A HUMANE WORK.

During the meeting of the medical association at Atlantic City, a suggestion was made that the women physicians of New York and other towns of the north should co-operate in the work of teaching the poor to avoid dis ease, says the Florida Times-Union. Thus and individual work has become one of strength and union. The physicians of the female persuasion have already begun at their humane task, and the poor, infected children of the crowded quarters will be saved by it. The great philanthrophy of this movement can scarce be weighed until one realizes the want, the ignorance and the disease that reign over the tenement districts of New York. The women especially will be taught to take hygienic care of their little ones as well as of themselves. What is the use of supplying pasteurized milk to the infants if the mothers don't know how to feed it to them in a cleanly, sanitary manner. Besides, pasteurized milk does not disinfect a room where baby lives, neither does it make him immune from the diseases which attack his elders with whom he is in too close contact. Teaching the poor, ignorant mothers is saving the race, and no other class of women can be better teachers of the miserable masses than the woman who holds a medical diploma.

The lot of rulers in Russia, Turkey, Portugal, Morocco, Persia and Spain, not to speak of some South American countries, might appear to a calmly philosophic observer calculated to discourage the pretending business. It does not seem to the ordinary man that the job from which you are likely to be forcibly detached by a mob, or dynamite bomb, is worth straining yourself to get. But royal human nature is such that the pretenders keep right on pretending.

That Paris doctor who is advocating the removal of the large intestine from every child before the age of three years, on the ground that this organ is a breeding place for most of the harmful germs that flesh is heir to, has struck a great scientific principle, says the Philadelphia Telegraph. Fol lowing it out, we would have amputation of the feet as a cure for corns, of the nose for snoring, of the stomach for seasickness, and of the head for headaches. Simple, isn't it?

It is the indirect loss which counts adversely when epidemics of any kind break out in a country, and quarantine precautions are instituted by other nations. The British government has just revoked the orders prohibiting the landing of hay and straw from New York, New Jersey, Pennsylvania, Maryland and Delaware, although the foot and mouth disease which appeared among the cattle of those states in 1908 has been stamped out for many

Many stocks are making new high records in the New York market, and whether or not the buyers are getting good bargains there isn't much reason to doubt that current prices are prophetic in respect to the business outlook and the good times which are needed to support such Wall street optimism. The business of the country is going to make many new records,

The killing of a little girl by a boy of 12 who was overfond of playing highwayman suggests that the youth of the country should have either less stimulation with high-colored litera ture and moving pictures or more stimulation with the rod. Or a combination of both might not be injuci-

Only a short while and the aero plane will no longer be a novelty. Just as soon as a sensational invention becomes an assured success it becomes prosaic, and the world impatiently awaits for something new to thrill.

MEXICAN RIVER FLOODS

HALF OF CITY OF CAMARGO WASHED AWAY.

Fully 200 Families Homeless and Badly in Need of Food Supplies-No Loss of Life.

Laredo, Tex.—A dispatch just re-ceived by the mayor of Nuevo Laredo, Mex., from Camargo, Mex., situated 125 miles from this city, on the lower Rio Grande, stated that as a result of the flooding of the San Juan river, due to the recent heavy rains and the overflow from the Santa Catarina river, which is a tributary of the San Juan, half the city has been washed away and there is great suffering among the poor Mexicans. The telegram states that fully 200 indingent Mexican families are homeless and badly in need of food supplies.

There is no mention made of any loss of life, so it is assumed that, unlike the flood at Monterey, which claimed such a large number of victims, the inhabitants of Camargo had ample warning and were enabled to escape to high ground and save themselves. Camargo consists principally of an aggregation of small adobe It is a town of approximately 4,000 inhabitants. It is impossible to estimate the financial loss.

TRAIN SMASHES STREET CAR

Thirteen People Are Severely Injured, Two of Them Probably Fatally, at Des Moines, la.

Des Moines, Ia.-Mrs. R. M. Rollins and Mrs. Edward Lawless vere probably fatally hurt and other passengers were severely injured when a loaded Rock Island passenger train, carrying state fair visitors, struck a packed Fort Des Moines street car in the middle and crushed

the burner of the mode and change it to kindling wood.

The street car was dragged 50 feet on the pilot and wrecked against the steel girders of the railroad bridge across the Des Moines river. The wrecked car remained balanced precariously on the bank of the river 20 feet above the water. It was with difficulty that the injured were taken rom the wreckage without falling into the river.

While rescuers were removing the street car passengers from their perilous situation, another Rock Island train ran into a crowd at the rear of the first excursion train and a second catastrophe was narrowly averted. All the injured live in Des Moines. While only 11 were taken to hospitals, every body in the street car was hurt. Mrs. Lawless, who may die, suffered her throat cut by a piece of glass. Conductor Harry Badgley of the street car declared that the right of way had been given his car by the flagman at the crossing.
