BACKACHE IS KIDNEYACHE

Cure the Kidneys and the Pain Will Never Return.

Only one way to cure an aching back. Cure the cause, the kidneys. Thousands tell of

languid, nervous and lame in the morning. Doan's Kidney Pills helped me right away, and the great relief that followed has been permanent." Foster-Milburn Co., Buffalo, N. Y.

Sold by all dealers. 50 cents a box.

Not So Long.

There was so much ceremony connected with a church cornerstone laying in New York city a few weeks ago that the moving picture machine man felt warranted to take a couple of miles of photographs.

These pictures proved to be very good, and large crowds were delight ed with the exact reproduction of the dedicatory exercises.
"I like the moving pictures better

than I did the original service," con-fessed a prominent member of the congregation "You do," gasped a devout elder.

"I'm surely pained to hear you say so. Why should you prefer the pictures? "Because the picture man," an-swered the prominent member, pleasantly, "cut out all the sermons."

SPECIAL TRAINS.

National Editorial Association and Christian Endeavor Conventions.

Personally conducted special trains via the Chicago, Union Pacific & North-Western Line leave early July for the Pacific Coast. Special all-expense tours at very low rates for round trip, including sleeping car accommodations, meals, etc. All the advantages of a delightful and carefully arranged tour in congenial company. Write for itineraries and full particulars. S. A. Hutchison, Manager Tourist Department, 212 Clark Street,

His Favorite Descent.

"But why don't you care to take children?" asked the lady who was hunting for a flat. "Because they take up too much room in the elevator," grumbled the despotical janitor.
"Well, my little boy won't use the elevator. Will that satisfy you?"
"No; if he don't use the elevator he will scratch up the steps every time he comes down." "But he won't come down the steps." "What? He won't slide down the steps?" "No; he will slide down the banisters."

To improve the general health, take Garfield Tea daily for a time; it purifies the blood, eradicates rheumatism and many chronic ailments and keeps the health good. Garfield Tea is made of herbs; it is guaranteed under the Pure Food and Drugs Law. Garfield Tea Co., Brooklyn, N. Y.

WEAK PEOPLE

MADE STRONG AND ENERGETIC BY DR. WILLIAMS' PINK PILLS.

General Breakdown Caused by Defi-cient Blood Quickly Corrected by This Tonic Remedy.

A feeling of general weakness, poor appetite, loss of breath after the slightest exercise and broken sleep are some of the symptoms of general debility. You may think that they have no relation to each other and that you will worry along, hoping all the time to feel better

to each other and that you will worry along, hoping all the time to feel better soon. This is a mistake, for every one of the symptoms is caused by bad blood, which must be made pure and new before health will be restored again. A tonic treatment is necessary and for this purpose there is no better remedy than Dr. Williams? Pink Pills.

Mr. J. G. Havey, of 95 Willow St., Chelsea, Mass., says: "I was sick for a number of years from general debility and indigestion. I was never free from stomach trouble and my nerves were so shattered that the least excitement unfitted me for any serious work. My sleep was restless on account of terrible pains in the small of my back. These pains would sometimes last for a month or two. My sight grew weak, there seeming to be a blur constantly before my eyes. I couldn't concentrate my mind on my work, and the attempt to do so completely exhausted me.

"I was finally forced to give up a position I had held for twenty-eight years. After trying several medicines without help, I read of Dr. Williams' Pink Pills and gave them a trial. They made me feel so much better and so much stronger that I started in business for myself here in Chelsea. I have never had a return of my former sickness and cheerfully recommend Dr. Williams' Pink Pills as an excellent tonic remedy in cases of indigestion and gen

Dr. Williams' Pink Pills have long been recognized as an excellent tonic remedy in cases of indigestion and general debility, where the stomach and other organs of the body are weakened and disordered simply through lack of proper nourishment. They have also been especially successful in curing anaemia, rheumatism, after-effects of the grip and fevers.

A pamphlet on "Diseases of the Blood" and a copy of our diet book will be sent free on request to anyone inter-

ested. Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

SHED PROTECTION FOR BARN.

Floor Joists Extended Six Feet Beyond Sides of Barn to Support Roof.

sketch of his method of attaching a shed roof to the side of his barn in such a way that it protects the doors and enables the owner to pass from one door to another without being obliged to expose himself unduly to severe weather, says Prairie Farmer. When the barn was built the correspondent says that he had the floor

joists extended six feet on the outside of the barn so as to enable him to erect this shed roof, as shown in the illustration. Rafters were used to connect the outer end of this joist with the siding so as to permit a half pitch roof. He is well pleased with the idea.

BETTER HIGHWAYS.

The Use of Tar and Oil in Road Improvement.

In all parts of the civilized world testing various materials that can be used in road improvement. In most countries the matter of road dust is something that excites the concern of people. It is one of the great inconveniences of living in the country. In the United States the country roads are all wide and all have more soil uncovered by verdure than in perhaps any other country. These wide roads give a large surface for dust production and in some localities the dust blows in clouds from the roads, till the verdure is anything but green. It gets into the houses and permeates every nook. To get rid of this nuisance is a task worthy of our best thought.

Some road experiments have been in progress in the neighborhood of Jackson, Tenn. Most of the tests were made on roads in the city, but some also on the neighboring country roads. The tar was applied during hot weather to the repaired, cleaned and thoroughly dried surfaces of roads in and near the city. The tar was kept at a temperature of 200 degrees while being conveyed over the roads in a tank wagon, from which it was distributed over the road surface by a hose with a special nozzle and spread evenly in a thin layer by laborers using stiff brooms. The tar was absorbed by the road in eight or ten hours, after which a light coat of sand or screenings was evenly spread over the surface and the road rolled by a steam roller. The average amount of tar used per square yard was 45 hundredths of a gallon. The labor cost less than one-tenth of a cent per square yard. These roads stood well for at least seven months, says Farmers' Review. The tar surrounded the stones and gravel and formed a hard surface about one to two inches in thickness.

In other places some experiments have been made with oil and tar, both of which are fairly good under right conditions. On the dusty country highway, however, the oil is too light for permanent results, but tar proves to be very effective wherever used.

BEANS AND CORN FEED.

It Makes an Excellent Combination

This is an excellent combination in pig feeding. Beans strong in protein and corn in fat. Young hogs thrive rapidly on such a combination. Prof. Shaw has this suggestion as to the preparation and feeding of beans. He

"Beans can be fed to swine only in the cooked form. The pig seems to be unable to utilize beans which are at all hard or firm, even though they have been boiled for some time, hence it is very essential that they be thoroughly cooked. To supply a single feed of half-cooked beans to a pen of hogs, robs them of their apetites and relish for their food, if indeed it does not put them off feed. The cooking should be conducted in an even more careful manner than it would be in preparing them for human food. materially shorten the cooking period and give better results, if the beans are soaked an hour or two, or better, over night, before the cooking

proper is begun. "Pails used should be rinsed after each feeding and especial care should be taken to clean the kettle or barrel after each cooking and not allow sour or moldy material to collect about the food receptacle. More than one case of supposed hog cholera has been traced to ignorant or careless neglect in allowing eld swill to accumulate in a barrel instead of emptying the bar-rel each time before the new material is dumped into it."

Harrowing the Corn.

It won't hurt the corn to harrow it until it is three or four inches high, that is, if too much trash or corn stalks have not been left in the ground.

THE NEW INSURANCE AGENT.

He Comes in With the New Law-Paul Morton on His Opportunity.

The new insurance law of the State of New York has opened up a promis ing field for both men and women with brains and energy in the sale-of life insurance. The law now provides standard forms of policies, each of which practically bears the hall mark of the State of New York, and this new order of things has established the sale of life insurance on a correct

The prohibition against rebating and extravagant allowances to agents has driven out of the business the old type of insurance agent, who in many cases virtually bought business, with large rebates, instead of selling it. His place is being taken by professors, lawyers, school teachers of both sexes, and others, who find that being a life insurance agent under the new system offers greater reward than their previous vocations. The law has reduced commissions but all of the commission now goes to the agent. Life insurance is something that everyone needs and under the present system its sale is being conducted with becoming dignity and propriety.

Paul Morton, president of the Equitable Life Assurance Society, has taken the lead in building up an agency or ganization that is in keeping with the demands of public sentiment, and the standard he has set for his company. "We want new agents, both men and women, but none except energetic, able and truthful people need apply. For such there is a splendid opportunity."

Mr. Morton's policy of injecting new and vigorous blood into the agency force of the Society is meeting with success in all parts of the country.

"Tainted Money" No New Thing.
"'Nay, nay, nay!' said the arche

bishop, waving a white, jeweled hand as the chief began to divulge some of his larger plans. 'Tell me not of thy wicked schemes! Thy methods I must condemn utterly, but if thou bringest me the money, well, I can at least see to it that it be not used for bad pur-poses. And speaking of money, we need for the walls of the apse a hundred bags of gold. Dost think thou

couldst manage it?'
"'Ay,' said the Gentle Robber, and that night he despoiled nine men, killing three that resisted longest, for he was a great lover of holy church and a devout believer, nor could she ask of him any service that he would not perform."—"The Gentle Robber," in McClure's.

Ghosts of Dead Lakes.

In the great basin between the Rockies and the Sierra Nevadas lie the ghosts of many dead lakes. Rivers still flow down to the dry edge of these one-time great reservoirs and are licked up by evaporation and the chinook winds. Of all the lakes that once lay there, only Great Salt Lake, Lake Tahoe and Bear Lake are left. The Southern Pacific rolls for 165 miles across the bed of what was once Lake Lahontan, and the passengers gazing idly from the windows may see the terraces and wrinkles in the crust of the fossil lake which nature robbed and defrauded of its crystal treasures ages ago.-Exchange.

"I do play in tough luck sometimes," declared the impecunious girl. night, you remember how it rained. I happened to be in the neighborhood of some friends of mine whom I had not seen since the last hard rain. I concluded to call. Before they asked me in they grabbed the umbrella I carried, hurried across the room with it, placed it in a closet there and locked the door on it. "Thank heaven!" they cried. "At last! Our long lost umbrella!"

DR. TALKS OF FOOD

Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgment, a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several yeas with malnutriton, palpitation of the heart, and loss of sleep. Last summer I was led to experiment per with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were proper ly carried out and I again slept as

soundly and as well as in my youth.
"I look upon Grape-Nuts as a per fect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feeding Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufac-tured and may thereby know the facts as to its true worth." Read, "The Road to Wellville," in pkgs. "There's a

One Hundred Years Ago.

Gen. Zebulon Pike was discovering the peak that bears his name. "The reason why I know I'm the first white man that ever saw it," he said, that it hasn't got any patent medicine signs on it." Regretting that he couldn't spare the time to stop and discover the gold that lay hidden around him, he took a parting look at the snowy summit of the peak and resumed his tollsome march.

Seven Billion Gallons of Milk. The 7,500,000,000 gallons of commer cial milk annually consumed repre sents an enormous white river pouring across the U. S. in every direction and yet few people realize that it is fast becoming a veritable river Styx, for it is so disease laden that millions of people are day-by-day drinking disease in various forms from this greatest of disease-spreading agents. Chiefest among these diseases is Consumption Health office reports show that 25% of the Dairy Cows have Bovine Tubercu-losis and through the milk and meat are dealing out Consumption to the people at an alarming rate. An effec tive remedy is recently claimed in the simple feeding Rasawa in small doses to the cattle. The remedy is cheap and a few cents worth procured at any Drug Store will render a cow entirely immune is the claim made in a free pooklet issued by The Mutual Mercantile Co., Cleveland, O. Ask your Drug gist for a booklet.

"Whiskers."

"Whiskers" was a word formerly used to designate the hair on the upper lip. Scott more than once speaks of "whiskers on the upper lip" and so does Defoe in "Robinson Crusoe." Johnson defined a "whisker" as the hair growing on the upper lip or cheek unshaven; a mustachio." It seems to have taken its name from a fancied resemblance to a small brush, to "whisk" properly meaning to sweep and a "whisker" having been a particular • kind of feather brush—also, in the slang of a former time, a switch or rod. In the seventeenth century a "whisker" signified among other things a brazen lie, a "whopper."

BABY ITCHED TERRIBLY.

Face and Neck Covered with Inflamed Skin-Doctors No Avail-Cured by Cuticura Remedies.

"My baby's face and neck were covered with itching skin similar to eczema, and she suffered terribly for over a year. I took her to a number of doctors, and also to different colleges, to no avail. Then Cuticura Remedies were recommended to me by Miss G-I did not use it at first, as I had tried so many other remedies without any favorable results. At last I tried Cuticura Soap, Cuticura Ointment and Cuticura Resolvent Pills, and to my surprise noticed an improvement. After using three boxes of the Cuticura Ointment, together with the Soap and Pills, I am pleased to say she is altogether a different child and the picture of health. Mrs. A. C. Brestlin, 171 N. Lincoln St., Chicago, Ill., Oct. 20 and 30, 1906."
