

**HAY FEVER**

"Having used Peruna for catarrh and hay fever, I can recommend it to all who are suffering with the above diseases. I am happy to be able to say it has helped me wonderfully."  
—Mayme E. Smith.

MISS MAYME SMITH,  
444 E. Mound Street, Columbus, Ohio.

HAY FEVER is endemic catarrh. It is caused by some irritating substance in the atmosphere during the late summer months. It is generally thought that the pollen of certain weeds and flowers is the cause of it.  
Change of locality seems to be the only rational cure. The use of Peruna, however, stimulates the nervous system to resist the effect of the poisonous emanations and sometimes carries the victim through the hay fever season without an attack of the disease.  
A large number of people rely upon Peruna for this purpose. Those who do not find it convenient to change their location to avoid Hay Fever, would do well to give Peruna a trial. It has proven of priceless value to many people.

Patience true is typifying, but it is also empowering. It does a work in us—a perfect worth.—Dr. McElveen.

Don't Get Footsore! Get Foot-Ease. A wonderful powder that cures tired, hot, aching feet and makes new or tight shoes easy. Ask today for Allen's Foot-Ease. Accept no substitute. Trial package FREE. Address A. S. Olmsted, Le Roy, N. Y.

Tact.  
He had crossed her and she was in a dangerous mood.  
"See!" she hissed, pointing her finger at him, "see how you have worked up my feelings. Why, I am purple with rage."  
But the young man only smiled.  
"So becoming," he mused, softly.  
"What is becoming, dear?"  
"Why, the purple. It just matches that purple waist you have on."  
And the next moment she was all smiles and telling her girl friends that George was the cleverest chap in the world.

**STOMACH PAINS**

Dr. Williams' Pink Pills Brought Relief, and Cure for Spitting Headaches as Well.

Dr. Williams' Pink Pills, a remedy which has been before the American people for a generation, is still accomplishing wonderful results as is evidenced by the following interview with Mrs. Rachael Gardner, of Wilsey, Kans.  
"It was very strange," she says, "I never could tell what caused it and neither could anybody else. For a long time I had bad spells with my stomach. The pain would commence about my heart and was so deadly agonizing that I would have to scream aloud. Sometimes it would last several hours and I would have to take laudanum to stop it. Besides this I had a headache almost constantly, day and night, that nearly crazed me, so you see I suffered a great deal. And when I think of the agony I endured it still makes me shudder."  
"Doctors," did you say? Their medicine made me sicker. I couldn't take it and I kept growing worse until a friend advised me to take Dr. Williams' Pink Pills, and I did. I began to feel better and was soon wholly converted to this wonderful medicine. It did me more good than I had ever hoped for. I kept on with the pills and now I recommend them to all who suffer."

Dr. Williams' Pink Pills have cured severe cases of indigestion, bloodlessness, influenza, headaches, backaches, lumbago, sciatica, neuralgia, nervousness and spinal weakness. The genuine Dr. Williams' Pink Pills are guaranteed to be free from opiates or any harmful drugs and cannot injure the most delicate system. At all druggists, or from the Dr. Williams' Medicine Co., Schenectady, N.Y., postpaid on receipt of price, 50 cents per box, six boxes for \$2.50.

**MAKES BEAUTY**

Among the ladies no other medicine has ever had so strong a following, because, excepting pure air and exercise, it is the source of more beautiful complexions than any other agency, as

**Lane's Family Medicine**

the tonic-laxative. It puts pure blood in the veins, and no woman can be homely when the rich, red blood of health courses in her veins. Sold by all dealers at 25c. and 50c.

**LIVE STOCK**

**THE BOYS AND THE ANIMALS.**

One Way of Holding the Farmer Upon the Farm.

It is natural for some boys to make pets of animals on the farm. Calves, colts and lambs crowd around such boys, and it is generally noticed that such animals are thrifty. It also is noticeable that the boys having such influence over farm animals are the

The Boy and His Pet.

boys who make the best men. Almost any boy can be taught to make close acquaintances with young animals on the farm, and such instructions are very valuable to him.

A great deal depends on the parents, says the Farm, Field and Fireside. If the "old man" yells around the barnyard and keeps a club or two handy to whack the animals with when they get in his way, the boy is very apt to imitate his father's example. Such men generally complain that farming doesn't pay. The result is that the boy goes off to town to hunt up something that will pay.

**CROWS AND CATS.**

What They Are Doing to Destroy Insect-Eating Birds.

The two minor problems of the farm to which we call attention are crows and cats, in their relation to bird life, and indirectly to the multiplication of injurious insects, says the Farm Journal. A friend up state sends us the following:

"People who do not know that young crows are almost exclusively fed on the young of other birds, or on the farmers' chicks, don't know the crow's life history—that every grown crow costs from three to six dozen young birds to feed him while in the nest, for the old crow cannot catch insects, being too clumsy; nor has he the capacity of the hawk to catch mice.

The crow may be a benefit in the tropics, where birds multiply too fast, and is not restrained by serpents and crows, and in other ways, they would devour all crops. But in the temperate zone, if left free course, as seems to be the case lately, he will exterminate all other kinds of birds, even the hawks, for he attacks them in numbers and drives them from their hunting grounds.

And when the poor, persecuted birds come to nest near the dwellings in country or town, they are met and devoured by the modern cats; they have no place to rear their young, or even to stay in safety. We must have cats, perhaps, as a defense against rats; but there used to be cats that would catch rats and not birds. And there can be again, just as we have cats that will leave young chickens alone.

Those who really desire to prevent the destruction of all the small birds, except the sparrows, need to do more than scold at the women for wearing parts of birds on their hats; which make a big show, as is the purpose, but which amount to nothing compared to the destruction by the crows and cats. And are they not mostly tropical birds? Who ever recognized any of our birds on a woman's hat? They are not gay enough for the ladies.

**Some Piggery Don'ts.**

Don't forget to plant some pumpkin seed with your corn. Pigs like pumpkins, and fat pumpkins make fat pigs.

Don't expect a pig to grow fat on grass alone. It requires the addition of slops and corn to make his sides puff out with fatness.

Don't deny your pigs salt and charcoal. Burn a pile of old coals and sprinkle them with salt if you can't do any better.—Farmers' Voice.

Don't set the dog on the pigs if they get into your garden. Pigs like vegetables as well as you, and if you want to keep them out, make the garden fence pig tight.

Don't kick the pigs out of your way if you are carrying around a leaky feed basket. They are simply gathering up what you waste, and they will turn it back to you at selling time.

**The Wheel Hoe.**

A wheel hoe will save a lot of time and labor in the garden. You can run very close to the rows of small plants and reduce hand weeding 50 per cent, or more, besides doing a better job easier and quicker than in any other way.

**Pekin Ducks.**

Well-bred and well-fed Pekin ducks should weigh five pounds each at ten weeks old. It is better to sell at four pounds at this age than to hold them longer in the hope of adding more weight.

**START RIGHT.**

Success in the Poultry Business A Most Entirely Dependent Upon It.

In poultry raising it pays to start right. It is easier to start right than to make things right after a wrong start has been made. However, few start right because it is easier to start wrong than right. The man or woman that is going into the chicken business and begins by buying out a neighbor that has a lot of rousy fowls is making a very bad start, says the Farmer's Review. He will find he has taken upon himself the carrying on of a warfare that will have no end. Unless his poultry house is unusually well built, he will find it extremely difficult to get rid of the lice after he has acquired them. We know of a man that prided himself on the fact that he had a flock of poultry in which lice had not been. He found it easy to keep the lice and diseases away. But in an evil hour he purchased a dozen fowls from a neighbor that wanted to move away and would sell out cheap. The purchased birds introduced both lice and mites into the poultry establishment and caused an amount of trouble far in excess of the value of the purchased birds. Therefore, to purchase such an aggregation of fowls, lice, mites and diseases is hardly the way to make a right start.

A person in making a start in poultry culture should endeavor to make an absolutely clean start. The entire establishment should be perfectly free from diseases and from any insects that infest poultry. We believe that if there are no insects there will be little or no disease. Without doubt insects often help the spread of diseases. It is best to use the greatest precautions in commencing, and to start clean if possible. Every bird should be thoroughly washed with soap suds. The showmen wash their birds so thoroughly that if an insect were on them it could not live. They hold their birds over a pan of water and work the soap suds into every part of the coat of feathers. When the birds are dropped they are as clean as it is possible for birds to be. That is the condition they should be in when they are put into the new poultry house and new yard that are the beginning of a new poultry establishment. In that condition they will not continue the races of mites and lice that are annually such a drain on our finances; for it must be recognized that lice and mites cost a great deal of money by reducing the vitality of the poultry.

**ECONOMIZING GREEN FOOD.**

Convenient Box in Which to Feed Green Stuff to the Poultry.

When green food is scarce or difficult to obtain it pays to plan some way so it will not be wasted. The following description is of a feeding box that works well. Cut two pieces for the ends, each 24 inches long,

Basket for Feeding Green Food.

getting proper curve by using a compass. Make the back of the holder of thin boards four feet long and 24 inches wide and nail one end in place, hinging the other end, using small straps of leather to hold it shut. Cover the holder with coarse mesh wire netting and hang it in a convenient place high enough so the fowls cannot roost on it, yet so they can feed from it readily. Use hangers of wood, tin or leather as indicated in the cut. This little feeding box, says the Indianapolis News, will enable the fowls to pick at the green stuff, whether it is clover, grass or chopped cabbage, without any danger of soiling or wasting it. Such conveniences are inexpensive, but save an immense amount of time, as well as food, so poultry keepers should use them whenever possible.

**The Bee Moth.**

Probably the greatest losses in the past with bees have been caused by the bee moth or wax worm. Italian bees and other recently introduced species are amply able to defend themselves against the wax worm, so that all that is actually necessary to eliminate damage from this insect is to queen with Italians or other moth-proof strain.

**Keeping Hawks Away.**

Hawks may be kept out of the poultry yard by attaching bright pieces of tin 6x10 inches to the trees and poles surrounding quarters, by strings two feet long so that the wind will make the bright metal dance in the sunlight.

**Dust for Winter Use.**

Make a bin in the poultry house or barn and put in a few loads of dry road dust or loam. It will be very useful to use under the roosts or in the stables to keep down odors.

**Use Good Eggs for Incubator.**

For incubator use the eggs should be from hens that are in vigorous laying and breeding condition, as the circumstances of the incubation may not be as uniform as when the old hen is used.

**Physicians Recommend Castoria**

**C**ASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless; Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food; Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

**Letters from Prominent Physicians addressed to Chas. H. Fletcher.**

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."  
Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."  
Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."  
Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."  
Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."  
Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."  
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

**GENUINE CASTORIA ALWAYS**  
Bears the Signature of

**The Kind You Have Always Bought**  
In Use For Over 30 Years.  
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Differences.  
"You haven't the old buildings nor the development of the drama that we have," said the European.  
"No," answered the American. "I suppose it's due to the fact that our building inspectors and police look at things differently."

Low Rates to the Northwest.  
Every day until Oct. 31st the Great Northern Railway will sell one way Colonists' Tickets from Chicago at the following low rates:  
To Seattle, Portland and Western Washington, \$33.00, Spokane, \$30.50. Equally low rates to Montana, Idaho, Oregon and British Columbia.  
For further information address MAX HASS, General Immigration Agent, 220 So. Clark St., Chicago, Ill.

Lincoln as a Lawyer.  
A leader of the Lincoln party told the other day in Philadelphia a story of the astuteness of Lincoln as a lawyer.

"When Lincoln was practising law," he said, "he had a case involving a disputed will. The opposition claimed the will was genuine and for several hours adduced proof of this. For Lincoln, who had to prove the will a forgery, things looked black.

"Lincoln, however, only called one witness, a retired paper manufacturer, renowned the country over for his wealth and probity.  
"Mr. Dash, Lincoln said to this witness, handing him the disputed will, 'please hold that paper up to the light and tell us what is the water mark on it.'

"The water mark of my own firm, Blank & Co., the witness answered.  
"When did your firm begin to manufacture paper?"  
"In 1841."  
"And what's the date of the document in your hands?"  
"August 11, 1836."  
"That is enough. Gentlemen of the jury our case is closed."

**SICK HEADACHE**

Positively cured by these Little Pills. They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.
