#### PENROSE ALMOST WELL MAN NOW.

Plans to Leave Country To-day Either for Washington or Seashore.

PHILADELPHIA, MAY 3 .- Riding 20 miles a day on horseback through the Chester hills, breathing the pure atmosphere of the country and eating and sleeping as he has not done since he was a boy, United States Senator Boies Penrose, whose condition during his recent illness was watched with interest all over the country, has been recuperating at the home of his brother, Dr. Charles B. Penrose, at Devon, for the past two weeks. It is likely that to-morrow he will leave there and will go either to Atlantic City or to Washington.

Senator Penrose would not return to Washington this session were it not for the fact that the committee on post roads, and post offices of which he is chairman, needs his advice on the distribution of the appropriations for the

When seen yesterday, Senator Pen rose was deep in an easy chair, flanked by newspapers, books and magazines. He arose with a firm step and the healthy color of the country flamed in

"Do you feel any the worse for your illness?" was asked.

"Not a bit," was the ready respons "I do not know that I ever was sick. When I was at home in Spruce street, I was sick and then became delirious. One day I woke up with a clear mind and the physicians told me to lie still hardly believe it. I have really been well for three weeks and will likely leave here on Monday."

Senasor Penrose says he goes to bed promptly at 9 o'clock at night and gets up at 7 each morning. He takes long horseback rides and remains in the fresh air as long as possible.

Cat Hatches Chickens.

Michael O'Leary of the West Ward owns a cat that he prizes very highly. The animal had been missing for some time, and last week "Mickey" made a thorough search of his premises and to his surprise found the cat on a nest of eleven hens eggs. Last Saturday she hatched out eight nice chickens, which Mr. O'Leary has placed on exhibition at his home, and will be pleased to show any who may doubt the varacity of his statement. The only cause as signed for this new departure, is to get even with the beef trust. "Mickey" has not yet decided what to call this breed. All who wish to see these chickens are requested to call evenings.

Workingman?

This theme will be discussed next Sunday evening, at 7,30, in the Presbyterian Church, at the Special Labor Sunday Service.

The American Federation of Labor having, at its last convention, recommended that May tenth be recognized as "Labor Sunday," the Presbyterian Church in the U. S., through its unique Department of Church and Labor, has requested all its churches throughout the country to observe the day by special and appropriate services

The Presbyterian Church of this place believing that, as Memorial Day, Independence Day, and the several 'Birthdays' show our appreciation of those who rendered patriotic service, so "Labor Sunday" should be observed in honor of the millions of toilers who daily serve mankind in the humbler places of life, has arranged for, and cordially invites you to this special service in honor of the men and women who work.

"This is the Gospel of Labor, Ring it ye bells of the Kirk! The Lord of Love came down from above To live with the men who work This is the rose He planted,
Here in the thorn-cursed soil;
Heaven is blessed with perfect rest,
But the blessing of earth is toil.

Pennsylvania's Candidate. WASHINGTON, MAY 2,-(Special) The Pennsylvania Republican convention held at Harrisburg on April 29, gave an enthusiastic and unanimous endorsement of the presidential candidacy of P. C. Knox and instructed the delegates-at-large to vote for him until he is nominated. Not only was the nomination of Senator Knox urged on the ground of his eminent qualifica-

tions, but also upon the ground that Pennsylvania, because of her loyalty to the Republican party and her great record, is entitled to furnish the candi-A glance at the statistics of the last

presidential election shows the consistency of the latter claim. In 1904 Pennsylvania gave Roosevelt a plurality of 505,519, which is the largest plurality any state ever gave a candidate for any office. This plurality alone far exceeded the total Republican vote cast in the eleven states that make up the "solid south." Those eleven states have 240 votes in the national convention while Pennsylvania has but 68.
In the 1904 election Pennsylvania

furnished 20 per cent. of the total plurality of Roosevelt over Parker and 10 per cent. of the entire Republican vote cast at that election. The plurality given Roosevelt by Pennsylvania was 75,000 greater than the combined pluralties given by New York and Ohio.

These facts show the consistency of the claim of the Keystone State that it is entitled to name the next presidential candidate. Representative James F. Burke, of Pittsburgh, who has charge of the candidacy of Senator Knox, says he feels confident that the Republicans of the country will recognize the justice of this argument as they will recognize what Knox has done for the Roosevelt administration and the country, with the result that the Pennsylvania candidate will be named at Chicage.

The matter of fixing the salary of Supt. was brought before the board by Mr. Shaffer, and he accordingly made a motion that \$1200 per year be the sum for this office. When a ballot was taken all voted in favor of this amount excepting Mr. Zimmerman.

Mr. Cree nominated rrof. E. S. Ling the present principal of the high school and Secretary Zimmerman placed in nomination the name of T. M Morrison, the present incumbent. Dr. Eadie stated that Mr. Morrison desired that his name be not mentioned as a candidate as he did not seek re-election.

## HARRY THAW IS INSANE.

Alleges Superintendent Baker of

POUGHKEEPSIE, N. Y., MAY 5.-Dr. Amos T. Baker, acting superintendent of the Matteawan State hospital, on his return to-day of the writ of habeas corpus obtained by counsel for Harry K. Thaw, denied the allegations in the position of counsel that Thaw is now sane and alleges on the contrary that Thaw is insane. Dr. Baker has had Thaw under consideration during his confinement in Matteawan following the trial for the slaying of Stanford White.

The number of expert witnesses to be called in the proceedings will be limited to five on each side.

Justice Morschausea's decision to limit the number of expert witnesses on each side is taken as an indication of his intention to have the Thaw habeas corpus proceedings, when they are resumed here next Monday, conductly expeditiously and without extravagant expenditure of the public

#### WASHINGTON LETTER.

From our Regular Correspondent Washington, May 2, 1908.

A bill curtailing the power of the Federal courts in issuing injunctions was introduced in Congress this week by Representative Sereno E. Payne, of New York, Republican floor leader of the House, and the presumption is that measure reflects the sentiment of the Republican leaders of the House. There is little doubt that Mr. Payne introduced it at the urgent request of a number of Republicans who have been made uneasy by the manacing attitude assumed by representatives of organized labor. While the bill falls short of the kind which organized labor has been demanding for some time, it is along the line of the recommendation made repeatedly by the President in his special messages to Congress. Mr. Payne's bill provides "that hereafter no preliminary injunction or restraining order shall be granted by any judge or court without notice to the party sought to be enjoined or restrained, unless it shall appear to the satisfaction of the court or judge to whom application is made that its immediate issue is necessary to prevent irreparable damage; and that the order shall contain the rule on the opposing party to show cause within five days why the

order should not be issued." There are some indications that Speaker Cannon's power in the House is somewhat on the wane and that he is no longer to be permitted to carry things with that high handedness which has characterized his rule up to the present time. A prominent Republican leader declared that a movement is on foot, backed by between thirty and forty Republicans, to refuse consent to the passage of any financial bill at this session until they have been given a pledge that something will be done toward putting wood pulp on the

If the action taken by the Senate Committee on Commerce this week is any indication of the sentiment prevailing in the Senate, little consideration will be given to the recommendation of the President that permits to dam and otherwise interfere with the waters of navigable streams should be charged for by the Federal government and made a source of revenue. The proposition to amend the bill, in line with the President's recommendations, was defeated in committee by a vote of 5 to 3, and, while there was barely a majority of the committee in attendance and the vote is not a finality, the impression prevails that it represents the view of the majority. Senator Nelson submitted an elaborate brief in which he took the ground that such a provision as desired by the President would deprive the States and riparian land owners of all rights to the use of water now guaranteed by law, and concentrate their disposal and control in the Federal government.

Speaker Cannon has made a state ment explaining that no affront to President Roosevelt was intended in the failure of the House of Representatives to receive the special message which he sent to Congress late on Monday afternoon.
