pointed out, with more truth, that the great art of loafing was to do the easiest thing and that sometimes it is easier to work than to be idle. This is the secret of the whole matter. The superficial idler thinks it his duty to be idle on every occasion. The man who has studied the subject knows that this is an entirely erroneous view. There are times when we feel that we must be up and doing. If we sternly repress this inclination our peace is disturbed. The really scientific idler is the man who can idle at will.—London Chronicle.

History of the Typewriter.

"The history of the typewriter is interesting," said an inventor. "The first patented machine was Henry Mill's. It was as big as a bureau and made no popular appeal. This was in England in 1714. The first type bar machine was made in America. Its inventor was A. H. Beach. The patent was taken out in 1856. The Beach typewriter was not practical. The first practical typewriter was invented by Latham Sholes in 1867. Sholes had for partners S. W. Soule and Carlos Glidden, but these two men became discouraged and dropped out. It wasn't till some years later that Sholes got his machine ready for the market. Then he took it to a big firm of gunmakers, the Remingtons, and it at once began to sell on a large scale. Sholes remained in the employ of the Remingtons up to the time of his death."

Resin.

The resin of the shoemaker and fiddler is obtained from different species of the fir tree—as the Scots fir, the larch and the balsam fir of Canada. It is well known that a resinous juice exudes from these trees, which hardens into solid tears. The clear juice itself, before it has dried up by coming to the surface, is known in commerce as turpentine and is in the main composed of oil of turpentine and resin. When the juice is distilled, the oil comes over, and the resin remains behind. When the distillation is carried on to dryness, common resin is formed, but when water is mixed with it while yet fluid the resulting mass is the variety called yellow resin, which is more preferred for most purposes because it is more ductile than the former, owing probably to its containing some oil.

Graves and Gravediggers.

"Gravedigging is not a gay business," said a gravedigger, "but it is a very old one, and many curious superstitions surround it. One of these is never to buy a new spade. To dig a grave with a spade that is new is supposed to bring death in the family within a twelvemonth. Hence gravediggers buy their spades second hand as a rule. Another superstition with some is that a grave should never stand open overnight. It should not, they say, be dug till the day of the funeral. If it is made the day before, beware. There is a third superstition that if a cock crows once while a grave is being dug one friend of the digger will die; if it crows twice, two will die; if thrice, three."

The Orange Tree.

The orange is the longest lived fruit tree. It begins to bear the third year after budding, and for 100 years it will yield abundant crops. Orange trees have been known to attain the ripe age of 300. The orange requires less care and attention than any other fruit tree. Its early growth is rapid. In the first two years it grows more than it will in the next fifty. This refers of course to its height and breadth alone—its fruit stems and consequently its crops increase more rapidly after the first ten years.

The Society Butterfly.

That indignant creature the "society butterfly" is as hard working in its way as Solomon's ant and goes about its duties with a steady application and a determined disregard of fatigue and boredom which not a few industrial and other workers might imitate with advantage. Take, for instance, the charity bazaars and festivals.—London World.

Too Strong Competition.

Country Mouse—How are you getting on with your business, doctor? Country Doctor—Bad. Too close to London. Why, Lady Cashbags went to town and paid two guineas to have a corn extracted. I'd have amputated her foot for that.—London Answers.

In His Enthusiasm.

Judge (to prisoner)—Why did you take only the money and leave the basket of silver? Prisoner—Because it was too heavy. Judge (excitedly)—Aren't you ashamed of yourself, you lazy man?—Fliegende Blatter.

An Appraisement.

Marfan—Now, there is Algy Van Pifflegilder, for instance—Jane—Oh, he is so haughtily statuesque that I have often wondered if he can really be ticklish on the bottoms of his feet like common people.—Watson's Magazine.

To be respectable implies a multitude of little observances from the strict keeping of Sunday down to the careful tying of a cravat.—Victor Hugo.

England's Youngest Bride.

The youngest bride who was ever led to the altar in England, so far as we can discover, was little Catherine Apsley, who had only seen four summers when she became the wife of the first Earl Bathurst, who was exactly double her age. The tiny ring worn by Catherine on this occasion, over two centuries ago, is still preserved. Lord Bathurst survived to see the eighty-third anniversary of his wedding day, while his lady was a wife for seventy-six years.—London Chronicle.

Objection Removed.

"You objected to Jack because he had to work for a living, didn't you, mamma?" "Yes, my dear. He doesn't belong to our class."

"Well, it's all right now. May he call tonight?" "Has some one left him a fortune?" "No, but he's lost his job."—Cleveland Leader.

Wanted Some of the Same.

A little boy was taken by his father into a cafe for dinner. As they were eating their dessert the father handed the waiter a bill, which that worthy carried to the cashier's desk, returning presently with a little pile of change on a silver plate. Robby's eyes grew bright. "Oh, papa," he said, "I'd like a plate of that too!"—New York Herald.

Gounod's Progress.

"As you advance further in your art," said Gounod to a young poet, "you will come to think of the great poets of the past as I now appreciate the great musicians of former times. When I was your age I used to say 'I'; at twenty-five I said 'I and Mozart'; at forty, 'Mozart and I'; now I say 'Mozart.'"

Familiar With His Habits.

First Discernsate Widow—Are you going to the medicine's tonight to see if you can get a message from your husband? Second Discernsate Widow—No, it isn't any use tonight. Saturday night was always the night when he went off to spend his salary.—Somerville Journal.

Had Noticed It.

Church—Did you know that pigs were afraid of water? Gotham—Well, I noticed today on a car, when it began to rain, all the end seat hogs got up in the middle of the car.—Yonkers Statesman.
