# TURKEY POULTS NEED MUCH CARE AND NURSING

Dark, Damp Quarters and Vermin Responsible for Much Disease and Death Among the Young Ones. -By Anna Galigher.

(Copyright, 1909.)

A Prize Winning Turkey Tom.

the spring, and as they usually make knew it our turkeys and chickens were their nests on the ground, it is not advisable to let them hatch the first lot of eggs, unless one can get them to sit or enot prepared to say, but every

In some sheltered place.

If the hen sits in a cold, damp nest the eggs will not hatch well. This is often the cause of weak, sickly

It had a worse effect upon the tur-

While turkey hens make the best the lice. Then we began to use lard, mothers, it is a good plan to hatch the first clutch of eggs with chicken hens; "louse-killers" came into general use. then by the time the turkey hens have finished the second laying the weather is somewhat warmer and they may be allowed to sit.

See that the hens have good nests and are kept free of lice. If the hens are allowed to sit in old nest-boxes they will soon become regular louse incubators. Then when the little tur-keys come out your trouble will begin

It doesn't take many lice to kill a young turkey. A young turkey cannot endure these life-sapping creatures as

long as a chick can.

If the feed is all right, and still they do not seem to thrive, the chances are that they have vermin of some sort.

Spread the wings out and examine well on both the inside and outside. The latter is a favorite hiding place, and it sometimes happens that no lice can be found anywhere else. However, it is not uncommon to find the large lice wherever there are pin-feathers Head lice attack little turkeys almost

as soon as they are hatched.

Last year we pinned our faith to a

Turkey hens begin laying early in | so-called "louse-killer," and before we

keys and chickens than it did upon

Up to this time we had lost 15 turkeys and twice that number of chick ens, all because the "louse-killer" failed to kill lice. No more turkeys or chicks died, but thousands of lice did, Great care must be exercised lest little too much is applied. Just a little is enough, and it must be put on where it will reach the lice.

Take a little on the end of the finger and apply wherever the lice are found. Olive oil may be used instead of lard. Lice cannot live long in either, and both are harmless to the little fowls unless too much is used.

The grease should not touch the bare spot under the wings if it can be avoided, and the head should not be greased unless one is certain that either lice or nits are present.

A young turkey needs sunshine. Some people make a practice of shut-ting their turkeys up in close, dark coops for the first week or two after they are hatched.

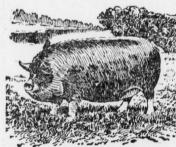

These are the people whose turkeys die "without any cause."

## **GET RIGHT KIND** OF BROOD SOW made by opening to be very good.

Scrubs Never Prove to be Money Getters.

Few things are more displeasing than to see a lot of heterogenous pigs following a scrub sow. They are unsatisfactory to the feed lot and un-profitable to the farmer.

There is no good excuse for keeping scrub sows. The brood sow should be large, roomy and stand well on her toes. The shoulders should be smooth and deep, back wide and slightly arched. There should be ample room for

Right Kind of Brood Sow

heart and lungs provided by a wide and deep chest, well-sprung ribs and straight, deep sides. A good depth of chest and abdomen are especially important in a sow.

If possible the sow should be

lected from a large litter. This is apt to insure fecundity. Each sow should have at least 12 well-developed teats, thus providing proper nourishment for large litters.

The sow should show quality, but not at the expense of constitution and vigor. When a sow has shown her-self to be a prolific breeder she should be retained as long as her reproductive powers are maintained.

tagious catarrh and will, unless immediately checked, go through the entire flock. Every affected bird should start the obstruction in the throat. be separated from the rest at once. The swelling on the head should be opened with a sharp instrument and the wound treated with an antiseptic, are burr clover, yellow, trefoil and such as listerine, or one part carbolic acid to twenty parts water. A five per and green and yellow foxtail are also cent. solution of sulphate of copper found.

injected into the nostrils, the cleft of the palate, the eyes and the wounds made by opening the swellings is said

Sometimes roup takes the form of diphtheria and is more violent than ordinary roup. Sometimes children take it from poultry. It is very difficult to cure, and if this disease got into my own flock I would kill every affected bird and burn its body. You will save time and probably a part of your flock by killing all the diseased birds and burning them.

Put the rest of the flock in warm, dry quarters, and before putting them in burn a little sulphur in the building, first closing all the openings. Do not put the birds into the building for at least five hours after the burning of the sulphur, during which time it should be thoroughly ventilated.

Pointers on Pea Raising.—It is diffiult to secure exhibation peas without thinning the clusters. A pole with a notch in one end is used, which enables the operator to twist them off rapidly. Usually, if the clusters were reduced one-half or more, the crop would be more valuable. Nature does some of this thinning, but not enough. If half the blossoms drop without setting fruit, the orchardist will do well to cut out half of those that remain.

Japanese Cherries .- The Japanese cultivate the cherry tree mainly for its blossom, and have parks and avenues of these trees. When the blossoms are at the height of beauty everybody goes to see the trees, and the mikado gives a garden party to Japanese and European officials for the enjoyment of the sight.

Feeding Calves .- Don't feed the calves too much milk. Don't feed sour milk. Don't feed the young calves cold milk or the digestion of the calf will be in danger, and lack of thrift scours and so-called calf cholera will

Relieving Choking Cow .- One who has successfully tried it says that a choked cow may be relieved by tying a stick in her mouth to hold it open fo a while. Her effort to dislodge it will

#### LOOKED A LITTLE UNSTABLE

Body Servant of Gen. Mahone Doubt-ful of the Qualities of His Master's "Props."

Gen. Adalbert R. Buffington, at dinner in Madison, N. J., told a number of civil war stories.

"Gen. Mahone," he said, "was very thin. One cold and windy December morning in '64 he was taking a nap in his tent when his old colored servant, 'Uncle Davy,' tiptoed in, and, stum-bling in the darkness, knocked down the general's folding cot and spilled him out on the frozen ground.

"Gen. Mahone jumped up furiously, seized a scabbard and made for Davy. Davy ran. The general gave chase,

"Uncle Davy tore up hill and down dale till he was pretty well out of breath; then he looked back over his shoulder at his master, who bounded after him on slender limbs, blue and thin, his long, while night shirt flut-

tering in the chill morning.
"'Fo' de lan's sake, Mars' William," the exhausted Davy yelled, desperately, 'yo' hain't trustin' yo'se'f in dis wind on dem legs, is you?'"

#### AGONIZING ITCHING.

Eczema for a Year—Got No Rellet Even at Skin Hospital—In Despair

Until Cutlcura Cured Him.

"I was troubled with a severe itching and dry, scrufy skin on my ankles, feet, arms and scalp. Scratching made it worse. Thousands of small red pim-ples formed and these caused intense itching. I was advised to go to the hospital for diseases of the skin. I did so, the chief surgeon saying: "I never saw such a bad case of eczema." But I got little or no relief. Then I tried many so-called remedies, but I became so bad that I almost gave up in despair. After suffering agonies for twelve months, I was relieved of the almost unbearable itching after two or three applications of Cuticura Ointment. continued its use, combined with Cuti-cura Soap and Pills, and I was completely cured. Henry Searle, Little Rock, Ark., Oct. 8 and 10, 1907."

Ate a Chick with Big Eyes trainman is telling an incident that occurred on a Mohawk & Malone train up in the woods the other day.

The train was standing on a siding waiting the arrival and passing of another train when an Italian walked through the coach, his hands crossed on his stomach and his head wagging from side to side in a doleful manner. "What's the matter, John?" some

one inquired. "Oh, me sick-me sick as dev," plied the man, rolling his head still more distressingly and continuing the rubbing of his stomach.

"Sick? Well, what you been eating?" asked the sympathetic passen-

ger.
"Eata de chick with the big eyes," responded John, as his groans in-

John had killed an owl the night before and it didn't agree with him .-Utica Observer.

Interrupted the Wedding.
The other day, at the Shawnee county Court House, Probate Judge Schoch was about to marry a young couple. He pronounced the preliminary words and told them to join hands, and started on the ceremony.

"Hey, there! Hold up a minute! Wait, I say!" This series of startling exclamations came from the door.

The groom was horrified—the bride badly scared.

"Just a minute. I want to give you each an apple before you are married." said the man who had made the noise. And in he calmly walked and handed each of them a Grimes Golden.

It was one man's idea of a joke. Kansas City Journal.

#### PRESSED HARD Coffee's Weight on Old Age.

in health that Postum can bring, they are glad to lend their testimony for the benefit of others. A superintendent of public schools

in one of the southern states says: "My mother, since her early childhood was on inveterate coffee drinker had been troubled with her heart for a number of years and complained of that 'weak all over' feeling and sick

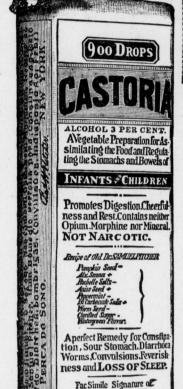

stomach. "Some time ago I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavour of the cof-fee, and asked him concerning it. He

replied that it was Postum.
"I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family were so well pleased with it, that we discontinued coffee and used Postum entirely.

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was as well and hearty as the rest of us.

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing." Read, "The Road to Wellville," pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

#### ASK FATHER.

Clergyman-What would your father say if he saw you digging for W. N. U., CLEVELAND, NO. 25-1909.

worms on Sunday? Willie-I don't know; but I know what he'd say if I did not dig for them. That's him fishing over there."

GOT TO THE CAUSE

And Then All Symptoms of Kidney Trouble Vanished.

C. J. Hammonds, 517 S. Hill St., Fort Scott, Kansas, says: "I was operated on for stone in the kidney but not cured and some time after was feeling so bad

that I knew there must be another stone that would have to be cut out. I decided to try Doan's Kidney Pills

and the kidney action improved right away. Large quantities of sediment and stony particles passed from me, and finally the stone itself, part dissolved, but still as big as a pea. With it disappeared all symptoms of dizziness, rheumatism and headaches. I have gained about 50 pounds since and feel well and hearty." Sold by all dealers. 50 cents a box.

Foster-Milburn Co., Buffalo, N. Y.

### Rabbinical Wit.

An Engilsh rabbi was asked if there was any weighty reason against havwas any weighty reason against having a clock in the synagogue. "By no
means," was the reply. "Have your
clock, but put it outside the building,
and then you can tell how late you
come to the service." Two rabbis when prominent men realize the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their their techniques. "You I enzy you!" said the first "You I enzy you!" said the first. "You must be in a paradise." "Hold, friend!" the second explained. "In the original paradise there was only one serpent, but in this congregation

> Oil Lamps Brighter Than Electric Light.

Probably one of the most wonderful as well as useful of modern inven-tions is that of a New York scientist who has just secured from the Gov-ernment protection on a lamp burner, which by converting the oil into hy dro-carbon gas, burning on a mantle gives an eighty candle power light with less oil consumption and without carbonizing the mantle or over lout carbonizing the mantle or over-heating the lamp. It can be fitted to any lamp and the wick lasts a life-time. There is absolutely no danger, no odor and no smoke. The Union no odor and no smoke. The Union Light Co., of New York City, have ac quired the selling rights of this burner, which is called the "Herzog," after the inventor, and, we understand, are making a special discount to introduce it into each township with a view of securing a local representative.

"We all make blunders. I thought once I was a square peg when I was really a round one." "How did you find out your mis-

# "I was not told the whole truth"-William Jennings Bryan

In a speech made in the Gulf Coast Country of Texas in December last, Hon. William Jennings Bryan said—

"The trip through your fertile valley has been a succession of surprises to me and the only fault I can find is that I was not told the whole truth. The development surpasses the reports which I had heard. I am pleased with the soil and the climate, and besides having natural advantages you have the advantage of irrigation.

"You are creating wealth and what you make you are entitled to. You are earning legitimate fortunes.'

Yes and liberal fortunes too, for money is made quickly and easily in the Gulf Coast Country of Texas. Profits of from \$300 to \$1000 an acre are the rule, not the exception. Why don't you do the same-you don't need much capital. You can

buy the few acres you need on easy terms and the first crop, if properly cared for, should more than pay for the land. O. Riggs, Mercedes, Texas, bought ten acres last fall. Including clearing, plowing, etc., it cost \$2040. He has shipped enough beans

from the land to pay for it in less than six months and can raise

another crop before the year is out. Very low excursion fares via Rock Island-Frisco Lines twice month. It will pay you to see for yourself.

Write today for full information about big profits growers are making in the Gulf Coast Country of Texas, and a set of colored post cards of Texas Gulf Coast Scenes.

John Sebastian, Passenger Traffic Manager, Rock Island-Frisco-C. & E. I. Lines 2027 LaSalle Station, Chicago, or 2027 Frisco Building, St. Louis
