President Judge.

VOL. 41.

The Renovo Daily News, while discassing the judicial candidates in this district makes the following pleasant reference to Judge Green's candidacy:

"One of the most pleasant and unostentations visitors called at our office Saturday afternoon, shook hands with the "force," had a brief and quiet chat with the editor and departed as quietly and as simply as he arrived. The visitor was the Honorable B. W. Green, president judge of this judicial district which comprises the counties of Clinton, Cameron and Elk.

As is well known Judge Green was appointed by Governor Pennypacker to succeed the late lamented Judge Mayer and during his brief term on the bench he has proven himself to be a judge of merit and has won the very highest esteem of the people generally and the encomiums of the members of the bar of the three counties particularly. His work thus far has been beyond criticism and it is hardly any wonder that Judge Green makes and easily retrains friends wereever he goes. In Emporium, his home town, Judge Green is held in the highest esteem by every one."

Republican Campaign Text-Book. A departure has been made in the Republican Campaign Text-Book just issued, in that its contents are wholly devoted to live issues, and these are treated in the briefest possible way, yet comprehensively enough to include all necessary facts and figures.

First, there is a general statement of the issues of 1906, followed by a brief review of Republican legislation in general and the work of the Fifty-ninth Congress in particular. The Railrood Rate Law, Pure Food Law, Free Alcohol Law, Employers' Liability Law and the Meat Inspection portion of the Agricultural Appropriation Law are given in full, as is Chairman Tawney's clear explanation of the appropriations.

The Labor question is next fully pre sented, followed by Representative Watson's exposition of Anti-Trust proceedings. About one hundred pages are given to the Tariff, Agriculture and Manufactures, and the tables showing the various phases of indus-trial activity. Among other subjects treated under the tariff are:

Protection and Free Trade; **Customs** Revenue: Foreign Commerce Home Market and Internal Trade; Wages and Prices; Export Discounts: Reciprocity; Free Hides;

Revision, etc., etc., etc.,

Some half hundred tables give official and authoritive figures down to the latest possible date. The work of the President and administration is then briefly presented, the condition and status of the Philippines, the Panama Canal, the Navy, Postal Service, Irrigation, etc., etc.

The President's letter to Representative Watson concludes the work, which has a coupious index of over a dozen pages

Scattered throughout the book are quotations from President Roosevelt and other Republican leaders. Among
