The way to get rid of a cold, whether it be a "bad cold" or just a little one, is to get it out of your system through the bowels. Nearly all Cough Cures, especially those that contain opiates, are constipating. Kennedy's Laxative Cough Syrup contains no opiates and acts gently on the bowels. Pleasant to take. Sold by R. C. Dodson.

Occasional headache, belching, bad taste in the mouth, lack of appetite and slight nervousness are symptoms of indigestion which, when allowed to go uncared for, will develop into a case of dyspepsia that will take a long time to get rid of. Don't neglect your stomach. At the first indication of trouble take something that will help it along in its work of digesting the food you eat. Kodol for Indigestion and Dyspepsia will do this. Kodol will make your food do you good and will enable you to enjoy when you eat. Sold by R. C. Dodson.

**A Paper's "Tooth"**

is the trade name, which is used to indicate the slight roughness of the surface, which to some extent retards the sliding of the pen upon the page.

On paper that is too smooth the pen runs away, and the writing surface is not satisfactory.

**Eaton's Highland Linen**

has just the right amount of "tooth." The pen glides easily but not too rapidly. Many styles of hand-writing appear to best advantage on this paper.
