Disinfect

Some disinfectants and germicides might be classed as drugs but, you do not want to be drugged just now with a bug killer. However, now is the time to think of getting after the rose bugs and currant worms.

We have a full line of the "remedies" for that class of pests. Also a non-poisonous bed bug exterminator in small cans.

The Garden and the Hen.

Did you ever work for ten hours and make a beautiful garden about the size of a large pocket handkerchief? And then after it was all planted and up did you ever find a hen that looked like a cross between a greyhound and a buzzsaw right in the middle of it with the air full of young lettuce and radishes? Did you then remember that the hen was made for some useful purpose and that innocent children might be in hearing distance?—Butler (Ga.) Democrat.

Railroad News.

The Pennsylvania Railroad Company, in conjunction with the Hudson & Manhattan Railroad Co., has arranged that on and after Monday, July 19, 1909, all tickets to and from New York shall, without additional charge, be valid through the new Hudson tunnels to and from the Hudson Terminal Building, at Church and Cortlandt streets, New York City, within one block of Broadway and adjoining a Sixth avenue elevated station.

Passengers coming to New York, whether on one-way or excursion tickets, will have the alternative of crossing the river on the company's ferry boats to Cortlandt, Desbrosses and Twenty-third streets, or of taking an elevator in the station at Jersey City, descending to the Hudson tunnel and going by subway to the terminal in New York City.

Coupons are to be attached to one-way and excursion tickets from Philadelphia and points east, except stations between Bay Head and Toms River, N. J., inclusive. These coupons will be collected and commutation tickets will be punched at the entrance to elevators in the Jersey City station.

Passengers coming from points south or west of Philadelphia, will, upon application, and without charge, be supplied by conductor with a tunnel ticket before reaching Jersey city. Leaving New York, all Pennsylvania Railroad tickets are to be accepted on the concourse floor of the Hudson terminal for transportation to Jersey City.

The Pennsylvania time tables will set forth the leaving time of trains at Twenty-third, Desbrosses and Cortlandt streets, as well as the leaving time at the Hudson Terminal. For each of the regular through trains a special tunnel train will be provided to leave the Hudson Terminal five minutes after the Cortlandt and Desbrosses street ferries are scheduled to leave for Jersey City, and ten minutes after the leaving time of the Twenty-third street ferry.

Tickets to all points on the Pennsylvania Railroad are to be purchasable at ticket windows in the Hudson Terminal, as well as at the regular city ticket offices of the company. For the present, however, baggage will be checked only to and from the ferry stations at Jersey City.

The Pennsylvania Railroad's eighteen hour train between New York and Chicago has just completed a continuous record of four years' service. From June 12, 1905, when the train was started, to June 12, 1909, a total of 2,922 trips were made—1,461 in each direction—and upon 2,483 or 85 per cent. of these trips the train was on time or within five minutes of its schedule at destination.

The actual running time of the "Pennsylvania Special" from Jersey City to Chicago is 17 hours and 41 minutes. The scheduled time is 57.2 miles per hour, or 1,061 minutes to cover 912 miles. During this period of four years, therefore, the train has travelled 2,655,744 miles, and 2,145,740 miles were covered in scheduled time.

Upon only 160 trips, or an average of 80 in each direction, for the entire four years—or 20 for each year—was the train more than 30 minutes late. From New York to Chicago the train was on time to the minute 1,159 times out of 1,461 trips, while from Chicago to New York, the train arrived exactly on schedule 1,202 days. These records take account of operations during the while of the winter period when snow, ice, fog and storm have to be encountered frequently.

The best record of the four years was the last, June 12, 1908, to June 12, 1909, when the train was on time or within five minutes of its schedule at New York on 326 days out of 365, and at Chicago on 312 days. The train thus made its schedule during the past year approximately 88 per cent. of the time. For the month ending July 1st, 1909, the train was absolutely on time at both Chicago and New York upon every one of the 30 days.

This train has thus now been operated continuously for a longer period, and has made its schedule with greater regularity than any other train of like speed and distance in the history of transportation.

Church Dedicated.

EDITOR PRESS:—I want to say just a word to your readers. The Mountain Mission Church was dedicated last Saturday and Sunday. A full report will appear in next week's PRESS, not having the time to do so this week. Jos. Newton and wife were the only ones from Emporium in attendance. We received a letter from our old friend and comrade, Hon. J. C. Johnson, bringing a contribution and full of good cheer and encouragement. We would be pleased to have it printed to let people know that there are some who think well of us, but probably it would not be wise to do so without his permission. Watch for full report next week.
