WHY THE NEWSPAPER COL-UMN TAKES FIRST RANK.

STATEMENTS OF AN EXPERT.

He Gives Three Excellent Reasons for His Assertions-Largest and Quickest Returns.

By Louis Wiley.

(Portions of an address before the Twenty-third street (N. Y.,) Young Men's Christian Association class in advertising. Mr. Wiley's long experience as advertising manager of the New York Times enables him to speak from experience.)

Newspaper advertising is the most desirable of all advertising for at least three reasons:

First-It is the cheapest advertis ing known. This is to say, it reaches more people in proportion to the money expended than any other kind of advertising.

Second-It is the quickest in re m sults.

Third-A newspaper is the most natural or appropriate place for advertising.

A more important reason why news paper advertising is best of all is be cause it produces the quickest results. One reason for this is because the people have been educated by the newspapers to prompt action in re sponding to an advertisement. A very large proportion of the advertising in the newspapers, notably the retail store and small classified advertising, must be responded to promptly on account of its nature, and this, as I say, has educated the people to quick action, and, besides, this is an age where time is the most valuable of all commodities, especially to those who are managing an advertising campaign. The greatest period of time between the beginning of an advertising campaign and that happy, or perhaps unhappy occasion when the results are figured up, the greater the opportunity for something to go wrong—for the factory to burn to the ground.

For Good Roads.

That the legislature is intent upon providing means for the building of good roads in Pennsylvania is evident from the fact that when Representa tive Wickersham, of Dauphin, offered an amendment the other day to the Moore constitutional amendment resolution so that the state might issue \$50,000,000 instead of \$25,000,000 worth of bonds for road-making purposes, his proposition met with general approval. There were some, however, who were inclined to believe that the funds for this purpose should come from direct taxation, and for that reason the resolution and amendment were referred back to the committee in order to give the subject further consideration. Including this resolution there are bills for road improvement now pending which, if all were passed, would provide something like a total of \$65,-000,000 for good roads in the state. The American Road Makers' conven-tion in Pittsburg last week greatly stimulated the interest in good roads for Pennsylvania. It is the opinion that extensive road improvement will do the general public more good than anything that can be undertaken.

these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus affected: "I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good nights sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue.
