The balmy air of Spring has at last reached this latitude.

The crowd of fishermen multiply each succeeding day and stories do to.

E. P. Councilman is looking on every train for his new auto. His customers will be reached more frequently when his new conveyance is installed. We will not be surprised if he enjoys some "fair" company when going on long trips.

Bitten by a Spider. Through blood poisoning caused by a spider bite, John Washington of Posqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Heals every sore 25c at druggists.

Origin of Two Familiar Proverbs. It was the habit of the great Greek painter Apelles never to let a day pass, however busy he chanced to be, without practicing his hand by tracing the outline of some object, a custom which has now passed into a proverb—"No day without a line." He also made it a rule, when he had finished a canvas, to exhibit it to the view of those who visited his studio, while he himself, hidden behind the picture, would listen to their comments. It is said that once a shoemaker censured him for having painted a pair of shoes with one latched too few. Next day the shoemaker, revisiting the studio, saw that the painter had corrected the mistake. He then began to criticize the leg of the portrait, upon which Apelles came forward and reminded him that a shoemaker should not go beyond the shoes, a piece of advice which has also crystallized into a proverb, "Let the cobbler stick to his last."—Pliny the Elder.

At Sea In a Coffin. It was the French assassin Lupi who escaped to sea from Cayenne in a coffin. He managed to get some nails, tar and cotton, and one dark night he got into the coffin shed. He selected a fine, stanch and seaworthy coffin and fastened the lid in order to turn it into a deck, leaving a cockpit sufficient to enable him to crawl in. He calked all the joints as well as he could, and when this work was finished he made a pair of paddles out of two planks. Then he brought out his craft with great precaution. Without much difficulty he reached the water's edge. Silently and slowly he proceeded in the hope of reaching either Venezuela or British Guiana, 150 nautical miles distant. Fortunately or unfortunately for Lupi, the steamer Abeille, returning from the Antilles, off Paramaribo picked him up, half drowned and almost in a fainting condition, and a few hours later he was in irons in his cell.

The Battered Hobbyhorse. A scoured and battered hobbyhorse, with one eye missing, its tale and mane reduced to ragged wisps of hair and a little leather saddle worn almost to fragments on its back, formed a part of the baggage carried by an aged couple in the Union station waiting room at St. Louis the other evening. It captured the interest of a crowd that gathered. The old man listened to the comments, some of them unkind jests. Then he spoke, almost in a tone of apology. "We're going to Texas, and we couldn't leave it behind," he explained. "You see, it belonged to our little boy that's dead. He used to set a night's store by that old horse, and now it's all we've got to remember him by. We kept it all these years back in Indiana, and then when things got bad and our daughter down in Texas sent for us, why, we just packed up and started. Had to leave lots of things back there, but not that. We couldn't leave that, could we?" He turned to his wife. "No; we couldn't leave the horse," she said.—St. Louis Globe-Democrat.

Pneumonia's Deadly Work.

Had so seriously affected my right lung," writes Mrs. Fannie Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles. New Discovery, the real cure. Guaranteed by all druggists. 50c and \$1.00. Trial bottles free.

SHORT TALKS BY L. T. COOPER.

RHEUMATISM

Old Mr. Rheumatism hangs on tight and bites and pinches when he takes hold. It's quite a job to shake him off. It's hard to believe that all the pain and trouble he causes comes from such a little thing. Just a tiny bit of acid in the blood, the kidneys haven't taken care of. But the kidneys aren't to blame. I used to think they were. Now I know better. It's that over worked and over crowded stomach giving the kidneys part of its work and the kidneys can't do it. I found this out with Cooper's New Discovery. It puts the stomach in shape, that's all it does, and yet I have seen thousands of people get rid of rheumatism by taking it. That is why I am positive that rheumatism is caused by stomach trouble. Here is a sample of letters I get every day on the subject.

"For a long time I have been a victim of sciatica and inflammatory rheumatism, and my suffering has been too great to describe. For weeks I lay helpless with every joint in my body so tender and sore that I could not bear to move. The slightest touch would cause me the greatest agony. Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less and gradually my strength left. I lost flesh rapidly."

"I began the use of the famous Cooper medicines of which I heard so much. To my surprise and delight I improved immediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months."—Lawrence Tusany, 1122 Aldrich Ave., North, Minneapolis, Minn.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—sucks blood pressure away from pain centers, its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend
