Daily Service of R. F. D. Our very efficient Postmaster, Mr. Charles Seger, informs the PRESS that after Feb. 1st, three routes will be served instead of two. No. 1, Four Mile and North Creek; No. 2, Rich Valley and Clear Creek; No. 3, West Creek and Moore Hill. W. R. Johnson will serve No. 3 temporary. On Feb. 13th a Civil Service Examination for Route No. 3 will be held at Emporium. Candidates will procure blanks at post office at once, for they must be filed at Washington on or before Feb. 3rd. The continuance of this daily service will depend upon the patronage, therefore the patrons on the routes will do well to deliver as well as receive their mail through the delivery. The department requires every patron on the routes to secure good mail boxes. Postmaster Seger has been to considerable trouble to secure this daily service and it is up to the patrons to see that it is continued. The business is based upon the number of pieces delivered and received and an elegant plan is to keep your families well supplied with reading matter. Take the PRESS if you are not already a subscriber; \$1.50 per year; and subscribe for a daily paper also.

The Post Office Department has again given the carriers another increase, to take effect Feb. 1st, viz: No. \$810.00 per year; No. 2, \$864.00 and No. 3, \$720.00. This great convenience will no doubt be appreciated by those living on the three routes and well should they, for their mail will be delivered promptly every day—at their homes and the post office. Wonderful! We read of ye olden times, when it took weeks for mail to be delivered even short distances. Shall we live to see Uncle Sam deliver his mail via air ships?

Suiting His Theory. 'When I hear of a new theory,' said a scientist, 'I am reminded of the two geologists. At a certain summer resort one brilliant afternoon the younger geologist from his bedroom window saw the older man rolling a great rock down the side of a mountain. 'He watched the work for nearly three hours. The old geologist, thin and little and white whiskered, had a hard time of it to guide that rock almost as big as himself. But he persevered. He got the rock down where he wanted it just as the dinner bell rang. 'The younger man said to him wondering at dinner: 'What were you doing with that rock this afternoon, professor?' 'Why,' the professor answered, 'the fact is the thing was 600 feet too high to suit my theory.'

Willing to End the Company. A Chicago man who once permitted himself to be persuaded to back a theatrical company was seated in his office one day when he received a telegram from the manager of the show. The troupe was somewhere in Missouri, and the telegram read thus: 'Train wrecked this morning and all scenery and baggage destroyed. No member of company injured. What shall I do?' The answer sent back by the Chicago man was as follows: 'Try another wreck and have the company ride in the baggage car.'—Chicago Record-Herald.

Gently Broken. 'You were a long time in the far corner of the conservatory last evening,' suggested the mother. 'What was going on?' 'Do you remember the occasion on which you became engaged to papa?' inquired the daughter by way of reply. 'Of course I do.' 'Then it ought not to be necessary for you to ask any questions.' Thus gently the news was broken that they were to have a son-in-law.
