THREE BOATS AND **52 LIVES ARE LOST**

ONE OF THE MOST DISASTROUS STORMS IN THE HISTORY OF GREAT LAKES TRADE.

STEEL CARFERRY WRECKED

Something Will be Done to Stop Sail ing on the Lakes in December -Rescuing Tug Returns After Vain Search.

Cleveland, O .- Fifty-two lives were lost in the storm that swept Lake Erie, to say nothing of the loss of property that may reach \$1,000,000. With the possible exception of the gale that wrecked a dozen modern vessels on Lake Superior in 1905, it was the most disast in the history of the lake trade.

Three big steamers were wrecked, and there was a big loss of life in every, case. The big steel carferry steamer Marquette & Bessemer No. 2 has been added to the list of lost vessels with the loss of 32 lives. That, with the loss of life on the steamers W. C. Richardson and Clarion, makes a total of 52.

The Alva B., in command of Capt. John Ryan, who made a thorough search for the 13 missing members of the steamer Clarion, has returned to port without finding any trace of the lifeboat or the sailors. That all the men were lost is quite certain. If they had been picked up by a downbound steamer it would have been reported, as all the ships that were out have been heard from.

Winter navigation has been very costly all around this year, but the lesson will probably do some good and will result in the saving of life and property in the future. That something will be done to stop sailing on the lakes in December is certain.

TO STAMP OUT WHITE SLAVERY

Horrible Details of Discoveries Made by Agents of the Immigration Commission Are Told.

Washington, D. C .- Stories of reolting practices of American and foreign procurers of women for importamoral purposes are told in a report just issued by the immigration com mission. The recommendations of the commission contemplate a closer scrutiny of the admission of alien women and renewed efforts to stamp out the so-called "white slave traffic In explanation of the act of laying to the public horrible details of discoveries by its agents, the com mission says that the white slave traf-fic is the most pitiful and the most revolting phase of the immigration question.

The inquiry covered the cities of York, Chicago, San Francisco, Seattle, Portland, Salt Lake, Ogden Butte, Denver, Buffalo, Boston and New Orleans. The report deals with methods being used by men and women procurers to lure women into this country for immoral purposes. In some countries men and women in the business of enticing innocent irls to the United States resort proffers of attractive positions, and in nany cases the men offer themselves in marriage and frequently risk pros ecution on charges of bigamy in order

AMERICAN SETTLERS WELCOME AND DOING WELL.

The Portland Oregonian, of Portland, Oregon, published a cartoon on the immigration of U. S. people to Canada, in its issue of October 5, 1909. The picture was accompanied

by the following article:
"Losing American Citizens. The exodus of American farmers to Canada continues to be a phenomenon of the first importance. More of them are crossing the border this fall than ever before, and they are flocking from all parts of the country. Formerly it was the Middle West alone which thus lost the heart of its citizenship. Now all sections of the Union suffer alike. The regret which we cannot help feeling over the migration of many thousands of excellent citizens has an economic side which causes some concern. The 70,000 farmers who will go to Canada to live this fall will take with them some \$70,000,000 in cash and effects. This is by no means a negligible sum, and makes a very appreciable drain on our resources. But, of course, the most serious loss is the men themselves and their families, who have forsaken the land of the free and the home of the brave to dwell under the rule of a monarch.

Why do they go? Naturally the cheap and fertile land of Western Canada attracts them. Each emigrant goes with a reasonable expectation of bettering his fortune. Indeed, in a few years he may grow rich through the abundant crops he can raise and the increase of land values. But perhaps that is not the sole reason for the astonishing migration. There is a common notion abroad that in Canada life and property are appreciably safer than they are here. Murders are not so frequent, and are more speedily and surely punished. Mobs and the so-called 'unwritten law' are virtually unknown in Canada. Again the law is a vastly more ascertainable entity there. Canada does not permit its judges to veto acts of the legislative body. When a statute has islative body. When a statute has been enacted it is known to be the law of the land until it is repealed. this naturally imparts to Canadian civilization a security and stability which we have not yet attained.

"We must remember, in the same connection, that the Canadian protective tariff is far less exorbitant than ours, and much less boldly arranged for the benefit of special favorites. there is an impression, very widely diffused, that the Canadians are not so wickedly robbed by the trusts as we are in this country. Reasons like these sufficiently account for the exodus of a body of citizens, whom we can ill afford to lose, but they do not much assuage our regret that they cannot be retained in the United States

Speaking of this, a Canadian Government representative says that the Americans who cross the border are The splendid areas most welcome. of virgin soil, a large quantity of which is given away as free homesteads, lie close to existing railways and to those under construction. The railway lines that are assisting in this development are the Canadian Pacific, the Canadian Northern and the Grand Trunk Pacific. The latter is built entirely on Canadian soil, and has opened up a wonderful stretch of land. Along this line during the year about closed thousands of American settlers have made their homes. They have built the towns, and immediately began as factors in the building up of the great Canadian West.

FOR OLD PEOPLE.

After reaching the age of forty the human system gradually declines. The accumulated poisons in the blood cause rheumatic pains in the joints, muscles and back. These warnings should be promptly relieved and serious illness avoided by using the following prescription which shows wonderful results even after the first few doses and it will eventually restore physical strength.

"One ounce compound syrup of Sarsaparilla; one ounce Toris com-pound; half pint of high grade whiskey. This to be mixed and used in tablespoonful doses before each meal and at bedtime. The bottle to be well shaken each time." Any druggist has these ingredients or can get them from his wholesale house.

Found a Cure in Cuticura.

"Our son, two years old, was afflicted with a rash. After he suffered with the trouble several weeks I took him to the doctor but it got worse. The rash ran together and made large blisters. The little fellow didn't want to do anything but scratch and we had to wrap his hands up to keep him from tearing the flesh open till the blood would run. The itching was in-tense. The skin on his back became hard and rough like the bark of a tree. He suffered intensely for about three months. But I found a remedy in Cuticura Soap and Cuticura Ointment. DEEP-SEATED COUGH

(Cut this Out.)

From Boston Post.

Progress in medical compounds never ceases, and now it is stated by a prominent medical man that any deep-seated cough or cold on the lungs can be actually cured in five hours by the clock. Opium or morphine have been resorted to in the past, as relief measures. But now it is learned that the system must be treated to rid it of inflammation and congestion. A tonic laxative cough treated to rid it of inflammation and congestion. A tonic laxative cough syrurp does the work so quickly and thoroughly as to be almost magical. What heretofore has taken weeks to cure can be accomplished in hours. Get this formula filled or mix it at home and always keep it on hand: One-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Shake the bottle and pine compound. Shake the bottle and pine compound. Snake the bottle and take twenty drops every half hour for four hours. Then take one-half to one teaspoonful three or four times a day until the system is purified and toned up. Give children less according to age. One filling will usually cure a whole family, as the dose is small.
