#### Tariff on Lumber. There is considerable said regarding

the Lumber Tariff. The people have been made to believe that the Tariff on lumber costs the consumer more for his lumber. As a matter of fact, if the Tariff should be taken off lumber no farmer would buy a board a single dollar cheaper unless there should come a panie which would stop all building operations. At present the lumber supply from foreign countries comes chiefly from Canada. And the Canadians are on to their job. They have adopted regulations which prohibit the exporting of saw logs to the States to be manufactured. From 1904 to 1908 Canada sent into the United States more than three billion feet of manufactured lumber, valued at over sixtyfour million dollars, but not a saw log does she let come over. And now the same regulation is to be adopted in the item of pulp wood. The wood must be converted into paper in Canada. That country wants the whole thing. She wants our markets in which to sell her manufactured products, but she will not reciprocate. The reason why lumber would not be cheaper were the Tariff taken off is because this country is already taking the manufacturing capacity of Canada. Take the Tariff off and it would put just the amount of the Tariff reduction into increased prices of stumpage, crown dues and increased profits to the manufacturer and dealer. A greatly increased product would of couose tend to reduce prices if the market should be glutted, but the increased produce isn't to be had. In fact, the available supply in Canada is diminishing rapidly now. These things are easy to understand if any one desires the facts. It is the "Tariff revision downward" yelper who doesn't know the first principles of the situation and is simply trying to befog the people.-Bay City (Mich.) "National Farmer."

The Delineator for September. When a magazine finds some one who can testify to an experience that it really novel, it accomplishes what is almost impossible in this day of strenuous living and much writing. In September number, The Delineator presents an article by Alma V. Lafferty, the only woman member of the "Colorado Legislature. "Being a Wowan Legislator" is a frank confession of difficulties encountered and laobstacles overcome. Mrs. Lafferty tells what she accomplished and she does not omit to record her failures. What she says will be read with special interest by all who are interested in social reforms.
