WHAT WESTERN CANADA DOES

Satisfactory Yields of Wheat and Good Prices. Dundurn, Sask., Sept. 30, 1906.

Mr. W. H. Rogers, Canadian Government Agent,

Indianapolis, Ind.

My Dear Sir: When you were at our place in July I promised to write you what my north quarter made per acre. You will remember it was all sown to wheat. Well, I finished threshing yesterday and received from it an average of 43% bushels per acre—testing 64% pounds per stroked bushel. The wheat is the best sample I have ever raised so uniform and even in size. may know it was a good sample when I tell you that I have already sold 2,000 bushels of it for seed to my neighbors. This year has been my best effort in farming during my life. My wheat totaled 9,280 bushels and my oats nearly 5,000.

If you remember I pointed out to you a half section lying just west of our house and joining my upper quarter on the south, which I said I should have in order to make one of the best farms in western Canada. I am very glad to be able to tell you that I now own that half section. My ambition now is to be able to market 20,000 bushels of wheat next year. If some of those good, honest Hoosiers could have been with me during the last two weeks and could have seen the golden grain rushing down the spout into my wagon and then could have seen it in great piles in my granaries, I feel sure they would have been forced to cknowledge there is no better farming country in the world than this. I may just say that I have done all my tarming with eight head of horses and one hired man except during harvest and threshing. This year I proved to my neighbor that the Hoosiers, when once "woke up," can raise grain equal to the best Minnesota farmers. His best yield was 421/2 bushels per acre, so you see "old Indiana" is holding the ribbon this year.

Yours very truly N. E. BAUMINK.

SOME WIVES ARE DIFFERENT.

Quiet Cynicism, or Good Honest Row -Which Is the Better?

"Most men." said the man of expert. nce, "think it must be awfully nice to have a wife who takes things as coolly as Dave Potter's wife takes them; but others, more discriminating, prefer a good honest row to her style of quiet cynicism. The way she behaved the other day when found a letter in Dave's pocket from a girl is an example of her method. 'I don't see,' wrote this girl, 'how

on earth I can ever live without you.' "Dave's wife read that gush, and a lot more just like it, without ever turn-

ing a hair.
"'Well,' she said, quietly, 'that girl is a fool. If she knew you as well as I do she would be wondering how on earth she could ever live with you." "And that, in the opinion of the discriminating few, cuts a whole lot

deeper than a common, everyday rum-

Expect Contest Over Will.

A contest is expected over the win of Mrs. Isabelle Beecher Hooker, sister of Henry Ward Beecher. Mrs. Katherine Burton Powers of Brookline, Mass., granddaughter of Mrs. Hooker, is expected to contest the will. The bulk of the estate which is estimated at about \$70,000, is given to the son of Mrs. Hooker, Dr. Edward B. Hooker of Hartford. Mrs. John C. Day of New York, daughter of Mrs. Hooker, receives nothing "because," according to the will, "she and her daughter are so amply provided for by the estate of her late husband."

Handsome Bridal Coach.

A bridal coach costing \$1,800 has been finished by a Bridgeport (Conn.) manufacturer for a liveryman at Pittston, Pa. The vehicle is upholstered, silk curtained, wood carved, gilt trimmed and has 20 hearts on it. large hearts for the dashboard and the rear springs are heart-shaped. Two Cupids surmount the lamps.

COFFEE THRESHED HER.

15 Long Years.

"For over fifteen years," writes a patient, hopeful little Ills. woman, "while a coffee drinker, I suffered from Spinal Irritation and Nervous trouble. I was treated by good physi-

cians, but did not get much relief.
"I never suspected that coffee might be aggravating my condition. I was downhearted and discouraged, but prayed daily that I might find something to help me.

"Several years ago while at friend's house, I drank a cup of Postum and thought I had never tasted anything more delicious.

"From that time on I used Postum instead of coffee, and soon began to improve in health, so that now I can walk half a dozen blocks or more with ease, and do many other things that I never thought I would be able to

do again in this world.
"My appetite is good, I sleep well, and find life worth living, indeed. lady of my acquaintance said she did not like Postum, it was so weak and tasteless.

"I explained to her the difference when it is made right-boiled accord ing to directions. She was glad to know this because coffee did not agree with her. Now her folks say they expect to use Postum the rest of their pect to use Postum the rest of the lives." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in does not get the proper oscillation.

CURING SELF SUCKING COW. Placing Bull Rings in the Nose Will Prove Effective.

Prof. W. L. Carlyle, while at the Wisconsin experiment station, vised a plan for breaking cows of the habit of either sucking themselves or sucking others. Prof. Carlyle's plan

Cure for Self-Sucking Cow

ing more than putting a bull ring through the cow's nose and suspending two other rings to this, as shown in the accompanying illustration. Prof. Carlyle found this plan to be effective with all cows upon which it

It is probable that some of our readers having trouble with cows which have acquired this habit will find something in the suggestion which will be helpful to him.

THE HEIFER AND HER CALF. Patience and Good Judgment Needed to Avoid Difficulties.

It might prevent much profanity in thought and word, and a great deal of impatience, if the dairyman and farmer, face to face with the unbroken heifer and young calf problem, would keep in mind this advice by an institute worker in the state of New York:

"Fix things so the calf can never suck its dam, and when the cow has mothered it a few hours—don't be in too great a rush about it-milk about three quarts of her milk into a pail, put it up under the calf's nose so as to touch it, and in a minute it will drink from the word go, and you have won out. A calf that has never sucked will drink as readily as it will get the hang of finding its own dinner. By the same rule a heifer should always be hand-milked, and then knows no other way. Let the calf run with her a few days, and then milk her, is, in her way of thinking, robbery of her calf, and you have to break her, which often is quite a vaudeville show, and often of somewhat unpleasant memory. From the start play that you are heifer's calf-and make her believe it; and to the calf, be its god of the feed dish, and the rest is a pleasant pastime."

By the way, these suggestions as to a calf's meal may be timely in this connection: One part pure ground flaxseed, two parts finely ground corn-meal sifted, two parts of finely ground oatmeal sifted, and the whole mixed; then boil and allow to stand for 12 hours, covered. Begin with one-fourth pound per day for calves a month old

new milk for the month previous,
and no solids. Increase the amount
of solids as the calf grows older, but not to exceed a pound a day. Keep fresh, second cutting of clover or alfalfa hay before it.

DAIRY NOTES.

To keep up the flow of milk always milk clean.

A really good cow will lose flesh rather than gain it when in full flow of milk.

A routine way of doing things saves much time, but we must improve that routine if we can.

Stop the churn as soon as the butter granulates if you want to work out all the butter milk. With a thoroughly good cow to man-

ufacture it we can always afford to put in feed and take out butter.

If the heifer calf is to become a good dairy cow she must be fed as though she were a good cow now.

All cows do not like the same kind of feed, neither will they do so well as they would on some other

Under present conditions the most profitable dairy cow is the one that helps you to make the most butter in winter.

kind.

Rich food makes rich milk: the best cow in the world will not give good milk unless she is given food

from which to make it. Butter will never grain finely in "coming" if the fat globules have previously been injured by overheating of the cream or too much violence

in churning. All milk vessels should be thoroughly cleaned, first being well washed. then scalded with boiling water and afterwards sufficiently aired to keep

them perfec y sweet.

Why utter Don't Come. In a majority of cases when butter does not come it is the result of one or two causes-either the thermome ter has not been used and the cream has been put into the churn too cold, or too much has been put in and the churn is overloaded, so that the cream TWICE-TOLD TESTIMONY.

A Woman Who Has Suffered Tells How to Find Relief.

The thousands of women who suffer backache, languor, urinary disorders and other kidney ills, will find comfort in the words of Mrs. Jane Farrell, of 606

Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy

backaches, and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. To-day, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

How to Sleep in a Blanket.

There are a great many very comtent treatises telling you how build your fire, pitch your tent and all the rest of it. I have never seen des-cribed the woodman's method of using a blanket, however. Lie flat on your back. Spread the blanket over you. Now raise your legs rigid from the hips, the blanket, of course, draping over them. In two swift motions tuck first one edge under your legs from right to left, then the second edge under from left to right, and over the first edge. Lower your legs, wrap up your shoulders and go to sleep. If you roll over one edge will unwind but the other will tighten.—Stewart Edward White in Outing.

A Big Bargain for 12 Cents Postpaid. The year of 1906 was one of prodigal plenty on our seed farms. Never before did vegetable and farm seeds return such enormous yields.

Where It Hurt Most. "Young gentlemen," said the college president, notwithstanding the fact that he was addressing the students, "young gentlemen, hazing must be stopped and stopped at once. It has injured the college more than any of you ever could guess. Only last of you ever could guess. week a gentleman declined to give us \$1,000,000 because there was so much hazing. Hazing is a bad thing financially.' "How about morally?" asked the

"Aw-aw, really, there may be some thing in that, but-aw-the-the point has never come up, and I-aw-am not prepared to answer. But the point is worth considering."—Chicago Jour-

Proof of Merit.

The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Allcock's Plasters during the past sixty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

Allcock's are the original and genuine porous plasters and have never been equaled by those who have sought to trade upon their reputation by making plasters with holes in them. Avoid substitutes as you would counterfeit money.

Hardly Likely.

Andrew Carnegie tells a story to illustrate that a Celt is always a Celt in Scotland as well as in Ireland. In a sermon preached in a small church in Glasgow the pastor, after inveighing against slothfulness, said, by way of climax, "Do you think that Adam and Eve went about the garden of Eden with their hands in their pock-

Inducement to Undertakers. The following advertisement appeared in a paper of a small town in

Colorado:

"For Sale-An old established, well paying undertaker's establishment. The city is in a very unhealthy location, where the mortality is very great. There is only one doctor in the whole town. The deaths from fever alone pay the expenses, and the rest is clear profit. There is no competition."—Judge.

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done," In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily

the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back sches, there are dragging down pair

of an injurious character, which indulge in extravagant and unfounded pretensions to cure all manner of ills, and the

National Legislation Enacted to Restrict Their Sale have established more clearly than could have been accomplished in any other way

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component/parts be know approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co. plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
