

**A KENTUCKY WOMAN**

How She Gained Fifteen Pounds in Weight and Became Well by Taking Dr. Williams' Pink Pills.

Women at forty, or thereabouts, have their future in their own hands. There will be a change for the better or worse, for the better if the system is purified by such a tonic as Dr. Williams' Pink Pills. Mrs. D. C. Wedding, of Hartford, Ky., writes as follows concerning the difficulties which afflicted her:

"I was seriously ill and was confined to my bed for six or eight months in all, during two years. I had chills, fever, rheumatism. My stomach seemed always too full, my kidneys did not act freely, my liver was inactive, my heart beat was very weak and I had dizziness or swimming in my head and nervous troubles.

"I was under the treatment of several different physicians but they all failed to do me any good. After suffering for two years I learned from an Arkansas friend about the merits of Dr. Williams' Pink Pills and I decided that I would try them. The very first box I took made me feel better and when I had taken four boxes more I was entirely well, weighed fifteen pounds more than when I began, resumed my household duties, and have since continued in the best of health. I have recommended Dr. Williams' Pink Pills to many people on account of what they did for me, and I feel that I cannot praise them too strongly."

Dr. Williams' Pink Pills restored Mrs. Wedding to health because they actually make new blood and when the blood is in full vigor every function of the body is restored, because the blood carries to every organ, every muscle, every nerve, the necessary nourishment. Any woman who is interested in the cure of Mrs. Wedding will want our book, "Plain Talks to Women," which is free on request.

All druggists sell Dr. Williams' Pink Pills, or they will be sent by mail postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N.Y.

A COW WITH A RECORD.

Noted Member of the Guernsey Family Which Has Numerous Progeny.

Glenwood Girl VI. belongs to one of the noted Guernsey families. Her mother, Glenwood Girl, was imported in her dam in 1883 and has given birth to seven daughters and four bulls. All of Glenwood Girl's daughters are alive except Glenwood Girl II., which had to be killed on account of an injury.

In every dairy herd there is usually some cow that is a great deal better

Guernsey Cow, Glenwood Girl VI.

than all the rest, one that is capable of producing large yields of milk and fat, and at the same time gives birth to many strong and large producing animals. The science of breeding lies in the judicious use that is made of the best blood in the herd. In order to obtain the best results, records must be kept of not only the amount of product yielded, but a breeding record, which should show the strong characteristics of the animal, as well as the weak.

Glenwood Girl VI. is considered one of the best individuals of this family and her heifers are making good records and her bulls are producing some very fine stock. These facts all show that Glenwood Girl was a very prepotent animal and that she has transmitted to her daughters and bulls the same good trait.

Glenwood Girl VI. has a yearly record of 12,184 pounds of milk; average test, 4.69 per cent., and 572 pounds of fat, equivalent to 687 pounds of butter.

**FARM SEPARATOR CREAM.**

Can Be Delivered in Good Order by Proper Care.

The chief difficulty in the way of success in all creameries where the cream is collected instead of the milk is the difficulty of getting the cream delivery in a sweet, clean flavored condition. Patrons who deliver milk know that it must be delivered sweet daily, or at least six times a week in warm weather, in order to have it in a condition fit to make fine butter. On the other hand, cream will remain sweet for a longer time than milk, and most persons consider that it does no harm if the cream sours—in fact, it pays better to have it sour, because they receive a higher test for such cream from those creameries using the oil test. This is the chief reason why the oil test should be discarded in favor of the Babcock, which latter test places a premium on sweet cream.

In order to get sweet cream for creameries the two main requisites are to keep everything clean and to keep the cream as cold as possible until it is delivered at the creamery. The first requisite should be easy, but many persons fall here for the same reason that an old bachelor failed in getting good results in his cooking by following recipes in cookbooks. When some one asked him if he had ever tried any of the recipes for cooking, he said he had tried a good many of them, but never had good results. When asked why, he said they all began in the same way, "take a clean dish," and he couldn't do that very handsly, consequently he gave up referring to cookbooks. The second requisite is gotten by having on hand a supply of ice or cold water. Ordinarily each and every patron ought to have a supply of ice for cooling cream. The subject may be summarized in the following, as presented by Prof. Dean in the Canadian Dairyman:

- First—Clean the pails, cans and separator daily or twice daily.
- Second—Cool cream to 59 degrees by the use of ice or cold water.
- Third—Have rich cream testing not less than 25 to 35 per cent. fat.
- Fourth—Fresh cream should not be added to older cream until after it is cooled to 59 degrees.
- Fifth—Deliver daily or at least four times a week in warm weather. The cream can or tanks should be protected from sun, rain and dust while on the wagons.
- Sixth—Proper weighing, measuring and sampling are essential for satisfaction among the patrons.
- Seventh—Cream should be pasteurized and cooled at the creamery, especially in the fall and winter, to remove objectionable flavors and to add keeping quality to the butter.
- Eighth—Cooperation on the part of the drivers, patrons and creamerymen is necessary in order to improve the quality of the cream and butter.

**Freak Ear of Corn.**

A freak ear of corn is reported from Shelbyville, Ind. It is composed of about 200 small ears, each the size of a lead pencil.

The dairy cow is a great factor in every civilized country.

**CURED OF GRAVEL.**

Not a Single Stone Has Formed Since Using Doan's Kidney Pills.

J. D. Daughtrey, music publisher, of Suffolk, Va., says: "During two or three years that I had kidney trouble I passed about 2 1/2 pounds of gravel and sandy sediment in the urine. I haven't passed a stone since using Doan's Kidney Pills, however, and that was three years ago. I used to suffer the most acute agony during a gravel attack, and had the other usual symptoms of kidney trouble—lassitude, headache, pain in the back, urinary disorders, rheumatic pain, etc. I have a box containing 14 gravel stones that I passed, but that is not one-quarter of the whole number. I consider Doan's Kidney Pills a fine kidney tonic."

Sold by all dealers. 50 cents a box Foster-Milburn Co., Buffalo, N. Y.

**Bird Breeding Islands.**

During the last year the Audubon Society of Louisiana has rented some 17 bird breeding islands, located in the waters of the gulf. Last year the islands were watched by two wardens, whose wages were paid by the national committee of Audubon societies, and although they were not wholly able to prevent trespassing and egg stealing nevertheless the results attained were wellnigh marvellous. On their own and the neighboring islands of Breton reservation, owned by the federal government, by these simple preventive measures, there were hatched and raised all of 40,000 birds, composed of the following species: common terns, forsters, terns, royal terns, laughing gulls, black skimmers—Country Life in America.

**Aunt Mary's "Quiet" Funeral.**

A dear old New England spinster, the embodiment of the timid and shrinking, passed away at Carlsbad, where she had gone for her health. Her nearest kinsman, a nephew, ordered the body sent back to be buried—as was her last wish—in the quiet little country churchyard. His surprise can be imagined, when, on opening the casket, he beheld, instead of the placid features of his Aunt Mary, the majestic port of an English general in full regimentals, whom he remembered had chanced to die at the same time and place as his aunt. At once he cabled to the general's heirs, explaining the situation and requesting instructions. They came back as follows: "Give the general quiet funeral. Aunt Mary interred to-day with full military honors, six brass bands, saluting guns."

**WHO PAID FOR THE DRINKS?**

Endless Chain Operated by Thirsty Men on the Mexican Border.

"Now, here is the best yarn of the lot and a good puzzle for the Sunday papers to print," said the man with the alkali in his whiskers, when he had settled down in the hotel lobby after a long day on the rubberneck wagon.

"Several years ago American silver coin in Mexico was on the same basis as Mexican silver was at that time and still is in the states; it passed at half its face value. Drinks in El Paso and in Juarez, the Mexican town across the line, were a bit piece or 12 1/2 cents, as you easterners would say.

"In those palmy days a citizen of El Paso could go into a drinking emporium and buy a drink, paying for it with an American quarter. The bartender would hand him back a Mexican quarter, which was, of course, worth 12 1/2 cents in Texas.

"Then with this Mexican quarter in his hand the citizen could cross the bridge to Juarez and there buy another drink, laying his Mexican quarter on the bar.

"If the Greaser barkeep should give him in change an American quarter worth 12 1/2 cents in Mexico the joyous citizen could return to Uncle Sam's back yard and repeat the process.

"Now, the question is: Who paid for those drinks?"—N. Y. Sun.

**RIGHT HOME.**

Doctor Recommends Postum from Personal Test.

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A Mo. physician prescribes Postum for many of his patients because he was benefited by it. He says:

"I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional or nervous heart trouble for over 15 years, and part of the time was unable to attend to my business.

"I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum.

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach.

"When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pgs. There's a reason."

**BABY'S TORTURING HUMOR.**

Ears Looked as If They Would Drop Off—Face Mass of Sores—Cured by Cuticura in Two Weeks for 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars. Instead of seventy-five cents. Mrs. George J. Steese, 701 Colburn St., Akron, Ohio."

**Hindu Moon Lore.**

The full eclipse of the moon was observed in Singapore on the night of August 4. According to the Hindus this eclipse is the contact between the moon and another planet called Rahoo, but the masses believe that owing to the will of God, Rahoo, or the serpentlike planet, catches hold of the moon by its hideous mouth and releases it after a short time.

At the first contact the Hindus bathe principally in the sea and anxiously await the release. After the contact they take another bath. During the interval they are not allowed even to drink a cup of water, as their belief is that all things in the world get polluted during the contact—Singapore Times.

**The Port of Hong-Kong.**

Hong-Kong is one of the most active shipping ports in the world, but it is not a market. It is a convenient point for the transfer of cargoes from or intended for the different parts of China, Japan, Korea, the Philippine Islands, Siam and other parts of the east, but it is a small island, with a limited population, who produce nothing and consume comparatively little but handle a great deal of trade in transit.

**THE LAXATIVE OF KNOWN QUALITY**

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the
