

**Notice to Water Consumers.**

To Water Consumers of the Emporium Water Company:

Owing to the unusual continued drought, the water in the reservoirs has reached the danger point and in order to keep the supply for domestic use and fire protection, we are compelled to order the discontinuance of all lawn, garden and porch sprinklers, vegetable sprays, automobile washers in garages, buggy washers in liveryes and private barns until further notice.

If our inspectors find any violation of the ordinance governing the water department, particularly the wasting of water through leaky fixtures or otherwise, the supply will be shut off from such premises without further notice and a penalty imposed for such violation.

**Why Colds are Dangerous.**

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by L. Taggart.

**A Word to First Voters**

YOU, young man, who are about to cast your first ballot, are facing a grave responsibility.

Hitherto you have passively enjoyed the benefits of this Republic. Now you are to become an active factor in the government of the nation, assuming the full burden of the duties of citizenship.

Though the privilege to vote comes to you without effort, do not forget that to win it men fought in battlefield and forum, and that to obtain it other men left their homes in foreign lands, severing many ties and starting life anew.

What will you do with your ballot?

It is no light matter for you to decide how you shall cast your first vote, nor should you let yourself be swayed by whim or prejudice. The whole subject lies before you for calm consideration, and it is your duty to give it this consideration.

With your first vote you ally yourself with a political party. You have the opportunity to enroll yourself with the Republicans, who have made this nation what it is to-day; who have kept the faith bequeathed to them by the fathers and established a firm standard of sound statesmanship, administering the government through men of proved experience and integrity.

If you make that choice you associate yourself at once with men of achievement, leaders of the nation, and with a party of honorable tradition and performance. You become identified with the advance of civilization and can with proper pride feel that you have helped toward progress.

But if any whim impels you to cast your lot with the opponents of those who have accomplished so much, reflect well before you follow the impulse, for the so-called Democratic party of to-day has drifted completely away from its former ideals, veering like a weathercock under the influence of untried and visionary leaders who champion policies born of political expediency. Remember that if you assist toward plunging the nation into want, discontent and disorder, destroying both domestic and foreign credit, some of the blame and disgrace will rest upon you.

For this year you have a voice in the election of a President of the United States.

The Democrats put forward as their candidate a politician who has changed his beliefs repeatedly, who is unstable, and untried, and is distrusted even by members of the party under whose name he conducts his canvass, many of whom make no secret of their intention to vote against him; whose very nomination created widespread alarm among business men.

The Republicans offer as their candidate for the Presidency a fearless, disinterested and upright man, trained in the severe school of duty, whose career of accomplishment assures his fitness, whose record is one of unceasing industry in exacting tasks and contains no hint of failure; whose personality has won the esteem and approval of the American people.

His reputation for absolute spotlessness in both public and private life is as well known abroad as it is at home. By temperament, capacity and experience he is qualified for the administration of great affairs of state. He has shown a single-minded devotion to the service of his country, with a broad and human sympathy to which sound appeal is never unavailing.

This man is William Howard Taft.

Associated with him on the ticket is James Schoolcraft Sherman, who for many years has sat in the councils of the nation, and is skilled in the conduct of public affairs.

Young man, you stand on the threshold of decision. Your first step into the world of politics will have a strong influence on your life, affecting your associations and your business.

Before making your decision and taking a step that cannot be retraced, read what is said on this matter by two statesmen of unquestioned probity, devoted to the best interests of the nation, and honored for their high standards of political morality. These men are Charles E. Hughes, Governor of New York and Albert J. Beveridge, Senator from Indiana.

Governor Hughes: When we hear sounded a strident call to the defense of popular rights, we look carefully to see who constitute the new patriotic army into whose keeping we are asked to turn over the destinies of this great nation. The campaign watchwords "Shall the People Rule?" and the demand "Whether the government shall remain a mere business asset of favor-seeking corporations" are not impressive when emblazoned on the banners of Tammany Hall and of other essential allies. The army opposing us cannot pass muster either as one of defense or of salvation, and we may well pause before we permit it, despite its boast of fidelity, to garrison our institutions.

No one more than I desires to see administration purged of every selfish taint, to have fair and impartial laws faithfully executed, to get rid of every vestige of special privilege at the expense of public interest, to liberate trade from unjust encroachments, purify our electoral methods and to maintain honest representative government. And it is because of his loyalty to these ideals, because of his broad sympathies and his rare equipment in character, ability and experience, because tested in the difficult fields of judicial and administrative work he has proved his quality by eminent service, because of his varied learning, his acquaintance with affairs, his respect for constitutional government, and his capacity intelligently and justly to plan and direct necessary reforms that I most earnestly support the candidacy of William Howard Taft.

Senator Beveridge: The real question is, Which candidate will make the better President? Which is the wiser and steadier? Which man would you choose as administrator of your estate? Which would you select to manage your business? Which has the better training and more experience?

Mr. Bryan never had handled a single foreign problem. He has governed no Philippines, regenerated no Cuba, built no Canal, avoided no alien danger, saved us from no threatened peril.

Mr. Taft has done all. It was his genius for the practical and devotion to humanity that took Philippine chaos and made Philippine order; took Philippine hate and changed it, by the alchemy of his tact, to Philippine love. It was his statesmanship that achieved the impossible, converted an oriental people into a voting citizenship, and laid the foundation for a future which, as God wills, may become a separate nation or a glad and patriotic part of this great republic.

It was William H. Taft who set Cuba in order, established her feet in civilization's upward path; and it was he who, when so directed by President Roosevelt, who first advised with Mr. Taft, when these children of liberty tore his work to pieces, set up once more the blessed rule of order and liberty and law with a father's patience and a statesman's wisdom. It is he who is commanding the practical work of that greatest enterprise of human history, the building of the Panama Canal.

It was he whose counsel President Roosevelt sought at every crisis of his historic administration; he who helped avert war when little politicians and narrow minds would have plunged us into conflict. It was William H. Taft, whom our President, when confronted with foreign perplexities and with the awful weight of our ninety millions' welfare on his heart, sought for strength and wisdom; and it is William H. Taft more than any man ever called to the leadership of the American people who has had the best training, the widest experience, and the wisest teaching to fit him for that glorious but serious task.
