Rest is a great restorer. We tire our muscles by exercise and then rest to restore them; yet a great many of us do not stop to think how little rest we give to our stomachs. As a usual thing no part of our bodies is so generally overworked as our digestive organs. A tired and overworked stomach will give signs of distress to which we pay no heed until at last Dyspepsia takes hold. Indiges-tion is just a warning, and if we heed the warning we can easily avoid further consequences. KODOL is a most thor-ough stomich relief. It digests what you eat and gives the stomach the needed rest and greatly assits in restoring it to its normal activity and usefulness. KODOL is sold on a guarantee relief plan. It is sold here by R. C. Dodson.

OVER FIVE MILLIONS form primary law last year, which goes to show that there is no demand for it in the country. An amendment allowing boroughs and townships the privilege of choosing either the old or the new law was knocked out in So Experts Say, Is Total of Graft the house, but another effort in this direction is likely to be made when in Furnishing of New State the bill gets before the senate.

The auditors who have been going over the contracts and accounts con-

to make a complete report. Their work has been stupendous. Even

has in its employ quite a number of

experts who have been making a careful and detailed examination of

the entire building for the purpose of ascertaining the actual value of

the furnishings. These experts are being paid \$50 a day for their serv-

ices. The results will show that the money spent in this way is a wise

investment. It is through the work of these experts and auditors that the

commissioners have been able at this stage of the investigation to make a

good guess as to the total amount of the overcharges and stealings.

Relief for Veterans-Perhaps.

There is a lot of squirming over the Cochran pension bill which, if it be comes a law, would cost the state about \$5,000,000 a year. If this measure should be passed it would deprive some of the large institutions of the state of a large share of their ap-propriations. It is not intended to raise the revenues any more than can be henced, and it is also desired to keep about \$10,000,000 in the state treasury. As there are cortain fixed treasury. As there are certain fixed expenses to be met each year it requirs little figuring to learn that if \$5,000,000 is to be spent on pensions in addition to the other appropria-tions something or somebody is going to suffer. It is a ticklish bill to oppose. Legislators have been be-sieged by old soldiers and their friends to pass the bill. It is desired to increase the school

appropriation to the extent of about \$3,000,000, and it is also desired to increase largely the good roads ap-propriation, which is regarded as highly necessary. The house has killed several big revenue producing measures, and unless money is forthcoming from other sources it will be impossible to give the old soldiers the \$5,000,000 a year which they are ask-Will Boom Trolley Lines.

The trolley eminent domain bill having passed the house is now on its way through the senate with prospects favorable to its final passage As amended this bill provides that all companies taking advantage of the new right must become common carriers of express matter and light freight. It is expected that when this bill becomes a law many new trac-tion lines will be built in the state.

To Encourage Breeders. The Ambler bill providing for the registration and publication of the pedigree of any stallion, bull, ram or boar kept for sale or exchange, and which is represented to be pure bred, is likely to become a law. The purpose of the bill is to improve and encourage stock breeding and to pre-vent farmers and stock raisers from being swindled by anyone who may have been accustomed to "live by his wits." Anyone who shall fraudulent-ly represent any animal as thoroughbred or who fails to have such animal registered as required by the act, or who otherwise may violate the pro-visions of the act is subject to a fine of \$100 and imprisonment in the county jail for 30 days.

An Unpopular Measure.

Among the numerous bills that have been introduced whose purpose is to raise money for road purposes is one levying a tax on all traction engines. The measure is hardly likely to pass for the reason that there are other good roads measures much more popular than this one. These traction en-gines are much needed by farmers, and a tax on them would mean just that much out of the farmer's pocket. Objection has been raised to them be-cause they frighten horses, but when It comes to this automobiles are more objectionable and more numerous by

far than the traction engines. There seems to be a good deal of sentiment in favor of the joint reso-lution proposing an amendment to the constitution so as to provide that female residents may vote for school directors or officers and upon all questions relating to the maintenance and regulation of the public schools. It is regulation of the public schools. It is argued in its favor that as a rule mothers take a greater interest in the education of the children than the fathers for the same reason that they look after their personal inter-ests more and for that reason women should be at least as well qualified as men to vote for school directors or upon all subjects relating to the

Reports have been received here that several railroad companies, the Pennsylvania and Reading in particular, will refuse to comply with the two-cent maximum fare law when it goes into effect September 30. It is said that they will do so on the plea that they have special charter rights which antedate the constitution of 1873, the provisions of which they never have accepted. Legislators who were responsible for putting the two-cent bill through intend to block

the game of the railroads. They propose putting through the Hulings bill, which provides that the state tax on all railroad companies shall be raised from five to ten mills after the first of next year, and exempts from the increase those which file formal acceptance of the terms of the consti-tution so that they will continue to pay the present rate. It will not pay the Pennsylvania or the Reading to get gay if the Hulings bill becomes a

Lydick Bill's Prospects.

A fight against the Lydick primary election bill is certain to be made when that measure reaches the sen-ate. The bill makes it compulsory for boroughs and townships to hold pri-mary elections. Some of the country legislators want boroughs and town-ships to have the option of accepting either the new or old law governing primary elections. They contend that because corruption at elections in the cities has made such a law necessary for them is no reason why it should apply to boroughs and townships. It is contended that in many boroughs and townships all parties get to-rether an put up a ticket, thus say ing the expense of a primary election. It is also argued that very few bor-oughs and townships accepted the uni-

schools. The plan is in use in some places, and it is urged that a general law on the subject would be all right.
