

LIEUTENANT BOWMAN.

IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

Cold Affected Head and Throat—Attack was Severe.

Chas. W. Bowman, 1st Lieut. and Adjt. 4th M. S. M. Cav. Vols., writes from Lanham, Md., as follows: "Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peruna."

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack."

"Members of my family also use it for like ailments. We are recommending it to our friends."

"Many Peculiar Languages. Of languages which so widely differ among themselves as to be incomprehensible without particular study the number readily exceeds 1,000."

Roman Relics Found in Wales. Workingmen engaged in diverting a roadway at Welwyn, Herts, Wales, unearthed seven Roman urns in a good state of preservation, a Roman spur, two drinking bowls six inches high, one smaller cup, a bowl, some bronze plate, an iron standard and a small urn six inches high.

THE FIRST TWINGE

Of Rheumatism Cured by Dr. Williams' Pink Pills if You Would Be Easily Cured. Mr. Frank Little, a well known citizen of Portland, Iowa Co., Mich., was cured of a severe case of rheumatism by Dr. Williams' Pink Pills. In speaking about it recently, he said: "My body was run down and in no condition to withstand disease and about five years ago I began to feel rheumatic pains in my arms and across my back. My arms and legs grew numb and the rheumatism seemed to settle in every joint so that I could hardly move, while my arms were useless at times. I was unable to sleep or rest well and my heart pained me so terribly I could hardly stand."

POULTRY AND BEES

DESIGN FOR POULTRY HOUSE.

Building Which Will Accommodate One Hundred and Fifty Fowls. The size of the building here represented is 12 feet wide and 80 feet long, divided into six separate apartments in the rear of the separate apartments. This is called a connected apartment house, from the fact that from the hallway in the rear you could enter each apartment. When it is desirable so to do, there need not be any partitions, but the whole building may be thrown into one large room.

The advantages gained from the separate apartment house are several. First of all, hens do better when not to exceed 25 or 30 are permitted to live in each apartment. This building, as represented here, would furnish six rooms large enough for 25 each of fowls the size of Plymouth Rocks or Wyandottes. Thirty Leghorns might be kept to good advantage in each apartment. The roosts should all be constructed on the level from a dropping board. Underneath the dropping board may be constructed the nests, or the nests may be built against the partition while that divides the apartments. It is always best to raise the nests from the ground, and to have the hens enter them from the rear or behind to lay. This hides the hen and the eggs away from those on the floor, and does not tempt them to fly up and eat the eggs.

The run or area way in front of the poultry house can be large or small, according to the ground space that you have to devote to the same. The more the better. Fowls always do the best that have a large space of yard room to roam over.

The gable may be constructed fashioned after either one of the end elevations presented, or, where it is preferred, the rear wall may be built high enough so as to have a shed roof from rear to front the entire width of the building. In the construction of a poultry house, great stress should be laid on having of dry floors and dry interior. Perfectly dry floors usually

Plans of House. assure a dry interior. In selecting the location for a poultry building, always place it on the high ground, where there is an under and surface drainage. If this cannot be, dig out the ground, fill in with broken stone, and make a cement floor, at least a foot larger all around than will be the building thereupon. This cement floor will serve the double purpose of assuring a dry interior and shutting out vermin. Always cover the cement floor during the winter months with six or eight inches of dry earth, and throw thereupon plenty of dry litter, either straw, leaves, or light material that will do for scratching purposes.

Where it is thought practicable to make use of what is known as the fresh-air or muslin curtain front to the windows, it is only necessary to remove part or all of the sash, and substitute frames covered with unbleached muslin. The use of the muslin curtain is thought to make the interior more healthful for the poultry. The continual passing of the air through the curtain has a tendency to dry the atmosphere within the poultry house. While such buildings, says Country Gentleman, are considerably colder than tight glass fronts, the interior is apt to be perfectly dry, and the hooded roost may be made use of in cold localities to keep the fowls warm during the frost of winter weather.

As to a correct ration of feed for the production of eggs during the winter months, try a dry grain ration, one-third wheat, the rest made up of a mixture of all kinds of small grain. If a mash food is fed, always feed it at noon. It is best when composed of equal parts, by measure, of cornmeal, ground oats, bran and middlings, all mixed with either scalding-hot milk or water, and allowed to set to cool. Some animal food of some kind—beef scrap or ground green bone—should always be furnished them in winter. In addition to this, plenty of green food of some kind, water and grit should always be at hand. If fed this ration, and to this rule, and properly housed, hens should always furnish a full egg supply in winter.

Packing Fowls. When fowls are packed in barrels or boxes for shipment, all the animal heat should be out of them. To pack them before that time is to increase the opportunities for the heat to develop in the interior of the box or barrel and the forces of decomposition begin their work. It will be seen that this might easily lead to heavy losses, as it frequently does.

The next thing to green bone for eggs is good thick buttermilk.

Economy is the road to wealth. PUTNAM FADELESS DYE is the road to economy. 10c per package.

If you are a gay old dog you have no right to whine.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, soothes inflammation, allays pain, cures wind colic. 25c a bottle.

It's a wise Satan who keeps his beard away from the candles.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days or money refunded. 50c.

The last person to forget a kindness is the one who does it.

Garfield Tea purifies the blood and eradicates disease. Take it for constipation. Guaranteed under the Pure Food Law.

Kindness is wisdom. There is none in life but needs it and may learn.—Bailey.

If a woman's crowning glory is her hair, is a beautiful complexion less desirable? Both may be had and retained forever; the two recipes ten cents. Address, Rice, 60 Pulaski St., Brooklyn, N. Y.

Truth is the beginning of every good thing, both in heaven and on earth; and he who would be blessed and happy should be from the first a partaker of the truth.—Plato.

How to Trap Wild Animals. 40 page trap book illustrated, picture 46 wild animals in natural colors, also barometer and calendar, also gun & trap catalog, also prices on raw furs. All sent post paid for 10 cts. stamps or silver. Address Fur Dept. N. W. Hide & Fur Co., Minneapolis, Minn.

Has Seen Much of Life. John Avery McIlhenny, recently nominated a civil service commissioner, though only 36 years old, has put two girldes round about the earth, has killed big game in Africa and has fought in a real (though small) war. Besides being a former rough rider, he is one of the richest men in Louisiana. His pepper farm on Avery Island, Iberia parish, is famous, and so is the huge factory in which he makes pepper sauce. Two years ago the McIlhennys entertained the president's older daughter, Mrs. Longworth, in their New Orleans home at carnival time and last year the president himself was their guest.

Always to Be Depended Upon. When a person gets up in the morning with a dull headache and a tired, stretchy feeling, it's an almost certain indication that the liver, or bowels, or both, are decidedly out of order.

At such times Nature, the wisest and best of doctors, takes this means to give warning that she needs the help and gentle assistance which can best be obtained from that old family remedy, Brandreth's Pills, which has been in use for over a century.

They are the same fine laxative tonic pill your grandparents used when doctors were few and far between, and when people had to have a remedy that could absolutely be depended upon.

Brandreth's Pills can be depended upon, and are sold in every drug and medicine store, plain or sugar-coated.

MEN STILL LIVE IN CAVES. Troglodytic Villages Are Found in Northern Africa.

Grottoes and caverns are used more or less as shelters by primitive peoples and thus inhabited caves are of course most frequent in Africa. A considerable number of natives make their homes in caves along the southern shore of the Strait of Gibraltar and in some of those caves are found the polished stones and arrow heads of the stone age. Troglodyte villages are frequent in the Tebessa territory of Algeria, one of which, at Djeurf, 250 feet above the gorge of the Wadi Hallal, is reached by steps cut in the rock.

The inhabitants of the Tunisian Island of Galite are cave dwellers, their habitations being grottoes which they have dug out of the limestone, or ancient burial caverns that they have enlarged. The subterranean villages of Matmata and of Medennie, hewn out of the rock, are in southern Tunisia.

A Christian monastery built underground in the twelfth century still exists at Goba, Abyssinia. The enormous cavern discovered several years ago within two hours' walk of the port of Tanga, in German East Africa, contains rooms the roofs of which are from 120 to 250 feet above the floor. Only a few of these vast chambers have yet been explored, for the entire cavern seems to be inhabited by millions of bats. One of these killed with a stick measured nearly five feet across its extended wings.

COSTLY PRESSURE. Heart and Nerves Fail on Coffee.

A resident of a great western state puts the case regarding stimulants with a comprehensive brevity that is admirable. He says: "I am 56 years old and have had considerable experience with stimulants. They are all alike—a mortgage on reserved energy at ruinous interest. As the whip stimulates but does not strengthen the horse, so do stimulants act upon the human system. Feeling this way, I gave up coffee and all other stimulants and began the use of Postum Food coffee some months ago. The beneficial results have been apparent from the first. The rheumatism that I used to suffer from has left me. I sleep sounder, my nerves are steadier and my brain clearer. And I bear testimony also to the food value of Postum—something that is lacking in coffee." Name given by Postum Co., Battle Creek, Mich. There's a reason. Read "The Road to Wellville," the quaint little book in pkgs.

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

LYDIA E. PINKHAM

No other medicine for Woman's ill in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female illnesses or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been curing all forms of Female Complaints, Inflammation and Ulceration, and consequent Spinal Weakness. It has cured more cases of Backache and Local Weakness than any other one remedy. It dissolves and expels tumors in an early stage of development. Irregularities and periodical pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system.

It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues". These are indications of Female Weakness, or some derangement of the organs, which this medicine cures as well as Chronic Kidney Complaints and Backache, of either sex.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes. American Idealism. Since my first arrival in America I have held that the real spirit is idealistic and that the average individual American is controlled by idealistic impulses. Those who may contradict me can not have sounded the depths of the philosophy of Ralph Waldo Emerson, or studied the life and read the speeches of Abraham Lincoln, and considered their far-reaching effect on the American people. In Lincoln's great character nothing can be more striking than the way in which he combined reality and the loftiest ideal, with a thoroughly practical capacity to achieve that ideal by practical methods. This faculty seemed to give him a far-sighted, almost superhuman vision, which enabled him to pierce the clouds obscuring the sight of the keenest statesmen and thinkers of his age—Baron Speck von Sternburg, in Forum.
