

OLDEST MAN IN AMERICA

Escaped Terrors of Many Winters by Using Pe-ru-na.

Isaac Brock, 120 Years of Age.

Mr. Isaac Brock, of McLennan county, Tex., is an ardent friend to Peruna and speaks of it in the following terms: "Dr. Hartman's remedy, Peruna, I have found to be the best, if not the only reliable remedy for COUGHS, COLDS, CATARRH and diarrhea."

"Peruna has been my stand-by for many years, and I attribute my good health and my extreme age to this remedy. It exactly meets all my requirements."

"I have come to rely upon it almost entirely for the many little things for which I need medicine. I believe it to be especially valuable to old people."

HORTICULTURE

RAISE EARLY VEGETABLES.

A Two-Sash Hotbed for the Farmer's Garden.

It is you, brother farmer, who never takes any interest in the vegetable garden that I am talking to. I know there are lots of you who read this invaluable paper, who say, whether you think it or not, that it is the woman's place to fool around with garden stuff."

Plan for a Good Farm Hotbed.

Plant a good assortment of good, reliable garden seed. Cultivate it well and you will be surprised how the supply of a variety of vegetables will out down the meat bill and stop and call for the doctor so often."

If you do not know how to make a hotbed, learn this spring and you will never regret or forget it. If you cannot get regular hotbed sash, good window sash will answer. Dig out a place two feet deep just about the size of your sash."

About the tenth of March fill the bed full of fermenting stable manure and pack it down. Put in about four inches of garden soil, level it down, put the sash on and let it alone for three or four days."

CULTIVATION THE KEY.

Orchard Will Not Do Well Unless Given Attention.

If you plant an orchard and think you have nothing to do but to pick the apples once a year, you will find your time and money thrown away. I should as quick think of raising corn without cultivation as apples, but you raise apple trees and corn on the same piece and give both the cultivation they need, says Solon Chase, a successful fruit grower of Maine."

A hoed crop doesn't hurt a young orchard if you will hoe the trees when you hoe the corn. After three hoed crops two years to corn and one year to potatoes, in the early spring seed to clover. In August cut a crop of hay when the clover is in bloom—a second crop of clover will grow up in the fall."

When Cultivation Paid.

The advantage of orchard cultivation was clearly demonstrated the past year in almost all sections where there was opportunity of comparing the clean cultivation and sod systems. It was easily noticeable that the drouth during the season did not materially affect cultivated or mulched orchards, but in grass orchards half the crop dropped before maturity."

"THE MARRYING SQUIRE."

Justice George E. Law Has Broken All Records.

George E. Law, Justice of the Peace, 13 1/2 Franklin St., Brazil, Ind., is known far and wide as the "Marrying Squire," from the fact that he has married more couples than any other official in Indiana. Judge Law wrote a letter in 1906, recommending Doan's Kidney Pills, which he said had made a bad back well, enabled him to sleep better nights and feel more fit for work."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Up to the Editor.

The country editor kept nagging at his new apprentice and finding fault with his work until the criticism became wearisome."

Finally the worm turned.

"D'ye expect to get a second Hor'ce Greeley for five plunkers a week?" he demanded sarcastically. "If you do you are barking up the wrong sapling. I can't set type or sling ink with Ben Franklin or Hor'ce Greeley, not on my present recompense, but you make the salary six simoleons, cash down every Saturday night, and I'll pitch in and set the journalistic pinwheels a-buzzing in Punkinville and vicinity, even if I have to stay up seven nights a week to do it."

"There's my offer, blast yer stingy hide! And now if you don't get out a half way decent journal hereafter, it is the fault of your own meaness!"

Meant the Other Way.

Rear Admiral Sperry, commander-in-chief of the fleet returned from its triumphant sail around the world, sometimes has serious spells of absent mindedness. Several years ago he was talking with a group of fellow officers at the Naval War college at Newport, when one of them remarked that he had been ordered for duty on the Asiatic station."

"Are you going to take your wife with you?" Admiral Sperry inquired. "No," the officer replied.

"I think you are making a serious mistake," the admiral continued in positive terms. "I was out there in 1876 when an epidemic of cholera broke out, and hundreds of people died."—Sunday Magazine.

NEW IDEA Helped Wis. Couple.

It doesn't pay to stick too closely to old notions of things. New ideas often lead to better health, success and happiness."

A Wis. couple examined an idea new to them and stepped up several rounds on the health ladder. The husband writes:

"Several years ago we suffered from coffee drinking, were sleepless, nervous, sallow, weak and irritable. My wife and I both loved coffee and thought it was a bracer" (delusion.) "Finally, after years of suffering, we read of Postum and the harmfulness of coffee, and believing that to grow we should give some attention to new ideas, we decided to test Postum."

"When we made it right we liked it and were relieved of ills caused by coffee. Our friends noticed the change—fresher skin, steadier nerves, better temper, etc."

"These changes were not sudden, but relief increased as we continued to drink and enjoy Postum, and we lost the desire for coffee."

"Many of our friends did not like Postum at first, because they did not make it right. But when they boiled Postum according to directions on pkg., until it was dark and rich, they liked it better than coffee and were benefited by the change." "There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs.

ROUGH STUFFING.

The Tiger—it was bad enough to be cut off in my prime, but to be stuffed by an amateur taxidermist is really too hard to bear!

An Oratorical "Sisser."

A diffident man who had been asked to respond to a toast at a banquet grew more and more nervous as the time approached when he should be called on. When at last the critical moment arrived, he gripped the edge of the table and rose uncertainly."

"Gentlemen," he said, "when I heard I was to be called upon this evening I made the effort of my life, and really the result was a fine speech. I made one telling point after another—but I kept my scintillation strictly to myself for a surprise. Only myself and God knew that speech; and now—God only knows it."

And he sat down.—Lippincott's Magazine.

Says Country People Should Know of This

A New Drug Compound Which Relieves Constipation and Purifies the System.

It seems certain that the farming class of people will be free from many of the common ills heretofore affecting them as the new drug compound called cascaryl pills is far more effective and a hundred times cheaper than the table and mineral waters used by the rich. In fact, one of these little cascaryl pills (Blackburn's) is far more effective as a mild blood cleansing physic than a whole bottle of some vile salts or mineral waters and the action is pleasurable, not drastic."

This cascaryl pill does not cause the usual griping, straining and pain which accompany the action of cathartic pills and mineral waters. It is just a new scientific drug compound made from castor oil, cascara, wild lemon, black cherry, sulphur, etc., but being made in large quantities by the Blackburn Products Co., Dept. K., of Dayton, Ohio, it is sold in packages of 15 for 10 cents or 45 for 25 cents, and any druggist can supply the reader. The above firm will gladly send a free package to any one who writes for it. If the reader wants the experience of a pleasurable physic, tonic and blood purifier, write for the free package to-day.
