

## Dyspepsia of Women

Caused by Female Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. M. Wright

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has a peculiar tonic effect on the female organism.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes:

"For two years I suffered with dyspepsia which so degenerated the entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

Few things are impracticable in themselves; and it is for want of application, rather than of means, that men fail of success.—Rochefoucauld.

### Marion Harland.

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her book, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother":

"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

### Parisian Meat Supply.

The last year for which complete statistics concerning the meat supply of Paris have been published is 1903. From the reports of that year it appears that 267,027 cattle, 274,390 calves and 2,047,770 sheep were slaughtered at the city abattoirs and produced 156,007,850 kilograms (or 227,616,485 pounds) of meat, of which 123,712,180 kilograms (259,795,573 pounds) were consumed in Paris, and 32,292,650 kilograms exported. Some of the choicest of French beef goes to England, where the fillets and other prime cuts are in demand for clubs, hotels, and the best class of restaurants. During the same year there were killed 282,508 hogs, which yielded 27,657,350 kilograms (58,080,435 pounds) of pork, and 29,370 horses, which furnished 7,305,650 kilograms (or 15,341,865 pounds) of meat, all of which was consumed in Paris.

## Saves Farm Machinery

Rust destroys more farm machinery than does wear. Use 6-5-4 and save your farm machinery. Get a 25c can and let your boy or girl apply it. No hard work. Apply it just like paint. Dries quickly and leaves a fine black finish. 6-5-4 is entirely different from any other preparation. It attacks the rust chemically, dissolves it, fairly eats it up, and renders iron impervious to further rusting. Very thin, runs into the cracks where the brush can not go. Sold by all dealers. Look for the label as shown above. If not at your dealers, write us for a can.

CROSBY & CO., DETROIT, MICH.

6-5-4 is equally valuable for stoves.

## THE DAIRY

### BARN FOR SMALL DAIRY FARM.

One Which Will Accommodate Ten to Twelve Cows.

The farm barn here shown is intended to accommodate ten or twelve dairy cows together with the horses necessary for a moderate sized farm. In size it is 44 feet long by 34 feet

Barn and Ground Plan.

The main floor is 12 feet wide and the height of posts 18 feet, permitting loads of hay to be driven in. A basement about six feet in depth can be utilized to store the manure and to provide shelter for hogs. The frame can be made of eight inch square hemlock timbers, the floor of three inch planks. This style of building should be suitable for many parts where the number of live stock is limited.

### THE CALF.

Most Rigid Selection Should Be Made in Adding to Herd.

The most rigid selection, according to dairy standards, should be made among the calves as they come into profit, those being retained which will raise the average performance of the herd. When it is necessary to introduce a new sire, he should be of the same type and personal qualities already determined upon as the ideal for the herd. Constant records should be kept of the work of every individual animal, in order that reasonable treatment may insure the greatest profit, and this is only possible when the owner is personally familiar with the characteristics and performance of every cow.

Personal comfort, cleanliness, light, air, exercise and water, are as necessary as feed. Frequent examinations should be made by a competent inspector to make sure of the health of the herd, and any animals found suffering from infectious or contagious diseases should be immediately removed to hospital stalls for proper care. With such reasonable treatment a pure bred herd will prove itself the best investment that the intelligent farmer can make, and will be a source of constant satisfaction and pride.

### TO HOLD A GATE OPEN.

Brace Which Can Be Swung Out of the Way When Not in Use.

The illustration shows a very handy method which I invented to hold a

swing gate open at any width, writes a correspondent of Orange Judd Farmer. Most gates are hung so they swing upward a little in opening, to clear snow, grass, etc. They swing shut of their own accord, hence something to hold the gate open at any place while driving through or letting out stock is a necessity.

To meet this need I devised the brace shown herewith. It is simply a piece of wood 1x2 inches and a little longer than half the height of the gate. One end is fastened by a spike passed through it and driven into the edge of the vertical board at the end of the gate, or it may be put on with a hinge. The dotted lines show its position when not in use, it being swung upward and snapped beneath a spring nailed to the top of the gate.

### Dairy Facts.

Don't overdo the milking tub act. The hand-separator business has steadily increased during the past ten years.

It is impossible for a cow to be two opposite things, a dairy cow of the highest type and a beef animal of the greatest possible value.

The control of moisture in butter is not possible without the control of churning temperatures. Ice and thermometers are necessary for the making of butter under proper conditions. The New South Wales Farmer and Settler tells of a New Zealand farmer who holds the record as a milker. For a considerable time he and his wife milked 72 cows night and morning, without keeping any hired help, their family consisting of one small child. We are told that the farmer and his wife were healthy and robust—which they need be—and fine specimens of humanity.

## A PUBLIC DUTY.

Montpelier, O., Man Feels Compelled to Tell His Experience.

Joseph Wilgus, Montpelier, O., says: "I feel it my duty to tell others about Doan's Kidney Pills. Exposure and driving brought kidney trouble on me, and I suffered much from irregular passages of the kidney secretions. Sometimes there was retention and at other times passages were too frequent, especially at night. There was pain and discoloration. Doan's Kidney Pills brought me relief from the first, and soon infused new life. I give them my indorsement."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### Wouldn't Fit.

Some visitors from the north attended service at a colored church in Alabama and were much amused when the good old preacher referred to John I. and John II. as "John with one eye and John with two eyes!"

But when he gave out a hymn beginning "Purge Me with Hyssop," there was consternation in the choir and great fumbling around for a tune to fit the words. At last the leading chorister addressed the preacher: "Say, Brother Johning, won't you please try some odder yarb?"—Lippincott's.

There is more Catarrh in this section of the country than in other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

### FISH IN NEW PLACES.

Wild Ducks Found to Bear Fish Eggs Ready to Hatch.

A correspondent from Saffi wrote in our June issue expressing his mystification as to how small fish come to be in inclosed waters. A naturalist suggests an explanation. He says: "If the wild ducks, etc., of Morocco are similar to those elsewhere there is no mystery. For some years there was open-mouthed wonder as to how perch, bream and crayfish could get into newly cut dams near the Macquarie river in New South Wales."

In some cases the water had hardly settled after the rain had filled the dam than the fish were observed, and the farmers started a large theory of spontaneous production.

This obtained till a Sydney professor chanced to pick up a wild duck and found its breast feathers and webbed feet well dotted with fertile and almost hatched fish-ova, on which the 'spontaneous production' theory was promptly withdrawn.—Chambers' Journal.

Fruit acids will not stain goods dyed with PUTNAM FADELESS DYES, and the colors are bright and fast.

All things come quickly to those who wait on themselves.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation always pain, cures wind colic. See a bottle.

"Now, I am ready, how do I look, dear?" "You remind me of a Sloux in his war paint." "Oh, you nasty thing, you—" "Don't cry, darling; I only meant you were dressed to kill."—Baltimore American.

# ST. JACOBS OIL

THE OLD-MONK-CURE RELIEVES FROM PAIN

Price 25c and 50c

## THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

### Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

## PUTNAM FADELESS DYES

A. N. K.—E (1906-46) 2152.

## Success in the Gulf Coast Country

Here is an example of what YOU could do.

### \$300 Realized from 5-8 Acre of Lettuce.

Mr. W. R. Landrum, of Olmito, Texas, near Brownsville, planted five-eighths of an acre in lettuce this Spring. He sold his crop for \$300. A wonderful return from his land, was it not? But if you will write Mr. Landrum at Olmito he will confirm it. And if you write to me I will gladly send you other striking examples of success in that interesting country.

Investigate the Gulf Coast Country; you will find that there are good reasons for such results. One of them is the climate. The winter is so mild there that tender vegetables can be grown and placed on the market in early Spring when the price is highest. And in early Spring crop the land will raise a second crop and sometimes a third crop the same year. Even the inexperienced farmers have made more than \$100 an acre.

Don't you think this is better than a one-crop country, where your success depends on uncertain weather with irregular rainfall?

Now the land is cheap and you can get it on easy terms. Twenty acres will cost you about \$500. The cost of clearing it is about \$5 an acre. The cost of water for irrigation varies. You may want an artesian well of your own; you may get water from some river; or you may get it from your neighbor. But the cost is not great, and those who have tried it have netted from the first crop a sum which has paid all expenses and left a good surplus.

### The Winter Vegetable Garden of America

Take a trip down there and see for yourself—that's the best way. Every first and third Tuesday of each month, we will sell round-trip tickets to any point in the Gulf Coast Country and return, at the following rates:

From Chicago,	\$25.00
From St. Louis,	20.00
From Kansas City,	20.00
From Peoria,	23.00
From St. Paul,	27.50
From Minneapolis,	27.50

These tickets will be good 30 days and they will permit you to stop over at any point. Low rates for one way tickets on some days, also.

Let me send you our books describing the wonderful crops produced in this marvelous country. Don't delay, write me to-day.

JNO. SEBASTIAN, Passenger Traffic Manager,  
ROCK ISLAND-FRISCO LINES,  
700 La Salle St. Station, Chicago, Ill., or 700 Frisco Bldg., St. Louis, Mo.

### High Grade Farming Lands

FOR SALE IN OSCEOLA COUNTY

Cut over hardwood lands. Soil a clay or gravelly loam. Just put on the market in a well settled country. Good roads, schools, railroads and telephones. Write for maps and literature.
