## Sudden Death of P. R. R. Conductor Peter Bauer at Sterling Run

Conductor Peter Bauer, of Renovo, died suddenly in the cabin of his train, Thursday morning, March 5th—mention of which was made in last week's PRESS as we went to press. His train had taken siding for a passenger train and Mr. Bauer had reported his train clear of main track and entered the cabin when he complained of a pain in his left side. He immediately fell over dead.

Conductor Bauer was a native of St. Marys, having been born there March 26th, 1854. He entered the service of the P. R. R. in August 1881, and was in their service from that time until his death. He is survived by his wife, four daughters and one son. The funeral was held at St. Marys, Sunday, March 8th. Mr. Bauer was a member of Division 333, O. R. C., and was well and favorably known along the line of the Erie Division. The PRESS extends sincere sympathy to the bereaved family.

## DEATH'S DOINGS.

### COOK.

Another of our oldest citizens passed to the great beyond, last Saturday, at City Hotel. Ex-Sheriff LeGrand Cook, aged 77 years and four months, who was stricken down with apoplexy at the City Hotel, Feb. 28th, remained in a conscious condition until death relieved his suffering. Deceased was born at Smethport, Pa., Nov. 5th, 1830, being the only son of Elias J., and Ascenthia Cook. Mr. Cook leaves one child, Mrs. Nellie Pearl, and three elderly sisters, viz: Mrs. A. Shade, Berring Springs, Mich., Mrs. A. Ripley, Sherman, N. Y., and Mrs. M. Aldrich, Pierre, S. D., none of whom were able to be here on account of physical condition, except his daughter, who arrived as soon as possible and remained until the last. Mr. D. H. Harris, of Mendon, Mich., an old friend of the family, accompanied Mrs. Pearl to Emporium and remains here, assisting in getting the deceased's affairs in shape for settlement. Her husband, who is in Los Angeles, Cal., was unable to be here in time for funeral.

### THE FUNERAL.

The funeral services took place at Emmanuel Episcopal Church Monday afternoon at 2:30 p. m., Rev. J. M. Robertson, officiating. The pall bearers were old friends of the deceased, viz: Hon. J. C. Johnson, Ex-Sheriff Riley Warner, Ex-Sheriff R. M. Overhiser, J. F. Parsons, F. D. Leet and M. M. Barrabee. Mrs. Pearl and Undertaker Geo. J. LaBar's assistant, Mr. C. W. Rishell, accompanied the remains to Buffalo on 4:20 train, Monday afternoon, interment being made in Forest Lawn—friends meeting the remains upon arrival at Buffalo.

LeGrand Cook came to Emporium in 1858 and for years owned and conducted Cook's Hotel, one of the best known hostleries in this region. After the destruction of his hotel he devoted his time to farming and stock raising. He was active all his life and despite his age, was energetic and cheerful up to within a few days of his death. He enjoyed the friendship of very many of our citizens. More than one poor man has reason to remember the kindness of L. G. Cook when he conducted the old and popular Cook House. Deceased leaves a large amount of real estate in Emporium, also a valuable farm in Shippen township.

### Quarterly Meeting Service.

Quarterly meeting services will convene in the Free Methodist Church on Fifth street, beginning Thursday evening, March 12th and lasting over the Sabbath. Rev. A. J. Hill, district elder of the Bradford circuit, will conduct the services. Services each evening this week at 7:30. Sabbath services: love feast at 10 a. m.; preaching of the word 11 a. m.; followed by communion services; Sabbath school 3 p. m. Sabbath evening service, 7 p. m. A cordial invitation is extended to all to attend these services. Come!

### Tickling the World.

Laugh and the world laughs with you, is an old and true saying, and if you want to realize the truth of it, just pay a visit to the Emporium Opera House on Friday evening, March 20, and see Jerry from Kerry. You may not find all of the world there, but you will find as many as can be accommodated, and they will all be laughing with you, for Jerry from Kerry is one of the funniest attractions on the road to day. A superior Concert Band and Orchestra are carried by this Company. Don't fail to hear the free band concert afternoon and evening.

### Lecture on Forestry.

Hon. S. B. Elliott, of State Forestry Commission, will lecture in the Court House on Friday evening, March 20th at 8 o'clock. This lecture is free and will be an able handling of a very important subject. It will probably be illustrated by means of a stereopticon. A cordial invitation is extended to the public. The lecture will be given in connection with the Teachers' Local Institute, which will hold another session at 9:00 a. m., on Saturday following.

### Jerry From Kerry.

Theatregoers at large, will no doubt be glad to hear that Patten and Fletcher's big fun show Jerry from Kerry will hold the boards at the Emporium Opera House on March 20th. The management of this attraction have spared no expense in securing the best artists to interpret the different roles of this funny comedy, and now after nine years of continued success, it is said by both press and public to be even better than previous years. The Company are still carrying their own superior uniformed concert band and orchestra, giving band concerts, afternoon and evening.

## Senator Knox Active.

WASHINGTON, March 7.—(Special)—Two of the most important measures introduced at this session of congress, the employers liability bill and the postal savings bank bill, was introduced by Senator Knox of Pennsylvania. Both of these bills, are now under consideration in committee and will be reported to the senate at an early date. The indications are that both will become laws at this session.

A sub committee of the committee on judiciary is holding hearings on the employers' liability bill, giving the workmen and the railroads every opportunity to present arguments for and against it. The object for which Senator Knox strove in framing the bill is the one that will be kept to the front by the committee in reporting upon it, and that is to give the workmen the greatest consideration possible for their protection and yet keep within the bounds of the constitution, so that when the bill becomes a law and gets before the courts, it will not suffer the same unfortunate fate that the former law did.

The postal savings bank bill is now being considered by a sub-committee of the postoffices and postroads. Two other bills, having the same object as that introduced by Senator Knox are before this sub committee, but it is believed that the Knox bill will be reported to the senate. This bill embodies the views of the postmaster general and has the backing of President Roosevelt and the administration. Every effort will be made to secure its passage at this session of congress and the prospects of success are good. Bankers and financiers as a rule will favor it, as they recognize that it will go a long way towards preventing the recurrence of such financial stringency as the country has just passed through. The people will welcome it as it will provide an absolutely safe depository for their savings.

### Trout Fishing.

Although the season for trout fishing has not yet opened it is reported that trout have been brought in already and sold. The names of the parties who have been guilty of this offense have been handed to one of our sportsmen, together with the names of several others who have been known to make a practice of this business of selling trout, both by delivering them to town and keeping them for sale at home, and as an organization known as the Fish and Game Protective Association of this county has been formed, a game warden will keep a vigilant watch of these parties and others who are inclined to break the law. It will not be safe for any one to offer brook trout for sale, as the party may be a spy and you may be the individual he is looking for. On the other hand there may be some one watching the man who has been known to buy trout year after year and then both parties will be trapped. The law on Sunday fishing will also be strictly enforced. Now if anyone gets into trouble this spring, they can blame no one but themselves, the law being very plain and cannot be mistaken in any way.

There will be forty-two cans of trout fry distributed among our several streams some time next week.

### After Votes.

Samuel D. McCool, Republican candidate for Associate Judge nomination, visited his many Emporium friends on Wednesday and reports his prospects encouraging. Mr. McCool, who is Adams Express Agent at Driftwood, is one of the most popular down county gentlemen and if nominated will make a strong pull for the goal.

### A Rare Treat.

## Lawless Liberty.

The only liberty compatible with civilization is the liberty to do as you please as far and as long as such freedom of action does not curb the liberty of other men to do as they please. The anarchist idea of liberty is summed up in the assertion of the right to kill the opposers of anarchy.

Socialism denies any relationship to anarchy, but 4,000 socialists listened to Haywood declare that the right to steal was the first law of nature.

When life and the secure possession of property is in danger we cannot urge any fine distinction between Socialism and anarchism and the state and national authorities are doing well to awaken to this fact and to determine that in free America anarchy, and all its kindred associations, must be eradicated.

There is no liberty possible except the liberty of law. The killing of a Priest at the altar, the mob of miners unions at Goldfield and the night riders in the tobacco districts of Kentucky, are only violent examples of fanaticism and ignorance. The stronger and more intelligent a man is the more conservative and law abiding he is, and the harder it is to hypnotize him with new fads, fancies and isms. Intelligent good-will can wipe out ignorant ill-will and the proper way to help do it is through the public schools and a free and safe election ballot. Every child should be compelled to go to school, and every man should be compelled to go to the polls and vote an entirely independent and secret ballot. Then protect the counting of the votes from all fraud and you will have an intelligent expression of what the people want and, like the jury system, it will be about right and the people will be satisfied and hysterical election campaigns and all mob violence, from the little street fracas to anarchist assassination will die out, and each one can then enjoy in peace the fruits of his labor.

### A Funny Farce Comedy.

Jerry from Kerry which comes to the Emporium Opera House on Friday evening, March 20th, is a hurrah farce comedy, up-to-date and clean. Clever specialties are the features. The company consists of bright lively fun makers. Good earnest work and an evident desire to please makes for this Company a favorable impression. There is a continual round of merriment throughout the performance; new songs; pretty music, charming girls, funny comedians and all the pleasing features one expects to see in a show of this kind. The company includes, many well known and clever artists. The Patterns, now with the Jerry from Kerry Company, have no superiors in Farce Comedy. There are three of them. All are skillful musicians and their comedy is of the cleanest and highest type. The single, double and triple solos and duets on tuba and euphonium deserves special mention.

### Emporium Hotel Men for Lock Haven.

Another of the many moves has been made on the Liquor Chess Board in this district. Wm. McDonald, for many years the active and successful proprietor of the Novelty Restaurant at Emporium, now leased by H. R. Knight & Co., has formed a co-partnership with H. A. Boyd, of Clermont, also extensively engaged in the hotel business in McKean and Potter counties. The new firm have leased the wet goods department of the Fallon House, Lock Haven, including the restaurant and billiard room. This is the oldest stand in this section of the state and very popular with the traveling public.

## Hickory Supply Closely Watched.

Automobile and carriage-manufacturers, along with the men of the allied vehicle industries, are giving very serious consideration to the question of the future supply of hickory timber. This wood, which is one of the most important of all woods, since no satisfactory substitute for it has been found, plays a more important part among the commercial timbers than many people realize.

For automobile and carriage wheels, where strength, toughness, and resiliency are essential qualities, no other wood has been found in this country that will take the place of hickory. Manufacturers say that no steel or wire spoke has yet been found that will withstand the wear and tear of the hickory spoke and for this reason the welfare of the vehicle industry seems dependent upon the conservation of the hickory supply.

Three of the largest associations of hickory users in the country, the National Wagon Manufacturers Association of America, the Carriage Builders Association, and National Hickory Association have completed a series of co-operative tests with the United States Forest Service and the trade considers the results highly important. The tests covered a close study of the properties of different woods used in vehicles and implements, supplemented by mechanical tests to ascertain the relative strength of different woods and different forms of construction and to test the accuracy of the present system of grading.

In a report of the tests made by H. B. Holroyd, forest assistant, and H. S. Betts, engineer in timber tests, of the Forest Service, the fact is brought out that there is an error of over 50 per cent. in the grading of vehicle stock, due largely to the prejudice of the manufacturers against the use of red hickory. It is shown that in clear stock, weight for weight, the red hickory is as strong as the white. By bringing this fact to the attention of the manufacturers, it is hoped that much of the hickory which was formerly left as waste in the woods will be utilized by the trade and thus prolong the rapidly disappearing supply of hickory.

Such practical results as are given in the report, which a letter to the Forest Service at Washington will secure for any one who wishes it, show conclusively the value of such studies in solving problems connected with the grading of stock, the utilization of new for old woods, and the conserving of our future supply of timber. The supply of good hickory in the United States is known to be very limited. The cut last year for lumber was a little less than 150 million feet, and it is estimated an even greater amount was used for automobile and carriage wheels, axle caps, gears, axles, poles, single trees and neck yokes, and it is figured that at the present rate of cutting the supply will last about 15 years.

Reports are made from time to time of the discovery of suitable substitutes for hickory in foreign countries. The two woods which come nearest to having the quality of the hickory seem to be one of the eucalyptus and the crow foot elm, both of Australia. Only time will tell whether these woods will prove satisfactory substitutes. In the meanwhile, American hickory users will be obliged to conserve the present supply and take steps to guarantee a future supply by encouraging private planting of the tree, whose wood is becoming more precious each year.
