TO SWAP HORSES Pennsylvanians to Follow Old

ARE NOT GOING

Abe Lincoln's Policy.

TARIFF MADE STATE WEALTHY

Taft and Sherman Stand For Protec tion, and Their Triumphant Election Will Insure a Period of Unprecedented Prosperity and a Continuance of Roosevelt's Patriotic American Administration of the National Government.

|Special Correspondence.]

Never swap horses while crossing a stream." This trite and homely ad-monition of "Old Abe" Lincoln will be followed by the voters of Pennsylvania at the coming election, when they will roll up a tremendous majority for the party of protection and prosperity. Reports from every county in the commonwealth show that the great body of Pennsylvanians, the farmers, the merchants and the wage earners in all the big industrial centers are determined to vote for Taft and Sher-man and indorse the platform of the Republican party.

Bryan is making tariff reduction, which to the Democrats means their old slogan of free trade, the para-

nount issue of his campaign. In doing that he is striking directly at Pennsylvania, at Pennsylvania la-bor, at Pennsylvania capital and at Pennsylvania's vast natural resources, her coal, her iron, her cement and her various other interests.

No Free Trade For Pennsylvania. The Keystone state has acquired her enviable position as the most prosperous and wealthiest state in the Union under the Republican party's administration of state and national affairs, and to no other policy does she owe more than to that of the protective tariff.

The present onslaught of Bryanism upon the tariff has aroused a' feeling of indignation and alarm in every quarter of this state.

Just as confidence is being restored, as orders for manufactured products are coming in and mills are starting up, coke ovens and blast furnaces are being lighted and the textile and all manner of industrial establishments are resuming operations, after a temporary cessation, along comes Bryan with his tirades against the protective tariff. He is serving notice upon capi-tal and labor alike that in the event of his election revolutionary tactics may be looked for to the inevitable destruction of the interests of the wage earner and the manufacturer, to the granger, the dairyman, the mine worker and all classes of citizens of this state whose happiness and liveli-hood depend upon the administration of the national government under safe and sane and well established policies. Taft's Nomination Brought Confidence. No reasonable man has attempted

to charge to the Republican party re-sponsibility for the recent disturb-ance in business and momentary halt in the march of progress.

But every one who stops to consider he revival of confidence, the resump ion of commercial and industrial ac vities and the universal prediction of a renewal of good times, cannot but attribute these conditions to the popu-lar belief that the election of Taft and Sherman and the continuance of the Republican party in control of the federal government means an assurance of national prosperity.

To Promote American Patriotism. The patriotism and sturdy Ameri-canism of the administration of Theo-

defeat for the pressure, continued during that entire period of low tariff and until relief was obtained by a re-turn to protection. The history of tariff legislation in congress is one of continuous struggle.

"Success has been achieved by a narrow margin. The principle of protection to American labor and indus-try has frequently been put in peril in the house of its friends.

Democratic, Soup House Period. "Every one recalls the dreadful in dustrial depression during Cleveland's second administration. Following the ame an immediate

prosperity, which continued stead until the great disturbances in wo finances resulting from the Boer to Russo-Japanese wars, and the lo disturbances resulting from the gr losses consequent upon the Baltimer and San Francisco disasters—disturi ances due ultimately to monetar causes and being but temporary i duration. "These causes, with the lack of su

ficient currency to finance great un dertakings consequent upon the tre mendous prosperity which has com to the country under a decade of pro tection, are generally conceded to be the chief elements in that cessation which we all believe to be but tem porary in the extraordinary prosperity and industrial development and ex pansion of commerce which the coun-try has enjoyed since the principle of try has enjoyed since the principle of protection and sound money were es-tablished in the election of William McKinley in 1896. "Setting aside minor issues and theories of legislation, does any same man doubt that the future prosperity of the country connect he cofely in

of the country cannot be safely in-trusted to the Republican party by the election of William H. Taft as president?

"The people from one end of the land to the other demand a cessation of the temporary interruption to our prosperity from which we are recently recovering. They are most interested in such an administration of the government and such legislation by con gress as can most reasonably be ex pected to bring about a resumption of our splendid march of development at home and abroad.

Want American Standard of Wages.

"The great mass of our people wan to be assured of permanent employ ment at remunerative wages, which will enable them to maintain a stand ard of living such as becomes Amer can citizenship. History demonstrate beyond any question that the maint nance of the principle of protection under Republican administration and

legislation has secured these results. "History has shown that where this condition has been interrupted by Democratic success and tariff tinker ing and free trade principles that dis-aster and panic have ensued.

"Closed mills and idle men were to familiar to all of us a little over twelve years ago, and would hardly need re-calling now were we not so apt to for get. Nor is there anything in the atti tude of the Democratic party to assur the American people of a consistent adherence to the protective principle.

Tariff Cuts Cause Depression. "It would seem to be evident enough not to require argument that the proective system can best be maintained by those who have been successful for nearly 100 years in its maintenance and development.

"The general statement stands un-challenged that whenever the tariff has been reduced in whole or in part a business depression has followed, and in many cases most severe com-mercial and industrial panics.

"The present tariff law has been in operation unchanged longer than any other tariff law in our history. "Many favor continuing the law un-

changed for the present, on the theory that stability of conditions is an es-sential feature of any tariff system, and that the agitation in changing the same introduces uncertainty in the trade conditions, and is apt to be followed by a curtailment of industrial

activity. "There is, however, a general de mand for a readjustment of schedules to meet changed conditions in the industrial world, and it is conceded on all sides that general revision will be made in the near future, but what-ever changes are made the Republican party this year stands emphati-cally pledged to the principle that a tariff shall be imposed on all imported products, whether of the factory, the farm or the mine, sufficiently great to equal the difference between the cost of production abroad and at home, and that this difference should, of cours include the difference between the between the wages paid in this country and the wages paid abroad, and embrace a reasonable profit to the American pro ducer.

TRADE-MARKS

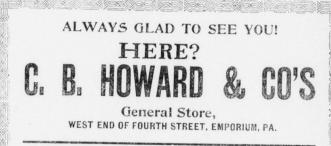

No appetite, loss of strength, nervou ness, headache, constipation, bad breat general debility, sour risings, and catar of the stomach are all due to indigestion Kodol relieves indigestion. This new discov-ery represents the natural julces of diges-tion as they exist in a healthy stomach ery represents the natural juices of diges tion as they exist in a healthy stomach combined with the greatest known toni and reconstructive properties. Kadel for dyspepsia does not only relives indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purlying, sweetening and strengthening the mucous membranes lining the stomach. Mr. S. S. Ball of Ravenswood, W. Va., says-I was troubled with cour stomach for twenty years. Kodel cured me and we are now using it in milk for baby."

centuated with Judge William Howard Taft in the White House, and the prestige that has been added to "Old Glory" by the vigorous Rooseveltian policies will never be detracted from by any act of the distinguished son of Ohio who is now the Republican Ohio standard-bearer.

The vital concern which every Pennsylvanian must have in the present campaign was emphasized by United States Senator Boies Penrose in his recent speech before the Republicans of Lehigh county, when he made the tariff the principal feature of his address.

Penrose On the Tariff. Senator Penrose, among other things, said:

"This is pre-eminently an age the world over of commercial, industrial and agricultural development. The United States leads in all these forms of activity. We are today admittedly the leading nation of the world, and our progress in the past and the pros-pect of development in the future are beyond precedent in the history of civ ilization.

"We want an assurance of prosperity, of a continuation of our commercial and industrial development at home and of our trade expansion in the markets of the world. The hisory of the United States shows clear ly that prosperity has always attended upon a protective tariff. "The American people cannot fail

to recall vividly the immediate past. There has always been a relation of protective tariffs to prosperity and of great financial depressions to low tar-The long period of depression which followed the return to low tariff immediately succeeding Mr. Blaine's

Senator's Pledges to Constituents. Senator Penrose told of the mov ment already under way by a Repu lican congress to revise tariff ules to meet changed conditions, and

in this connection he said: "As a member of the senate com-mittee, I pledge myself to sustain the protective principle so vital to the industrial prosperity of this great state of Pennsylvania.

"A harmonious and triumphant Re publican party continued in power by an overwhelming vote of confidence an overwhelming vote of connected on the part of the American people on election day in November next is bet-ter calculated to insure an immediate resumption of that extraordinary prosperity which began with the election of William McKinley in 1896, than can be hoped for by the most sanguine in the election of Bryan and the election of a Democratic house of representatives, with the record of the Demoracy in the past for blundering and disaster in connection with the finan cial legislation of the country.
