W. J. Leavitt, our candidate for Prothonary, was born in a log house in Cameron county, the heir of poverty. From the above it will be noted that the balance left of the 1907-1908 apportionment is not sufficient to pay the State's share of the cost of a half mile of road and unless the next Legislature makes a substantial Good Roads appropriation, it will not be possible to build any more roads in Cameron county until after June 1st, 1908.

Deafness Cannot be Cured. By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

State Roads in Cameron County.

Since the passage of the Sprout Good Road Law in 1903, the following applications have been filed with the State Highway Dept., requesting aid in the reconstruction of highways in Cameron county:

Shippen Township..... 1,575 feet Emporium Borough..... 2,528 do

4,103 do The 1575 feet in Shippen Township, extending from the western line of Emporium at the county Bridge over Driftwood Creek to a point on the road to Beechwood, was constructed by John McMenamy, of Phila., Pa., the macadam portion being 14 feet wide.

The approximate cost of the road is about \$3,902.23, of which the state contributes about \$2,926.67, the county about \$487.78 and the township about \$487.78.

The section in Emporium Borough, 2,528 feet in length, 1200 feet of which is to be 18 feet wide, 1120 feet to be 16 feet wide and 208 feet to be 14 feet wide, extends from west line of Broad street to the Borough line of West Fourth street. The contract for the reconstruction of this road has been awarded to John McNamamy of Phila., Pa. at an approximate cost of \$5,358.00, of which the State contributes about \$4,018.50, the county about \$669.75 and the Borough about \$669.75.

The amount of money available for road building purposes in Cameron county until after June 1st, 1907, is about \$6,013.29. The 1907-1908 apportionment, amounting to \$2,242.24, becoming available at this time makes a total of \$8,255.53 for use until June 1st, 1908, at which time the 1908-1909 apportionment, amounting to \$2,242.24, will be placed to the credit of Cameron county, making a total of \$10,497.77 available for use until June 1st, 1909.

The approximate total State share of the cost of the above roads amounts to about \$6,945.17, which not only exhausts the entire apportionment to June 1st, 1907, but consumes almost one half of the 1907-1908 apportionment.

From the above it will be noted that the balance left of the 1907-1908 apportionment is not sufficient to pay the State's share of the cost of a half mile of road and unless the next Legislature makes a substantial Good Roads appropriation, it will not be possible to build any more roads in Cameron county until after June 1st, 1908.
