## Coming, Nov. 27.

"Sis in New York" is the title of the offering which comes to the opera house on above date. Don't miss it.

## Hill Notes.

Judges Hall, LaBar and McDonald are holding argument court to-day. The Jury Commissioners, Messrs. John A. Wykoff and N. P. Minard are also in session to-day, filling the jury wheel for the murder trial.

There is said to be more fun stored up in the new play, "Sis in New York" than in any that she has had. There is plenty of chance for good comedy and her playwrights have proven in the past that they know how to supply the Hoosier funmaker with plenty of opportunity. If you are there when her and Zeke show Pierpont Margan how they dance in Posey county, Indiana you will get your moneys worth. "Sis in New York" comes to the opera house, for one night only, Wednesday, Nov. 27.

## Government "Regulation" of Agriculture.

Currants of the dried, seedless variety grow only in Greece, where they form about 65 per cent. of the total value of the country's production. To protect the consumer, laws have been promulgated by the Greek government making it a crime punishable by heavy penalties to pick the fruit before it is ripe, or pack it before it is thoroughly dried and cleaned. The immediate result will be further to improve the quality of currants, for which the world-wide demand is constantly increasing.

Great Britain annually consumes over three pounds of currants a head. Here, where the nourishing and wholesome qualities of currants are not so well known, we eat only about half a pound a head. The larger consumption in England is partly due to the fact that Sir Francis Laking, King Edward's physician, and other celebrated dietitians have all joined in recommending as an ideal food for daily consumption.

## DEATH'S DOINGS

## SCHWEIKART.

Adolph P. H. Schweikart aged 29 years, a nephew of Peter Schweikart of this place, died of empyema brought on by consumption at the residence of his parents, No. 7326 Monticelli St., Pittsburg, Pa., early last Friday morning. The deceased had spent the summer on the Schweikart farm on Sizer Run in an attempt to regain his health. He was employed as chief draughtsman in the Carnegie steel mills at Sharon, Pa., but had not been at his work for about six months. The funeral service was held in the St. John's German Lutheran Church at 2:30 p. m., last Sunday, interment in Alleghany cemetery.

## MCWILLIAMS.

Mrs. Elizabeth McWilliams, aged 80 years, mother of S. A. McWilliams, of Driftwood, died in Williamsport hospital last Saturday, after a long illness. Her remains were brought to the residence of her son at Driftwood, the funeral being held from M. E. church on Tuesday afternoon, Rev. N. E. Cleaver of Emporium, officiating. Deceased was the daughter of Alexander and Ellen Kirwood, and was born in Hollywood, County Down, Ireland, Dec. 28th, 1826. She has been a member of the Presbyterian Church since she was 18 years old; was married to Samuel McWilliams in 1863; came to America in 1864, and has been a resident of Driftwood since 1869. Her husband was killed in 1886 by an avalanche. She is survived by a son and one brother.

## THE NEW UNION STATION AT WASHINGTON.

All the passenger trains of the Pennsylvania Railroad will enter and depart from the new Union Station at Washington on November 17, 1907, and on the same date the present station at Sixth and B Streets will be closed to traffic.

The date is singularly fitting. In 1807 both wings of the Capitol were completed, and now a century later a building even larger is opened for a great public utility, which did not exist at that time.

The railroad terminal facilities at Washington have been inadequate for years, particularly at inauguration periods and on the assemblage of other large gatherings at the Capitol. Their improvement was imperative and so it has come about that, by the combined effort of the railroads and the United States Government, one of the largest and unquestionably the handsomest railroad station in the world is now provided not only for the convenience of the citizens of the United States, but as a notable architectural addition to the great public buildings of the Capitol City. It is a monumental edifice and a worthy type of the future structures, which will make Washington the municipal beauty spot of the world.

The station including the Concourse is longer than the Capitol and nearly as wide. The waiting room is larger than the hall of the House of Representatives. The concourse, which is the train lobby, is longer than the interior of the Capitol building, if it were one continuous hall, and half as wide. It is the largest building ever constructed for a like purpose.

Within this great structure there is every convenience the traveler can desire, so grouped about the central hall as to serve the purpose of the best advantage.

The lofty arched entrances face a plaza as large as an ordinary city park, which will be laid out as a plaza and adorned with shubbery and fountains.

The trackage is sufficient for all demands upon it and as the entrance to and exit from the trains are separated, the confusion and jostling of hurrying crowds moving in opposite directions will be obviated.

The bigness of the station is impressive; its utilities obvious. No. 1302-39-2t.
