Waning Lumber Industry.

Milton O. Nelson, writing on "The Lumber Industry of America," in the Review of Reviews for November, says:

"A few American citizens are still living who were alive the days when the Indians and Ohio pioneers were cutting great clear-grained black walnut, white oak and hickory logs, piling them and burning them to ashes in order to get rid of them. Farm houses are still standing in the Ohio Valley whose tenoned frames are of black walnut, and whose roof boards are of wide clear lumber, such as is now sought for to be made into king's table tops. Black walnut lumber in American commerce to-day is little more than a memory, white oak in the finer finishing grades is worth half the price of mahogany, and the American vehicle industry is in distress for the lack of hickory. Even in sawmill cities of the present day the lath from the walls of wrecked houses is carefully cleaned and banded for resale, while half decayed pine logs are sawed into merchantable lumber.

"Thus in the span of one life the American lumber industry has passed from surfeit to hunger. Such another span promises to carry us from hunger to starvation.

CURE YOUR KIDNEYS.

Do Not Endanger Life When an Emporium Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backaches, urinary disorders, lameness, headaches, languor, who allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Emporium testimony.

Mrs. Frank Mundy, living on West Fourth street, Emporium, Pa., says: "Since using Doan's Kidney Pills which I procured from L. Taggart, the druggist, I am feeling ever so much better. My kidneys were very weak and I was obliged to rise many times during the night. I suffered with dull nagging backache and splitting headaches. Pains would dart through the small of my back, and at times my feet and hands would bloat, so that I was in constant misery. When I learned of Doan's Kidney Pills I decided to try them. I obtained great benefit from the use of this remedy, for they regulate the kidneys and drove out the pains and aches in my back and head. I cheerfully recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

PENNSYLVANIA RAILROAD

Bulletin.

THE NEW UNION STATION AT WASHINGTON.

All the passenger trains of the Pennsylvania Railroad will enter and depart from the new Union Station at Washington on November 17, 1907, and on the same date the present station at Sixth and B Streets will be closed to traffic.

The date is singularly fitting. In 1807 both wings of the Capitol were completed, and now a century later a building even larger is opened for a great public utility, which did not exist at that time.

The railroad terminal facilities at Washington have been inadequate for years, particularly at inauguration periods and on the assemblage of other large gatherings at the Capitol. Their improvement was imperative and so it has come about that, by the combined effort of the railroads and the United States Government, one of the largest and unquestionably the handsomest railroad station in the world is now provided not only for the convenience of the citizens of the United States, but as a notable architectural addition to the great public buildings of the Capitol City. It is a monumental edifice and a worthy type of the future structures, which will make Washington the municipal beauty spot of the world.

The station including the Concourse is longer than the Capitol and nearly as wide. The waiting room is larger than the hall of the House of Representatives. The concourse, which is the train lobby, is longer than the interior of the Capitol building, if it were one continuous hall, and half as wide. It is the largest building ever constructed for a like purpose.

Within this great structure there is every convenience the traveler can desire, so grouped about the central hall as to serve the purpose of the best advantage.

The lofty arched entrances face a plaza as large as an ordinary city park, which will be laid out as a plaza and adorned with shubbery and fountains.

The trackage is sufficient for all demands upon it and as the entrance to and exit from the trains are separated, the confusion and jostling of hurrying crowds moving in opposite directions will be obviated.

The bigness of the station is impressive; its utilities obvious. No. 1302-39-2t.
