"Miss," or "Mrs.?"

A number of unmarried English women, who have reached an age about which it would be ungenerous to inquire too closely, have been complaining in the papers of the rule that all married women shall be called "Mrs."

The state department of agriculture

has taken a step which may help to solve the problem of adjusting the matter of labor for farms and at the same time put dwellers in the city in the way of acquiring knowledge and health, says the Troy (N. Y.) Times.

Score another for that invincible

weapon of offense and defense, the hatpin. In the hands of a woman entirely courageous and skillful the hatpin puts the boldest criminal to ignominious flight.

People who lament the seeming

preponderance of fiction in the printed matter of the day should cheer up. Last year 876 books on religious subjects were published in this country, and it was not regarded as an especially good year for religion, either.

Wright's Personal Attributes and Experience Pre-eminently Fit Him for the Position.

RAIN, WIND AND HAIL STORM

Havoc Wrought to Grain and Vegetables in Pittsburg, Western Pennsylvania and Ohio.

Pittsburg, Pa.—A rain, wind and hail storm of unusual severity swept over Pittsburg and western Pennsylvania Friday night, inflicting heavy damage to grain fields and vegetable gardens. One of the tents of the Buffalo Bill Wild West show was partially wrecked.

At Steubenville, O., the storm reached the proportions of a cyclone, unroofing a number of buildings and inflicting damage to the extent of \$50,000 or more. Mrs. George Callender was struck by a falling tree and probably fatally injured.

At Mingo Junction and Brilliant, Ohio, the storm struck the packet Queen City in the Ohio river and tearing her from her moorings pushed the boat before the gale. Fifty passengers were panic stricken. Whirling around like a top, the boat was freed from the cyclone's path just in time to prevent collision with a pier. A cloud-burst did considerable damage at Mingo Junction and Brilliant, Ohio.

CONFIDENCE IN THE FUTURE

Preparations for Fall Trade Are on a Fairly Liberal Scale, Says Dun's Review of Trade.

New York City.—R. G. Dun & Co.'s Weekly Review of Trade says:

Preparations for fall trade are on a fairly liberal scale, testifying to confidence in the future, and jobbers receiving moderate supplementary orders for prompt shipment, while retail sales expand in response to seasonable weather. There is some irregularity in reports from the leading industries, footwear factories receiving relatively larger orders than textile mills, while the iron and steel markets still feel the unsettling effects of recent reductions in prices.

Waiting conditions prevail in the iron and steel industry, purchasing being limited to immediate needs, except in the case of steel bars that have been ordered by makers of agricultural implements to the extent of 250,000 tons.

FATAL EXPLOSION IN A MINE

Three Men Are Dead and Seven Injured, Two Seriously, in a Pennsylvania Town.

Of the victims taken from the mine, John Beal is the only one identified. The others are foreigners whose features were too scorched to be recognized. The two burned men were hurried to the hospital.

Little is known as to the cause of the explosion. It occurred with all but 30 miners working on the day shift had left the workings. Of this number 15 were near the mouth of the slope and rushed out before the force of the explosion reached them.

Fatally Shot by Companion.

Bryan, O.—While playing wild west at the country home of his companion near Edgerton, Harold Jones, 14 years old, of Auburn, Ind., was fatally shot with a revolver by George Carner.

Firebugs Busy.

Canton, O.—Firebugs are believed to be responsible for a blaze in different parts of the city Friday morning, which total 10 recent conflagrations of supposed incendiary origin.
