Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt, and been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lnngs, opens the secretem to a healty condition. Sold by L. Taggart; J. E. Smith, Sterling Run; Crum Bros., Sinnamahoning.

When the cold winds dry and crack the skin a box of salve can cave much discomfort. In buying salve look for the name on the box to avoid any imitations, and be sure you get the driginal DeWitt's Witch Hazel Salve. Sold by R. C. Dodson.

Clear up the complexion; cleanse the liver and tone the system. You can best do this by a dose or two of DeWitt's Little Early Risers. Safe, reliable little pills with a reputation. The pills that everyone knows. Recommended by L.

"They like the taste as well as maple sugar" is what one mother wrote of Kennedy's Laxative Cough Syrup. This modern cough syrup is absolutely free from any opiates or narcotic. Contains Honey Tar. Conforms to the National Pure Food and Drug Law. Sold by R.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably indorse it. Children like it because the taste is so pleasant. Contains Honey and Tar. It is the Original Laxative Cough Syrup and is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms the National Pure Food and Drug Law. Sold by R. C. Dodson.

No Excuse for Ignorance.

Chairman of County Institutes.

In these days of free schools and the opportunities offered for the education of the rising generation, it is little short of a sin and a crime for parents to allow their children to grow up into man and womanhood without being able to read as much as the printed language.

Every day we come upon instances of Shake reared in the shadow of the school house but have failed to acquire even enough of an education to be able to read. The discovery of a young man or young woman who are old enough to be married and unable to read their own names in the newspaper is a sight painful enough to make us shudder, when we stop to think of the manner in which they have wasted their opportunities, or been prevented by parents who faied to realize the importance of at least getting enough education to read -- Ex.

WILL RESIST BOSSES

Country and Labor Members of Legislature Form Two Organizations.

WILL LIKELY ACT TOCETHER

Country Contingent Numbers 59 and the Laborites 38 Members - Railroads Secure Postponement of Reso lution Providing for Investigation.

(Special Correspondence.) Harrisburg, Pa.—Two powerful combinations have been formed by members of the legislature which are very likely to "do things" when opportunity presents itself. The other night 59 members from the interior counties of the state got together and organized for the purpose of advancing the in-terests of their respective communi-ties and protecting measures of inter-

est in their districts.

A combination also has been formed by the 38 mine region legislators that is most formidable. Their purpose is to form united support for all labor bills that have been and may be introduced during the session. It is reported that there may be a "working agreement" between the two combinations. ations in each other's interest. Both combinations say they are non-partizan. Representative North of Jeffer-son was elected president of the country members' organization; Representative Habgood of McKean, secretary, and Representative Fair of Westmore land, treasurer. A committee was appointed to select a name for the association. The organization will meet every two weeks to discuss legislation.

Railraods Obtain Delay.

The first skirmish over railroad legislation took place last Monday night in the house. Trouble started when the Fahey-Murphy resolution providing for an investigation came up. According to the provisions of this measure the commission would have two years in which to do its work and would be required to make its report to the next legislature tempts were made to kill the bill outright but the railroad people were unable to strangle it. Kennedy of Alle-gheny offered a substitute directing the attorney general to prosecute all corporations that had violated the constitution of the state as was shown by the work of the Interstate Commerce commission. The attorney general was to make a progressive report to this legislature and a final report to the next legislature.

There was a very hot debate over the two resolutions. Then Cochrane of Armstrong made a motion, seconded by Watson of Indiana, that the entire matter be postponed for two weeks. The motion was carried. It is altogether likely that a strong resolution of some kind will be adopted.

Stuart Anxious to Begin. It is expected that the capitol investigation will be started this week. Gov. Stuart is anxious to set the wheels in motion and stop all reports of a postponement. President Pro Tem Woods of the senate is authority for the statement that no delay is to be made on account of the mayoralty election in Philadelphia, as has been reported. The commission to make the investigation will probably hold daily sessions and it is hoped that it will have completed its work and have its report ready some time be-fore the legislature adjourns.

State Treasurer Berry says he has found additional evidence of scandal in the erection of the \$13,000,000 capitol. He says that he has found overcharges in the item of mahogany wainscoting, John H. Sanderson of Philadelphia having had the contract for that work. According to Berry the overcharge amounts to \$700,000. He says he is ready to prove his charges if experts are employeddd to go over work and the figures. Mr. Berry issued a statement hotly answering the report made by former Attorney General Hampton L. Carson, who told the legislature that the allegations of fraud were too flimsy to warrant him making prosecutions.

Wants Law to Enforce Law Representative Moscrip of Bradford

does not like railroad passes. He introduced a bill in the house providing for the enforcement of the provisions of the constitution against free passes except for employes of the common carrier. The bill provides for commutation tickets for daily travel of business people and school and college

Among other anti-railroad legisla tion was a bill presented by Representative Sterling of Fayette which gives trolley companies the right of eminent domain and the right to carry freight. Legislation framed in accordance

with a plank in the Republican plat form and with the indorsement of the Republican state leaders made its ap pearance in the senate. It provides for a state railroad commission. It was presented by Senator Ernest L.
Tustin and was carefully prepared by several Philadelphia lawyers. A com-commission of five is to be named by the governor. The commissioners must not be connected in any way with railroad campanies and own no stock or bonds in any common carrier company. Their salary is to be \$8,000

Representative Habgood of McKear is sponsor for the bill repealing the Salus-Grady libel law, better known as the "Press Muzzler." The muzzler was passed at the request of former Gov. Pennypacker. The repealer is likely to be passed. Legislators ex-press a desire to knock the muzzler out and many of them have gone on record as favoring the repeal of the act. They say it is a dead letter any-how and should never have passed.

One of the most important measurements and actions and actions are the same actions.

ures introduced during the past week was that of Senator Tustin reorganizing the department of banking. It also provides regulations calculated to prevent the making of fraudulent reports as to the condition of banks and trust companies. Trust companies as well as banks are obliged to publish state ments as to their condition. The num ber of bank examiners is increased to 30. It is stipulated that each bank and trust company shall be examined at least once a year. The salary of the banking commissioner is increased from \$6,000 to \$10,000.

There is quite a contest in progress between the national and state banks, The bill introduced at the request of the national banks requiring banks to keep 2½ per cent of the savings de-posits on hand in the vaults of the banks at all times would make pretty tough sledding for all institutions and it is predicted that it would the up about \$13,000,000 in the state. Some of the savings banks, it is said, would have to cut down the rate of interest they pay to depositors because of the large amounts of money they would be compelled to carry and which would

be entirely unproductive.
Senator Joseph A. Langfitt of Allegheny introduced a bill authorizing the justice of the supreme court to designate a judge to sit in the court of a district other than his own when request is made by the court or bar association of that district. It allows the judge \$10 a day and traveling expenses.

More Good Roads Bills.

Several new bills for the improve ment of the highways were introduced. One of them was offered by Senator Roberts, of Montgomery, appropriating \$5,000,000 for the building of "good roads." He also introduced legislation providing for the removal of township officers who are derelict in their duties.

The fertilizer act is to be amended if a bill introduced by Mr. Oster of Bedford becomes a law. It provides that in the statement of analysis that must be stamped upon every package It shall be set forth where the nitrogen and other ingredients of the fertilizer are derived from.

The Anti-Saloon league is expected to get busy as a result of the introduc-tion of a bill in the senate by Mr. Murphy of Philadelphia allowing hotels to sell liquor to guests on Sunday. It provides that a special license may be granted by the courts to hotels desiring to sell liquor on Sunday and that it shall be sold only to guests with their meals.

Would Repeal Old Law.
Representative W. B. Simpson of
Huntingdon introduced a repealer to the act regulating fences and to appoint appraisers in each township of the counties of Bedford, Northumberland, Westmoreland, Washington and Fayette and to "encourage the raising of swine." The old act was passed in 1784.

A bill to prohibit the letting of prison labor by contract and to prevent the products of prison manufacture coming into competition in the open market with goods made outside of prisons was introduced by Frank E. Smith of Pittsburg. It stipulates that goods made by convicts shall be sold

only to state or county institutions.

You will not be permitted to say
"What'll you have?" to your friend
when you go to a saloon for a drink the house by Thomas, of Bucks, becomes a law. It is known as an anti-treating measure. It makes it unlawful for a saloonkeeper to permit a customer to treat another customer to a drink of liquor of any kind. He could buy him a drink of buttermilk

or a piece of pie but nothing "vinous."

To prevent foreigners owning fireunlawful for anyone to sell them firearms or ammunition is the object of a bill introduced by Representative Beidleman of Dauphin. The measure is very sweeping in character. A person violating the provisions of this act is liable to a penalty of \$50 for each offense or suffer imprisonment of one for each dollar of penalty im-

Bill to Protect Game.

Sportsmen will have to seek other fields if a bill prohibiting the killing of quail, pheasants and wild turkeys It was introduced in the house by J. M. Dight of Butler county. A fine \$25 is imposed as a penalty for violation of the law, one-half of which is to go to the informer and one-half to the county treasurer of the county which the offence was committed. The growing scarcity of game in Pennsylvania is responsible for the introduc-

tion of the measure.

Another bill intended for the protection of game and domestic fowls was introduced by William C. Miller in the senate. It offers a bounty for killing animals and birds that are themselves destructive. For every wildthemselves destructive. For every cat a bounty of \$2 is to be paid; for every fox, red or gray, \$1; for every name or chicken hawk, 50 mink, weasel or chicken hawk, cents: for every hawk or gray owl, 25

cents. Other bills: To legalize the harmless coloring of butter; to make corporations pay the cost of road building by placing upon them a special additional tax of one mill; to wipe from the stat-ute books all mechanics lien laws; forbidding teachers and school principals from making vaccinations a requirement or condition for children entering schools.
