

Indigestion Ends.

You can eat anything your stomach craves without fear of a case of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will occasionally take a little Dispepsin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Billiousness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Dispepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50 cent case of Pape's Dispepsin from your druggist and start taking to-day and by to-morrow you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Reason Enthroned.

Because meats are so tasty they are consumed in great excess. This leads to stomach trouble, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be well again. Try it. For sale at Taggart's drug store. Samples free.

A Common Cold.

We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimize the risk of contracting these dangerous diseases. For sale by Taggart.

Agency Secured.

Mrs. G. S. Allen, wishes to announce that she has secured the Agency for the American Vacuum Cleaner and Sweeper. Call at her residence or West Fourth Street and see it demonstrated. 43-11

Carving Scissors.
"I thought I knew all about scissors," said the man. "I had seen tailors' scissors for cutting heavy cloth, dressmakers' scissors for cutting flimsy fabrics and lace and still other scissors for cutting paper, finger nails, grapevines, all kinds of metals and even for shearing sheep, but in spite of that wide knowledge of scissors I was puzzled when I saw the large, peculiarly shaped pair of scissors lying in the showcase."
"What are these scissors for?" I asked the clerk.
"Carving meat," he said. "With scissors of this kind carving becomes mere child's play."
"I never saw anybody use them," said I.
"Nobody does use them," said the clerk—"that is, only a very few. In Europe carving scissors are popular because they cut right through meat, gristle, bone and all, but it takes a little practice to learn to manipulate the things, and nobody in this country has patience enough for that."—Exchange.

The Talking Pots.
"Yes, these pots of mine are all right," said the potter. "They don't talk, though."
"No pots do."
"Don't they? Look here."
He took from the shelf a strange, crude pot daubed yellow and blue that had the shape of a duck. He filled it with water; then he poured the water out again. "Quack, quack, quack!" said the pot distinctly. Every gurgle was a distinct quack. "There's art for you," said the potter. "Every gurgle of that duck pot is a quack. Wonderful Aztec art! And I have an Aztec pig pot that grunts like a pig and a dog pot that barks like a dog. Wonderful chaps, those Aztec potter fellows! I wish I knew their secret. Imagine an Aztec banquet," he said after a pause. "Pots filled, you know, with wine. And every time you pour yourself a drink 'Quack!' go the ducks, 'Bowwow!' go the dogs. Regular pandemonium!"—New York Press.

The Light of the Firefly.
When man will attain the perfect vacuum, then the rude ether bluish of the electric light bulb will give forth many times more light, purified and heatless, soft and healing, as the light of the stars, penetrating as the sun. An examination of the firefly when emitting flames or light shows bodily movements that cannot be understood to mean anything else than vacuum producing. The lights are always seen in the vacuum sack on the back. Immediately before emitting light the insect will flatten the body, draw the legs in, droop the head, seemingly contracting in all directions; then with the relaxation come the flame and light. The bodies of the glowworm and firefly always are transparent when filled with flame. The blades of grass or other debris are seen plainly through the bodies. Here are cases of nature dealing with X rays.—Chicago Tribune.

How Marshall Field Made Money.
In the early eighties, when the First National bank of Wallawalla was not as big as it is now, I pretty nearly had my breath taken away one day by a good looking stranger hailing from Chicago. He threw a letter of credit for \$80,000 from a Chicago bank on my desk and quietly said, "Can you cash that?" I looked him over once or twice, made a quick estimate of all the loose cash I thought we could scrape up and said: "Yes. How do you want it?" He gave a smile, sat down and said, "I think I'll take it in land." In a month's time, as his authorized agent, I bought about 30,000 acres of cheap railroad land for my Chicago friend, taking the deeds in my name at his request, paying an average of \$2.65 an acre. He cleared over \$1,000,000 on this one deal. His name was Marshall Field.—Senator Ankeny's Reminiscences in Leslie's Weekly.

In Great Luck.
"I have been looking over my financial operations," said Mr. Easigo. "I must say they are more successful than usual."
"Have you been making large profits?"
"No. I don't expect anything like that."
"But you say you were successful?"
"Comparatively successful. During the month I have loaned money to five friends, and only three of them have quit speaking to me."—Washington Star.

The Editor's Sally.
City Editor—What do you mean by saying in this robbery story that "Brown was knocked down and relieved of a hundred dollars?" Were you ever robbed yourself? New Reporter—No, sir. City Editor—That accounts for it. If you'd been robbed you wouldn't describe the loss of a hundred dollars as a relief.—St. Louis Republic.

His Line of Study.
"My boy is undecided about what collegiate course to take."
"Um!"
"What would you advise?"
"That depends. Does he want to build up his back muscles or his belly?"—Kansas City Independent.

Cheaper.
"Please, sir, missus wants a plumber, 'cos she's broken her diamond ring down the pipe. Mr. Nuriche—Tell your missus not to be ridiculous. I'll buy her another diamond ring!—London Daily Mail.

They fell in Europe for forty days.

To Stout Women!

The "shapeless stout woman" is getting scarce. She has found a remedy in the famous Nemo "Self-Reducing" Corset. It "makes over" your figure, giving you a better shape than you ever had, or ever expected to have; and reduces your abdomen so effectively that you can "take in" your skirts at least three or four inches.

There is a Self-Reducing Corset in a model for every type of stout woman—tall and stout, short and stout or just "fat."

312, for tall stout women	\$3
320, same, with Flatting-Back	\$3
314, for short stout women	\$3
318, same, with Flatting-Back	\$3

Every Nemo Corset is made with the Nemo "Triple-Strip Reinforcement"—bones and steels curved through.
