Sailors' Side Lines. "Every sailor has a side line," he says. "Many an old shellback makes more out of his side line than out of punching sails and chewing ropes. Watch 'em come aboard for a long voyage. Here's one with a camera, plates and developer. He'll snap-shot spouting whales, icebergs, porpoises, wrecks, anything of interest that turns up, for such pictures sell to magazines and newspapers, and he'll photograph his mates at so much a head. Here's a man with \$5 worth of fine wool. He'll knit it all up into ladies' shawls during the voyage. With his skillful work he'll change it into \$50 worth of wool. The tattooed chap has a chunk of ivory. He'll carve it into little ships. He's very handy that way. The boy legged feller darns stockings and patches clothes. The cross eyed one shaves and hair cuts. As for me, I run a lottery."—New Orleans Times-Democrat.

The Potato.

The common potato was at the time of the discovery of America in cultivation from Chile, to which it is indigenous, along the greater part of the Andes as far north as to New Granada. It was introduced from Quito into Spain about 1580 under the name of "papa," which in Spanish it still bears. From Spain it found its way to Italy, where it became known as "tartuffalo," and thence was carried to Mons, in Belgium, by one of the attendants of the pope's legate to that country. In 1588 it was sent by Philippe de Sirry, governor of Mons, to the botanist, De L'Ecuse, professor at the University of Leyden, who in 1601 published the first good description of it under the name of "Papas peruanorum," and stated that it had then spread throughout Germany. Recommended in France by Caspar Bauhin, the culture of the tuber rapidly extended in 1592 through-out France Comte, the Vosges and Burgundy. But the belief becoming prevalent that it caused leprosy and fever, it underwent an ordeal of persecution from which it did not recover until three-quarters of a century afterward.

RHEUMATISM CANNOT BE CURED UNLESS URIC-O IS USED

Sudden Deaths, Heart Failure and Paralysis Are Caused by Poisonous Uric and Rheumatic Acids.

The disease whose cause is shrouded in mystery, the affliction that is said to be incurable, is commonly known as paralysis. Show us a person suffering with this disease, and you will find that at some time previous to the attack, the patient suffered from some form of Rheumatism. This dangerous disease should not be neglected, especially where there is a cure within such easy reach. We refer to Smith's Specific Uric-O, a harmless compound, free from alcohol and poison, and made to cure Rheumatism only. Uric-O acts with marvelous swiftness on the blood, muscles and kidneys, and cannot fail to remove all traces of poisonous Uric and Rheumatic acid from the system. Uric-O is not a cathartic, does not affect or distress the stomach, and is the only known liquid preparation that will relieve and permanently cure Rheumatism in its most distressing forms. We want all Rheumatic sufferers to test the merits of Uric-O, therefore by addressing the SMITH DRUG COMPANY, SYRACUSE, N. Y., a liberal size sample and circular will be sent free. Uric-O is sold by Druggists at \$1.00 per bottle, or will be sent direct upon receipt of price. Uric-O is sold in Emporium by L. Taggart. 321y.
