Miniature Marvels.
Almost any commonplace object magnified under a good lens will reveal astonishing and unsuspected form, structure and life. For instance: Insects of various kinds may be seen in the cavities of a grain of sand. Mold is a forest of beautiful trees, with branches, leaves and fruit. Butterflies are fully feathered. Hairs are tubes filled with pith and ornamented on the outside with scales. The surface of the human body is covered with scales like a fish. A single grain of sand would cover 150 of these scales, and yet a scale covers about 500 pores. Through these narrow openings the perspiration forces itself like water through a sieve. Each drop of stagnant water contains a world of creatures swimming with as much freedom as whales in the sea.

"Crossing the Bar."
"Crossing the Bar," Tennyson's biographer says, "was written in the poet's eighty-first year, on a day in October when we came from Aldworth to Farringford. Before reaching Farringford he had the moaning of the bar in his mind, and after dinner he showed me this poem written out. I said, 'That is the crown of your life's work?' He answered, 'It came in a moment.' He explained the 'Pilot' as 'that Divine and Unseen who is always guiding us.' A few days before his death he said to me, 'Mind you put "Crossing the Bar" at the end of all editions of my poems.'"

He Did What He Could.
"I hope my little Tommy has taken to heart mamma's talk of last night about charity and usefulness," said a fond mother. "How many acts of kindness has he done? How many hearts has my Tommy made grateful and glad?"

Her Tommy replied:
"I've done a whole lot of good, ma. I gave your new hat to a beggar woman, and I gave the cook's shoes to a little girl in busted rubbers what I seen on the street, and I gave a poor lame shoestringer seller pa's black evening suit, the open front one that he hardly ever wears."

His Dilemma.
Photographer—You are all right now except your expression. Please look pleasant. Jay Green—Hang it, man, I can't! I'm bowlegged an' am trying to hold me knees together so's it won't show. When I smile, I forget all about my knees, an' when I pay attention to my knees I forget to smile.—London Tit-Bits.

Up to Date Diction.
Angel Child—Father, what is meant by the phrase, "Back to nature?" Facetious Father—Oh, that expresses a man lying under his motor car to see why it won't go. Angel Child—Oh, I thought it meant a man falling from his balloon.—St. Louis Republic.

The Judge Uses Forceful Language.
Judge W. B. Simmons, of Fineastle Va., told the reporter that L. & M. Paint was used on his residence in 1882, and held in color well for 21 years he furthermore said that 3 years ago he was induced to use another paint and is sorry he did, because the other paint didn't make good. The Judge will now always use L. & M., because he knows it any defect exists in L. & M. Paint the house will be repainted for nothing.
The L. & M., Zinc hardens the L. & M., White Lead and makes L. & M. Paint wear like iron from 10 to 15 years. Actual cost of L. & M., about \$1.20 per gallon.
Donations of L. & M., made to churches.
